It is perfumed with roses. Made of vegetable oil and glycerin. So pure that you can see through it. An exquisite production--the very best that any price can buy.

## REPLACES WEAKNESS WITH STRENGTH

My Method of Applying Electricity for the Radical Cure of Nervous and Kindred Ailments Has Proven the Greatest Good Ever Offered Suffering Men. My Free Book on Nervous Disorders and Electricity.

After many years of patient study and work I have discovered a means of applying electricity to weak systems which will not fail to cure. My Electrical Appliances are used in every known part of the world, and I am daily in receipt of letters from now cured and happy patients praising them. I call my Electrical Appliance an "Electric Belt," because that is really the proper name for it, as the Appliance is worn around the body as a belt, but do not confuse my discovery with the many contrivances, so-called electric belts, which are now being offered to the public in great variety. My discovery is my own. I owe my success entirely to the sterling merit of my Appliance.

## FAILING POWER

Weakness and a Lack of Vigor are danger signals held out by Nature, warning you that your Nervous System is rapidly breaking down. Secure my free book on "Failing Power" and learn just how and why electricity, properly applied, will effect a cure in your case.

My Electrical Appliances will cure in any stage of weakness and will restore strength, power, vigor and vitality to either sex; will cure Rheumatism in any form, Kidney, Liver and Bladder troubles, Constipation, Stomach Disorders, all Female Complaints, etc. My New Electrical Suggestion for the cure of Men's Weaknesses free to male patients.

Dr. Bennett Electric Belt Co. Omaha, Neb. Dear Sir: I purchased one of your Electric Belts on Nov. 11th, for nervousness, sleeplessness and constipation, and after wearing same for the last five nights will say that I can testify to the recovery of my belt for such troubles that afflicted me, as I have been greatly benefited after wearing your appliance so short a time.

Yours respectfully,

## CALIFORNIA CONTAINS GREAT PROPORTION

Japanese Have Become More Numerous During Last Ten Years, While Chinese Have Shown Corresponding Falling Off.

WASHINGTON, Nov. 18.—The census bureau today issued a bulletin showing the distribution of Chinese and Japanese in the western states and territories by counties. It shows that of the 119,650 Chinese returned at the twelfth census 25,767 were enumerated in Hawaii, 3,116 in Alaska, 304 at military and naval stations abroad and 82,563 in the United States proper. Of the latter number 67,729 were found in the western states and territories, distributed as follows: Arizona, 1,419; California, 45,753; Colorado, 599; Idaho, 1,467; Montana, 1,739; Nevada, 1,352; New Mexico, 341; Oregon, 10,297; Utah, 672; Washington, 3,829; Wyoming, 461.

## CALL TO TALK RECIPROcity

Delegation of Implement Men and Senator Cullom Visit the President.

WASHINGTON, Nov. 18.—The president's time today was occupied largely in the discussion of reciprocity. Senator Cullom of Illinois and Representative Dalzell of Pennsylvania had something to say to him upon that subject and a delegation of implement manufacturers, consisting of James Deering of Chicago, A. B. Farquhar of New York, Pa., and W. C. Barker of New York, who are here to attend the reciprocity convention which meets tomorrow, presented a memorial strongly urging that something be done. The delegation told the president that, in its opinion, the time for action had come. Reciprocity had been talked and preached about for years and unless a decisive step was taken now which would effect something the whole subject might as well be abandoned.

## Officers Discredit Rumor

WASHINGTON, Nov. 18.—Army officers wholly discredit the published story of the reported conspiracy to secure the independence of Alaska. The only report made by General Randall to the War department from his headquarters at Vancouver related to the transfers of a couple of engineers from Valdez to Fort Egbert. The syndical suggestion is thrown out at the department that the story is devised to secure the return of soldiers to Alaska.

## NEBRASKA QUARANTINE LAW EXPLAINED

Attorney General Prout Tells Why Power is Vested in Local Boards—Emergency Action Often Required.

(From a Staff Correspondent.)  
LINCOLN, Nov. 18.—(Special.)—"If the populists hope for ultimate success in Nebraska through continued fusion with the so-called Bryan democrats, it is just as well for the great majority of the democratic party to say that they hope for success without the aid of the Bryan democrats," declares a man who has for several years acted in an advisory capacity with the democratic state central committee. "But the argument that the result should convince every democratic voter of his error and that henceforth he should join the results from what he would expect to do to democrats who want to vote the republican ticket. There is another class of democrats who, although somewhat silent for the present, believe that there is room in this country for two great political parties, that the one-party system, since the days of Washington, has not worked in practical government and that an administration will always be the choice of a majority after a more or less spirited contest. Every student of government knows that that is a condition that should prevail and that the best government is that which results from a free choice after a lively agitation.

## St. Paul's Church Dedicated

Contrary to announcement, the magnificent new St. Paul's Methodist Episcopal church was dedicated last night, with enough money pledged to free it from debt. When the morning services began the church debt was \$30,278, including fixtures and an organ. The debt on the building was \$20,000 and it was necessary to raise that amount before the building could be dedicated. At the close of the meeting at night the amount pledged was \$22,418.48, leaving a surplus of \$2,570.48 over and above the entire indebtedness on the church, organ and fixtures. The largest subscriptions by individuals were blocks of \$2,500.

## Facts About Oil

California produces about 1,000,000 barrel 30,000,000 barrels would be consumed if California and eminent authorities say this oil annually. It is all consumed in California.

Over 5,000 oil burners have been attached to kitchen ranges in the suburban city of Oakland alone.

The California field is about three years old. \$100 invested in the Home Oil Co. of California would have returned \$20,000; \$100 in the Union Co. \$10,000.

Many people in the United States are today living on the income of \$100 invested in California oil stocks.

California oil wells average less than 100 barrels daily.

Beaumont (Texas) oil wells (Spindletop Heights) run from 40,000 to 150,000 barrels daily.

Russian gushers originally spouting 25,000 barrels daily still spout 25,000 barrels. Some of the Russian wells have returned \$20,000; \$100 in the Union Co. \$10,000.

The Beaumont field is only 10 months old. 50 gushers have been brought in. 135 miles of pipe lines have been built. steel tanks holding 5,000,000 barrels have been erected.

Loading racks with a capacity of 1,000,000 barrels daily have been erected.

Three oil refineries are under construction.

One company (The J. M. Guffey Company, Pennsylvania oil operators) are said to have invested over \$10,000,000 in the Beaumont field.

A regular line of oil steamships now run to Sabine Pass.

Mr. Paul Dvorkevitz, the greatest living authority on oil, editor of the Petroleum Review of London, says: "The future of the Texas field is beyond comprehension."
