RAILROAD SETTLES SUIT

Milwaukee Line Adjusts Its Dispute with Grain Company.

EVIDENTLY WILL CONSENT TO SHIPMENTS

Though Terms Are Withheld It is Probable Surrender is Similar to That of Northwestern.

The suit brought in the district court here by the McCaull-Webster Grain company of Minneapolis to compel the Chicago. Milwaukee & St. Paul Railroad company to and treasurer of the Portland Gold Mining transfer cars of grain shipped over its road for delivery at the Union elevator has been settled. Word to this effect was contention of Doyle-that he had demanded received yesterday afternoon by the local attorneys for both sides in a telegram him for his interest in the Bob Tail No. signed by Burton Hansen, general solicitor 2, Tidal Wave and Devil's Own claims. for the railroad, and J. L. McCaull, senior well as the petition filed before the State Railroud commission.

The suit was brought by the grain comrailroad refused to allow cars in which grain had been shipped over its line to leave its tracks in this city, despite the fact that the grain was billed in care of the Union Elevator company at the Union have access to them. Pacific transfer depot. The refusal on the part of the railroad to allow the cars to be switched for transfer to the elevator made it necessary for the grain company to transfer the grain from one car to auother, thereby entailing a loss.

What the terms of settlement are is not known here, as the telegram simply contained the announcement that the matters in controversy had been adjusted. The result of the suit was considered to be of considerable importance to the farmers of this section of the country, as the McCaull-Webster company, by shipping to the gulf ports, was enabled to pay 2 cents a bushel more for grain than when it shipped to the Atlantic ports via Chicago and the New York trunk lines.

The case had been partly heard by Judge Green, the evidence having been submitted and a continuance taken for counsel to present their arguments.

The McCaull-Webster company had a somewhat similar case against the Northwestern railroad, which was also settled out of court.

As Orr is over six feet tall and built in proportion, none of the members of the household felt like running the risk of attempting to throw him out. Officer Gallagher was away attending lodge. Hints were thrown out to Orr that he would better leave the house before Officer Gallagher returned, but he intimated in language more strenuous than parliamentary that he was not afraid of any po liceman, Irish, Dutch, Dane or American When Officer Gallagher returned from lodge he found Orr in possession, but it did not take him long to persuade the ham inspector from the Windy City that a ride in the patrol wagon was about the best thing for him at that time of night. This windfall will come to smallest in years, but this year it is even less than it was in 1900. It is the smallest in the history of Pottawattamie county in a long number of years.

In some of the townships there is not single piece of property advertised as delinquent, while in several the number does not exceed half a dozen. The list in the city of Council Bluffs is smaller than it has been for a number of years, although there is a certain class of property, such as outlying unimproved additions, which is always more or less delinquent. Even the property deliment on special taxes is maller this year than usual.

Property owners have been unusually diligent this year in paying their taxes. This is accounted for by the prosperous times and the cheapness of money. People who own property, even if they have not the ready cash, are not willing to pay the penalty of 1 per cent a month when they can borthe amount needed to pay their taxes

Gentlemen: — Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

I underwent treatment for caturrh, for three months, without any success, consulted a number of physiciants, among others, the most eminent ear speculist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected car would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to day, after five weeks, my hearing in the diseased ear has been entirely restored.
