PROPOSES INSPECTING THE GLASSWARE

States in His Report that it Would Be Well to Guarantee Uniformity in the Tests at All

Places.

(From a Staff Correspondent.) DES MOINES, Nov. 23 .- (Sptcial.)-There are 960 creameries in Iowa, as shown by the appual report of the state dairy commissioner filed today, a loss of thirtyfour during the last year. Despite this loss of creameries the business is in a fairly flourishing condition. The number of cooperative and individual ownership creamerice is practically the same from year to year and the number of stock company creameries is increasing. There is a tendency to return to the gathered cream system, because of the introduction of farm separators. The total value of creameries and skim milk stations is \$2,760,448. The average wages of buttermakers have increased to \$55.72 per month. Of the 1,382,-242 cows to lows, as shown by the last census, 675,000 are in connection with of butter has fluctuated less the last year than for many years. In 1894 the fluctuation was 11.4 cents a pound, and this year but 6.4 cents a pound, showing that the business is on a better basis than ever be-

fore and the price more uniform and stable. New Legislation.

The new legislation asked for by B. P. Norton, dairy commissioner, in his report, is in the line of improving the quality of the work done at the creameries. The last ernor Shaw: President MacLean, President legislature made provision for one expert assistant. His work has been so useful that several others are asked for. As many and W. L. Tomlins of New York; discussion are wanted as the legislature is willing to of the Sunday school as an educational facgrant. The commissioner would also have tor, methods of teaching music and a serthe glassware for the creameries all come mon by Bishop Spalding of Peoria. A. W. through his office and be tested before being sent out. This would secure uniformity and accuracy in the testing of milk for butter. This would involve but little extra expense to the creameries. He would also require that the creameries be compelled to report to him on a stated date, and would reduce the penalty so that it would come within the jurisdiction of a justice of the peace. He suggests that there be a provision that creameries furnish patrens with an exact statement of the business done and he mentions that it might be well to have an examination for buttermakers services, smoking sets, rocking chairs, and issuance of a certificate.

Not Much Olcomargarine.

Was a cheap article and because of the natural prejudices that exist in favor of pure butter. It is true that a few hotels endeavor to use the spurious article without the knowledge of their guests or the dairy commissioner, but there is every reason for believing that the use of oleomargarine in this state is very small in amount and that it is practically confined to railway boarding camps and similar places where cheap board is pecessarily furnished.

KANSAS CITY, Nov. 23.—A special to the Star from Fort Scott, Kan., savs: The federal grand jury, in session here, has indicted five of the principal men of the Webb City (Mo.) Athletic lub, including a banker, A. P. Stewart of that town, in connection with the recent heavy losses of money at the club's foot-racing track there. It is asserted by the officers where the members of the club do not deny having won, in the last eighteen months, upward of \$200,000.

The winnings last week are known to be supported as a present of the club ing a cheap article and because of the nat-

boarding camps and similar places where cheap board is necessarily furnished.

There is no law in Iowa relating to the sale of the process butter, but the elemangarine law is so comprehensive that instances of its legal sale or use in Iowa are extremely rare. Specific reference is made in the report to a case in Delaware county, where one who was indicted for having yellow elemangarine was acquitted; the forefeiture of a cash bond by a leading hotel-keeper of Mahaska county who was caught with yellow eleo; paying of fines by two railway contractors in the same county and placing another under bonds to appear at tours; prosecution of a man in Clinton county who sold eleomargarine in tendount tubs, but refusal of the grand jury to indict.
