very slow sale and in a good many intervalse less than the same kind sold for yesterday. From that it is seen that the range of prices is growing wider at a rapid rate. There were a good many cows included in the offerings this morning and the qual-ity as a whole was very common. The good kinds sold freely at fully steady prices, and, while the medium grades and canners were not quite as active, still they sold in just about yesterday's notches. Buils, veal calves and stags also sold without material change. There was a good demand for heavy-weight feeders showing weight and quality steady prices. The above extract taken from the Dally Enterprise of Beaumont, Tex., as reported by a daily reporter who visits the oil fields

every day, gives the readers of Council

Bluffs papers an opportunity to know just

what people away from home think of the Omaha-Texas Oll company holdings, and this is taken from the pen of a person unbiased in any particular, giving the daily news just as he finds them in the field. Indications are now that the stock in the Omaha-Texas Oil company will sell at

25 cents but a short time longer. Those of our friends interested in this financial

enterprise should awake to the necessity

of placing their orders for as many shares

as they can purchase while they can yet get in on the ground floor, as it is only a

question of a very short time when they

will be compelled to pay more than at pres-
