Story of the Fight

How the quarrel began no one in the excited erowd seemed able to explain. J Rominek, who lives over 1461 South Fourteenth street, says that he saw at least two and possibly more men fighting with their fists in the atreet, then the flash of a knife, but when he descended to the street the battle was over. Sydey lay upon the pave ment apparently already dead and Beardwell was standing near, seemingly at a loss a know what to do. The latter fled only when the patrol wagon was sighted tearing along Thirteenth street toward him. Rominek says that Sydey was at once carried into the Nusrallah store, but that the man was evidently already dead.

Tillie Plulal, aged 9 and living at Thirteenth and William, told the police that she was standing on the bluff across the street to the east and saw several men fighting. and that there was more than one knife used. In partial confirmation of this is another report that another man left the scene with a freshly scarred arm.

Wound Instantly Fatal.

Dr. J. J. Dallal, also an Assyrian, of 1251 South Thirteenth street, was summoned, and upon opening Sydey's shirt found a keen gash two inches broad and deep enough to pierce the heart through the third antepace of the right auricle.

Blood flowed freely and clotted on the day morning, has not been acrested and it brown breast in a great, ugly spot, and in the examination was smeared about and Omaha. When Dr. Schaffer was excused James S. Ayres, father of the victim, was called to the stand. He told of coming to Washington the day after the tragedy. Mr. Ayres said he had sought out Mrs. Bonine "And" he said. "I told her about my boy who had been murdered." He then went on to say that he told her how his son had lost his mother when he was only years of age, and how near and dear he was to him because of the care he had given him. "I tried," he said, "to be as sympathetic as I could because I had it in my mind that Mrs. Bonine was the destroyer of my son's life, and I wanted to find the guilty one. I dwelt upon his character as a beautiful and obedient boy and told her of my affectionate parting with him when he left me in Michigan to come to Washington in May, 1900.

"I really opened up my heart to her, telling her how when he had left me in Detroit he had thrown his arms about me and kissed me on the lips as a daughter would have done. I told her he would have admonished him to protect his reputation, saying to him that I knew he was going to a tough place I told him that I wanted him to continue in the course he had pursued, and I preferred that he should not drink at all, but that if he did drink he should not take more than one drink at a time."

In response to a question from Mr. Gould Mr. Ayres said that Mrs. Bowine had made no response while he was talking, but that when he concluded she said something which he would never forget. What this something was Mr. Ayres' statement did not re veal and no question was asked to bring it

Mrs. Bonine Expressed No Sympathy "I thought that Mrs. Bonine, being wife and a mother," he said, "would manifest some sympathy with me and I dwelt upon all the particulars of my coming to Washington, telling how I had first re ceived the news of my son's death and had afterward learned that he had been murdered, but she manifested no emotion whatever and interrupted me only once. Then she looked up and smiled in what I thought was a deceitful manner and recited a quotation from Browning." In response to another question from Mr. Gould, Mr. Ayres said that at this interview Mrs. Bonine's manner was calm, self-contained and non-committal. "I thought." he said. that she was the nerviest woman I ever saw. She manifested no emotion and exifternoon at the home of Miss Mary Dallas pressed no sympathy.

Mr. Douglass announced when Mr. Ayres had concluded that out of the respect o the defense for the feelings of the father of young Ayres they would ask no questions of him on cross-examination. He also said that for the same reason he had not inter-rupted Mr. Ayres in making his statement, notwithstanding it was in many respects a violation of the rules of evidence. Mr. Gould then announced that the prosecution had closed its case and the ourt took the usual noon recess.

Keene Outitnes His Defense. After recess Attorney T. W. Keene o counsel for the defense made the prelim-

inary statement, outlining the defense. He contended in the beginning for due consideration of the presumption of innocenes. This, he said, was evidence, not a mere formality. It was not the purpose of the defense to minimize the offcuse of which his client was charged, for it was undeniable that the tragedy had fallen heavily

upon two families. Many guests of the Kenmore were to be ntroduced, said Mr. Keene, and he befleved it would be shown that the character of the people living there was good. Mr. Keene called atention to the fact that Mrs. Bonine was chosen as a leader in the social festivities of the botel and this. choice, he said, fell upon her because of

her capacity. The defense would show that she had ment today closed its case in the trial of laught seven young men to dance. It was made evident from Mr. ance and Mrs. Bonine had been compelled. Keene's statement that the effort would be as a friend of the young man, to get him to show a lack of motive for the crime on to retire. This incident had, he said, led some discord.

She Was Fond of Medicine.

Continuing, Mr. Keene said it would be shown that in getting up the dances Mrs. Bonine had visited the rooms of all persons, regardless of sex or age, who could dance, to get them to participate. It could also be shown that Mrs. Bonine was fond of medicine and that this fondness had served her in ministering to the sick and that she did visit many of them. Another point which would be developed was that the relations between Ayres and Mrs. Bonine was not such as to cause them to feel unwilling to break them.

Proof would also be given that on March Mrs. Bonine had reproved Ayres for drinking and that while some coolness resulted there was no strong feeling, as was shown by the fact that on the Monday before the killing she ate ice cream with Ayres. It would also be shown, he said, that on the evening before the tragedy Mrs. Bonine's manner was not that of a per son with murder in her heart. There also was testimony, he said, that would show that the window shade in Avres' room had been rua up with a bloody hand, that that hand was Mrs. Bonine's. Evidence also would be introduced to show that in December last Ayres showed the pistol to a man. It also would be shown that in the following February the young man loaned pistol to a friend, and that even at later faces the pistol was seen in the room. He referred to the four or five statements made by Mrs. Bonine and said there was no inconsistency among them. His client did not desire to modify or change them, but would stand by them. When Mr. Keens concluded he court adjourned until Monday
