Trade on Beard Comparatively Dull After Preceding Enthusiasm.

WHEAT STARTS WITH SMALL DEMAND

Good Advance at Opening, but Generally Quiet Condition in - Trade Brings a Sharp Renetion.

CHICAGO, Dec. 6.—Trade on the board was comparatively dull today after yesterday's bullish enthusiasm. Profit-taking and cerly bearish conditions led to lower prices all around but a fairly strong revival of buying brought a reaction and buying brought a reaction and r and May wheat closed each 1420 December corn unchanged, May shade higher and May oats lac Provisions closed unchanged to

corn a shade higher and May oats ach higher. Provisions closed uncanned to higher. Wheat started in with a small demand, which was taken to indicate a continuation of the built movement. This brought good advances at the opening, but productaking dull trade, poor cables and outside declines brought a sharp slump. Late in the day strength at St. fouls and buying or ders from the southwest started general buying again. During the land to the day strength at St. fouls and buying or ders from the southwest started general buying again. During the land to the day strength at St. fouls and to forward an example of the started and closed from the southwest started general buying again. During the land to forward an example of the started and closed from the southwest started general and so the form the provided for the same of contract grade; the same of contract grade; the near the same of contract grade; the same of the sa

shade higher, at 67%c. Receipts were 190 cars.
Oats had a comparatively small trade over a narrow range, with almost feature-less operations. Prices opened slightly higher on a fair commission house demand, which fell off early, and with it prices. Receipts were small and pretty well cleaned up. There was no evidence of any great disposition on the part of big holders to take profits. Late in the day the commission house demand sprang up again, partly induced by lower prices, and there was a fair reaction. May opened 5c up, advanced to 45½636c, lost to 45½c, but closed firm, is higher at 45%c. Receipts were 214 cars.

Provisions were dull and steady, ruling higher early, easy later and recovering te-Provisions were dull and steady, ruling higher early, easy later and recovering toward the close, with a firm undertone. Realizing for the country account was the early influence; light receipts of hogs, the bull incentive. January pork closed 7446 loc higher at \$16.679/mi8.70, lard 2½c up at \$3.77½ and January ribs unchanged at \$5.50. Estimated receipts for tomorrow: Wheat, 69 cars; corn, 12 cars; oats, 126 cars; hogs, 25.000 head.

Traffie Congestion Worse and Labor Controversies Embarrass.

DELAY IN HOLIDAY CONSIGNMENTS If Fancy Goods Are Hindred Much Longer Loss Will Be Serious-Prices of Commodities

Weekly Review of Trade will say: Current trade is of ample dimensions Current trade is of ample dimensions, but traffic congestion grows worse and labor controversies add to the embarrassment of shippers. If consignments of fancy goods for the boilday trade are delayed much longer there will be serious loss. Prices of commodities tend upward. Although nominal questations of iron and steel are unchanged, figures refer only to future deliveries and in most cases prices for current shipment command a consider. future deliveries and in most cases prices for current shipment command a considerable premium. Since this margin is influenced by local conditions at the various mills and furnaces, besides being further complicated by scarcity of freight cars and strikes, it is almost impossible to arrive at a fairly representative price level, in general, however, the tone is distinctly firmer, with especial scarcity of billets and further importations.

Steel rail mills are still accepting orders, with their capacity engaged about up to the end of next year, and there is much concern regarding the filling of contracts since the lack of fuel grows more alarming. Instead of pig iron production showing another new high record on December 1, as was indicated by the urgency of demand, it appears probably that a loss will be officially announced because coke was not available. Instead of furnace stocks being entirely eliminated an increase may be recorded, since, cars could not be secured to remove supplies. Merchant steel mills have orders for months ahead. A seasonable decrease has occurred in the movement of pipe, while independent mills have furnished sufficient competition in sheet and wire nails to bring slightly lower prices. The corner in tin collapsed, prices falling about 8 per cent in a few days, and silver declined to the lowest point since September, 1857.

Wool Strong and Active. Lack of Fuel Alarming.

Wool Strong and Active.

Activity and strength are conspicuous in the markets for domestic wool. Coates of Bros.' circular makes the average of 100 grades 17.51c, which is the best price recorded since May. Concessions are not secured by purchasers, but on the other hand holders grow more confident. Despite recent phenomenal sales at Boston there is steady buying and stocks do not accumulate, although arrivals are liberal. Makers of heavyweight woolens received good duplicate orders, while contracts for spring lines come forward freely. Cotton goods are in better request, but mills delay new undertakings because of the sudden rise in raw material, and if it is sustained there will probably be a new price list of prints. Coarse-colored cottons are seiling well, largely for export; footwear factories are busy on spring goods, many having contracts for some months' full occupation. Chicago hides show a further decline, but imported dry hides are well sustained. Wool Strong and Active.

Corn's Sensational Gain.

Staple products continue advancing, corn making a most sensational gain. Extraordinary high prices for this cereal tempted many to sell contracts in expectation of a sharp reaction, but a further violent rise to the highest price for many years compelled covering at a severe loss. This gain is not governed by precedent, the smallest experts for many years failing to produce any effect. Shipments from Atlantic ports for the week reached the lowest point since 18th, amounting to 278,215 bushels, against 6,256,715 bushels last year. Wheat was also sharply advanced to the best price of the season, largely through sympathy with corn, for which it was freely substituted. Poor weather for the new crop of winter wheat and liberal milling demands were also strengthening factors, while exports from all parts of the United States amount to 4,815,812 bushels for the week, against 3,255,211 a year ago. Cotton was aroused from its lethargy by an unexpectedly low official estimate of the current crop, only 2,674,009 bales, when about 1,009,000 bales more was predicted by the members of the leading exchanges, Vigorous speculation and an advance of Corn's Sensational Gain. Vigorous speculation and an advance of over \$2 a bale resulted when the low yield

was announced.

No failures for the week are given. BRADSTREET'S REVIEW OF TRADE.

Holidays Promise Unprecedented Vol-

NEW YORK, Dec. 6.—Bradstreet's tomorrow will say: This has been a notable week in trade and industry. Retail distribution, stimulated by cold weather and holiday influences, has been very large, and is reflected in a decidedly good reasorting demand from jobbers. Holiday trade, in fact, promises to be of unprecedented volume, with demand for a better class of goods. In the great industries, such as iron, coal, lumber, the textiles, jewelry, boots and shoes, and the various kindred and subsidiary branches, activity has been widespread. The rise in food staples and metals is the basis for the apparent resumption in the advance of the general leve of prices noted for November. Iron and steel are stronger at the highest prices of the year. Inability to obtain supplies is complained of all the way from the furnace to the finished product. The switchmen's strike affects Pittsburg and further aggravates the car shortage trouble. Some mills are closed for want of fuel. Merchant furnaces are reported running only half their capacity. Steel is practically unobtainable for prompt delivery. Wire and nails alone are weaker in price on competition; plates are stronger and structural mills are crowded with orders; bar steel is scarce at Chicage; rail buyers are more numerous, but sellers are indifferent; foundries have booked orders months ahead. Orders for railroad cars are very heavy.

The original impetus for the advance in wheat and the scarcity and high prices for the coarser grains has this week been aided by the widening out of speculation, outside buying being a feature, aided by the smaller run of receipts at the northwest. The highest price paid for seventeen months has been reached in the face of the largest galn in stocks, both here and abroad, reported in any month for years past. Wheat in the United States and Canada increased 21,600,000 bushels in November nearly five times the gain shown a year ago. Corn and oats are higher than at any time since 1891. Hog products and previsions generally in better speculativ ume of Business.

a year ago. Corn and oats are higher than at any time since 1831. Hog products and provisions generally in better speculative demend.

The dead level of the cotton market was sharply disturbed this week by the government estinces of 9.574,600 bales as the total crop. This estimate, while a surprise to the trade, inducing a net advance of 3.500 cent in spots and of 50 points in futures, was in keeping with the earlier published government figures of conditions and byield. The strength in raw material has made the dry goods market firmer. The export branch is in good shape, with many makes of heavy cottons sold ahead to March. Woolen machinery is bushly employed, worsted manufacturers especially so, and raw wool is hardening.

Wheat, including flour, exports for the week aggregate 4.60.30s bushels, against 5.117,478 last week and 3.432,139 in this week (twenty-three weeks) aggregate 12,22,905 bushels, against 850,398 last week and 5.715,152 last season. Corn exports aggregate 4.60.30s bushels, against 850,398 last week and 5.713,77 last year. July 1 to date (twenty-three weeks) aggregate 18,22,306 bushels, against 850,398 last week and 5.713,77 last year. July 1 to date corn exports are 19,516,483 bushels, against 850,398 last week and 5.715,76 last season. After a slight breathing spell in October prices, influenced chiefly by the cereals, provisions and metals, apparently resumed their upward course in November, and the index number of December 1, as reported to by Hradstreets, is 85,775, a gain of seventenths of 1 per cent over the index number of November 1 and of 3 per cent over the index number of Pebruary, 1909.

In all, six out of thirteen classes of products advanced during November, these being breadstuffs, provisions, live stock, the metals, coal and coke and miscellaneous products: forty-five products advancing twenty-three declining and thirty-five remaining unchanged as a result of operations during that month. Compared with a year ago fifty-one products are higher, forty-two lower and thirteen rema

NEW YORK, Dec. 6.—The following arthe closing prices on mining stocks: Little Chief .

MOVEMENTS OF STOCKS AND BONDS. Fears of Money Stringency Causes Active Selling.

NEW YORK, Dec. 6.—Fears of money stringency gained the upper hand in the stock market today and precipitated active selling throughout the list. The apparent running out of the recent speculative movement in Manhattan and the consequent realizing by the longs was a feature of the market. The stock made an effective railying point for the bears in their aggressive onslaught on the market. In the late dealings the stock fell to 135%, representing an extreme decline of 1%. At the same time Amalgamated Copper, which had fluctuated rather sluggishly but heavily all day, took a new downward plunge to 8%, compared with its previous low record of 11%. This unsettled the whole market and made the closing active and easy, but with the selling pressure much less acute in the general list than in the stocks named. The deposit at the subtreasury for transfer to the interior of \$1,000.000 completed the fright over the money prospect. Of today's deposits for transfer \$80,000, was for Chicago and \$30,000 for New Orleans. The renewed demand from Chicago is said to be based on the furious speculation which has broken out in the grain market and the movement to New Orleans is doubtless connected with the activity in the cotton market. New York exchange at Chicago, which fell to 800 discount today as a result of the currency shipment. The few stocks which made a show of strength during the morning succumbed to the weakness. Losses of 1 to 2 points were made by the majority of the prominent active stocks. General Electric, after traing to 25%, broke to 25%, on the declaration of the regular quarterly dividend, and then fluctuated wildly above the lowest.

Bonds were caster, in sympathy with stocks. Total sales, par value, £1.00,000 United States bonds were all unchanged on the last call.

The following are the closing prices on the New York Stock exchange:

Moore Bros. 781 3 40 1 898 3 89 is steers... 38 3 49 1 steer... 380 2 30 is steers... 398 3 59 HOGS-There was a generous run here today, but prices improved a good as as compared with vesterday. The market was slow in opening, as buyers and sellers could not agree on terms, but when they finally did got together the hogs changed hands rapidly, and practically everything was disposed of in good season in suite of 'a slow opening. The bulk of the prime heavy hogs sold today from \$8.179; to \$5.35. God mixed hogs sold largely from \$6.124; is \$6.15. Butcher weights sold mostly from \$6.05 to \$6.10 and the lighter weights went from \$6.05 to \$6.10 and the lighter weights went from \$6.05 to \$6.10 and the lighter weights went from \$6.05 to \$6.15. It was noticeable that the quality of the offerings was better today than yesterday, which helps out the average price to a considerable extent. Lightweights were neglected, the same as they have been all along, and were left until the last. Representative sales:

11...231 120 6 10 50...355 6 30

SHEEP—There were only about five cars of sheep and lambs on sale today and nearly all of those were killers. Packers took hold in fairly good shape and patiliust about steady prices for anything desirable. The native bunches in particular sold freely, as high as \$4.75 being paid for some native lambs. Owing to the light offerings the market soon came to a close. There was but little trading done in feeders today, but the few bunches that did change hands brought just about steady prices.

Quotations: Choice yearlings. \$3.5003.75; fair to good yearlings. \$3.2503.50; choice wethers. \$3.2503.50; fair to good wethers, \$2.9003.25; choice ewes. \$2.9003.25; fair to good ewes, \$2.4002.90; common ewes, \$1.000 2.00; choice lambs, \$4.5004.75; fair to good lambs, \$4.2504.50; feeder wethers, \$2.9003.16; feeder lambs, \$3.2503.75.
