A COMMON TROUBLE.

Thousands Suffer from it Without Knowing Its Real Character. No trouble is more common or more misunderstood than nervous dyspepsia. People having it think that their nerves are to blame, are surprised that they are not cured by nerve medicines and spring remedies; the real scat of the mischief is lost sight

Nervous dyspeptics often do not have any pain whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach so much as in nearly every other organ; in some cases the heart palpitates and is irregular; in others, the kidneys are affected; in others, the bowels are troubled, with loss of fiesh and appetite with the accumulation of gas, sour risings

and heartburn. Mr. A. W. Sharper of No. 61 Prospect St. Indianapolis, Ind., writes as follows: "A motive of pure gratitude prompts me to write these few lines regarding the new and valuable medicine, Stuart's Dyspepsia Tablets. I have been a sufferer from nervous dyspepsia for the last four years; have used various patent medicines and other remedies without any tavorable result. They sometimes give temporary relief until the effects of the medicine wear off. I attributed this to my sedentary habits, being a bookkeeper with little physical exercise but I am glad to state that the tablets have vercome all these obstacles, for I have gained in flesh, sleep better and am better in every way. The above is written not for notoriety, but is based on actual facts." Respectfully yours,

A. W. Sharper, 61 Prospect St., Indianapolis, Ind. It is safe to say that Stuart's Dyspepsia l'ablets will cure any stomach weakness or disease except cancer of the stomach. They cure sour stomach, gas, less of flesh and appetite, sleeplessness, palpitation, heatburn, constipation and headaches. > NEW YORK, Dec. 21.-In speaking to night at the twenty-second annual dinner of the New England society in the city of Brooklyn, Senator Hoar of Massachusetts, who was the guest of honor said:

"There was a wireless telegraphy that came down across the ages from the men of Marathon and Thermopylae to the men of the Mayflower and came from the men of the Mayflower to the men of the revolution and came from the men of the revolution to our splendid youth in 1861. It is not everywhere on earth stations of these signals are to be found. Possibly there is a spot in South Africa today where a race of Dutch farmers have been able to comprehend the message. I trust there are some men still left in the United States who have ears to hear. Possibly Aguinaldo may have gotten a little intimation of it.'
