EARLY TENDENCY FOR EASIER SALES

Small Receipts and the Prediction of a Cold Wave Sets the Outalders to General Buy-

ing.

CHICAGO, Jan. 2.—There was strength in wheat today which brought a net grain for the session for May & and had a builish crossestion for May & and had a builish crossestion on the other pits, and May control of the day. The wheat pit saw a broad and active session, with a tone which ruled strong throughout the greater part of the day. The early tone was easier on indifferent and the prediction of a distribution of the dist

firm, 14994c up at 66449066 c. Receipts were 136 cars. Oats depended largely on the local talent for their market. Brokers reported fully as much doing in July as in May options. Trade early was easy on local selling, but following wheat there was a good recovery and even a fair advance. Shorts and com-mission houses were the best buyers. May started out easy to steady and sold up to 464c, closing isc up at 46%c. Receipts were 79 cars. Hog froducts started out rather weak, but easily made up the loss. The hog mar-ket was easy on lower prices at the yards. Lard had the lead. Local traders did the pying. Delivaries were liberal, but the grain strength and some short covering kept the tone steady. May pork closed unchanged at \$17.39, May lard 2%c lower at \$10 and May ribs unchanged to 2%c lower at \$8,8068,82%.

creased Volume of Transactions.

NEW YORK, Jan. 2.—The first day of trading for the new year on the Stock ex-change was signalized by a jump in the volume of transactions to upward of 1.68.-699 shares. The coalers and the Pacifics were leaders in the market, but the dealer ings were broadly distributed and the strength was very fairly disserbinated through the general list. The industrial stocks were inconspicious, except for a few United Brate States and the Pacifics were inconspicious, except for a few United Brate States and the Amales-mated Comper had a period of weakness during the early part of the day and Sugar showed occasionil reinpses. There was very heavy realizing in the course of the day, but the offerings were well taken and a t a cost of only fractions in the prices. The way in which one stock or group of ward into the advance was characteristic of the methods of professional operators of large caliber, and as each point of strength developed the preceding stocks were soil to realize. In this way the equi-poise was maintained and speculative hold-ings were transferred from one quarter to another, permeating the whole market. The demand was apparently based on gen-sral considerations of a good prospect of continued prosperity of the country for the new year and the hope of an early relaxa-tion in the money market. Call money was not so strong as on Monday and Tues-day, but the money market continued stiff and the bulk of the operations was ap-parently by those not dependent for re-spect of an the call ioan market. ### Identifies Dead Robber.

Identifies Dead Robber. CHICAGO, Jan. 2-George Donovan, who attempted highway robbery last night at Twenty-first street and Calumet avenue and was shot and killed by his interided victim. Eugene Hector, financial editor of a Chicago newspaper, is thought to be the son of respectable parents living in Spring-field, Mass. In his pocket was found a letter addressed "Dear Mother" and signed "Will," dated Manila, January 30, 1991, and referred to domestic affairs at Spring-field. It indicated the writer to be a stenographer in the employ of the United States Philippine commission. Another hetter, dated Boston, Mass., 1899, recom-mended George F. Donovan as a faithful man, who had been employed in Trinity court, Dartmouth street, Boston.

### Weather Bureau Has a Problem.

Weather Bureau Has a Problem. BUTTE. Mont., Jan. 2.—A special to the Miner from Helena says the government Weather bureau will establish two sta-tions in Yellowstone National park next summer. One will be located at Marumoth Hot Springs and the other at the lake. The bureau will undertake to solve a problem that has been puzzling the de-partment for some time. Many storms or-iginating in the northwest, although headed for Montana, seem to never reach this state and it is desired to investigate the phenomenon. Storms striking the mountain ranges between Montana and idaho follow it to the park and there are lost sight of, sometimes again appearing in Wyoming and Colorado, but Montana es-capes them.

#### Morgan Buys Famous Picture.

NEW YORK, Jan. 2.-J. P. Morgan, ac-cording to the Journal, admits the truth of a cabled report from London that he has bought Raphael's Madonna of St. Anthony of Padua. He will not talk about the price. It is said that the pleture will not be im-ported at once, inasmuch as the tariff charges. If the pleture cost \$500,000, as re-ported, would exceed \$100,000.

Dry Goods Market. NEW YORK, Jan. 2.-DRY GOODS-The market reopened after the holidays with a decidedly quiet demand throughout on the part of the home trade and no demonstra-tion by exporters. Sellers are not pushing for business in any direction. Prices are firm without quotable changes in brown bleached and coarse colored cottons. Print cloths are quiet but firm. Prints and ging-hams are duil but quite firm. Men's wear woolens are in quiet demand, but a firm tone rules throughout.

### Coffee Market.

NEW YORK, Jan. 2.-COFFEE-Spot. easy; No. 7, involce, 3c. Mild, quiet; Cor-dova, 74; file. Futures broke had on the start today under heavy liquidation of long accounts, influenced by estimates for a big Santos movement and by a bearish summary of the general situation issued by a prominent local coffee house.
