Police Court in Session with Two Judges Demanding Attention.

GORDON TRIES TO HEAR BURGLARY CASE until 2 o'clock this afternoon!

In the Condict of Authority Order is Impossible and Gordon Holds Defendant to District Court Without First Hearing Him.

Two police judges, each with his little ! coterie of supporters, held court at the same time in the police court room yesterday morning and the result was confusion worse confounded. Judge Berka, the newly elected police judge, held the bench, while Judge Gordon, who claims to hold over on the supposition that the election of Berka was illegal, pulled a table in front of him prise by swooping down on his preserves and rapped for order.

There was a momentary calm, "Well, your honor," said Assistant County Attorney Burnam, addressing Judge Gordon, "if the prisoner is not going to testify in his pwn behalf I shall have to move that he be bound over.

"Keep quiet!" thundered Judge Berka. 'Oh, we can't stand for that," said At

Inanimate Objects Tremble.

Judge Berks was losing his temper. The bust of Blackstone on the rogues' gallery cabinet trembled in the shuddering air and dust fell from a steel engrav ing of the lord chancellor of England. The prisoner at the bar was again on his

"We recognize Judge Gordon as the judge of this court," was the retort, "and we're re to try this prisoner before Judge Gordon and no one else!"

The prisoner meanwhile sat in his corner the one dumbfounded, a look of utter bederment on his face. He seemed to relise that he had made a mistake. He ap bared to be trying to figure out what could have happened if he had recognized to the judge. As it was, he had been found between the upper and nether milliones and had been held to the district that without the privilege of saying a list insane.

Late last evening the police found a man at the union depot acting in a strange manner. He was taken to the police station, but was unable to tell who he was or where he came from. Berks Springs a Surprises.

Judge Berka took Judge Gordon by surtwo days before he was expected. January is the day the new county officers assume office, but Judge Berka saw fit to be forehanded and act while the enemy least suslooting the coal sheds of L. E. Lucas two pected it. He was on the beach at 7 o'clock yesterday morning. The usual grist of one by one the malfactors were arraigned one day in the county jatt. Then Judge Gordon took a seat beside th udge's bench, pulled a table in front of him and waited until it was time to begin the Bacon hearing.

A few minutes later Attorney J. W. Eller Gordon's counsel, dropped in and was followed soon by Arthur Gordon, both having been notified by telephone of the impending clash. They held a whispered consultation "I don't know what we'll do," said Attorney Eller after the court room had been cleared, "because I don't know what the other side will do. We have decided only upon one point. We will write letters to and the fire and police commissioners, calling their attention to the tumult that was in police court this morning and asking them to instruct the police to preserve order. If they disregard our request, then we will do something else." 'He was asked if there was a probability of deputy sheriffs being present to enforce

Judge Gordon's rulings, "There is a possibility of such a thing," was his reply. At 2 yesterday afternoon Judge Berka opened court and proceeded with the bus-

room, where he was stopped by Officer Dan Davis. 'Do you want to go in there as a private titizen, or as judge of the court?" asked

"Unless I resign." answered Gordon, "I can't go in as anything but the judge of the police court." "Well, then, you'll stay out."

At last accounts Gordon was occupying a chair outside the door to the court room closely guarded by Officer Davis.

MASSES AT COURT'S RETURN

Thousands of Natives and Fereigners Witness the Imperial Re-Entry.

SPECTACULAR SCENE OF ORIENTAL POMP

Complete Absence of Traditional Delfication of Chinese Royalty is the Commanding Feature of the Memorial Event.

PEKIN, Jan. 7 .- The re-entrance of the Chinese emperor into Pekin today was the most remarkable episode in the annals of the dynasty, save the flight of the Chinese court when Pekin was bombarded by the allied forces.

The spectacular phases of the return of the court exceeded expectations. The cortege was a sort of glorified lord mayor's show and was a bewildering barbaric exhibition of the Oriental tinseled splendor. Its chief significance was the complete effacement of the traditional deffication of Chinese royalty. Foreigners were given greater facilities of witnessing the ceremonial than would have been afforded them at most European courts.

The scene at the Chien gate when the emperor and the dowager empress entered was nothing less than revolutionary when viewed in the light of all Chinese customs. The horseshoe wall forming the ancient gate was crowded with Europeans, diplomats, army officers, missionaries, women photographers and correspondents.

Arriving of Majestics.

When the emperor and dowager empres arrived at the temple the procession halted and their majesties alighted from the chairs which were covered with imperial yellow silk and lined with sable.

The emperor proceeded to the temple of the god of war on the west side of the plaza, with hundreds of foreigners peering down only forty feet above him, and dozens of cameras were focused upon the "son of heaven." When he returned his chair was borne through the gate. The dowager empress was brought to the doorway of the temple of the gods of mercy on the mayor, the members of the city council the east side of the plaza and the dowager empress appeared. Amidst a great souffiing of attendants she proceeded in the temple on the arms of two officials, followed by a company of Buddhist priests bearing offerings.

The spectators then heard the booming of the temple bell.

After an interval of five minutes the dowager empress reappeared. Standing in the doorway of the temple she looked upward. Directly overhead were the German minister, Dr. Mumm von Schwartzenstein, the secretaries of the German legation, the ness in hand. A few minutes later Judge officers and women from the American gar-Gordon appeared at the door of the court rison and the two correspondents of the Asociated Press.

Empress Bows to Foreigners.

The dowager empress saw the foreigner and bowed low. She advanced a few steps and bowed again in acknowledgment of the salutations of the foreigners. She returned to her chair looking upward to the semicircle of foreign faces, and bowed repeat-

In the meantime the Chinese soldiers Manchu bannermen and minor officials who had crowded the plaza were reverently kneeling. The two arches at the side of the ancient gateway framed hundreds of faces of Chinese coolies, who, emboldened by the presence of the foreigners, ventured to gaze upon their rulers. This incident constituted a sharp contrast with the old retime, when neither diplomats nor natives were permitted to view the passage of royal personages along the streets.

The expression of the dowager empress seemed almost appealing as she faced those who had humbled her and brought he down from her former arrogance, and this confirmed the impression that she is re turning to Pekin with anxiety for her safety.

Plans for the Re-Entry. The streets from the Machiapo station to the gateway of the forbidden city, a distance of four miles, were swept and garnished early this morning. The great plaza between the Temples of Heaven and Agriculture were sprinkled with yellow sand. Residents were compelled to remain indoors. The soldiers and police formed a close cordon along both sides of this entire distance. A sharp wind, bringing sand from the Mongolian desert, blinded the spectators. The special train bearing the emperor and empress dowager, composed of twenty-two cars, was preceded by a pilot engine and arrived here shortly after noon. The engine and the emporer's cars had been decorated with yellow silk dragons by the British railroad officers. Two companies of Chinese cavalry mounted on white horses, and two companies astride horses

from Australia, were drawn up at the sides of the station. Two Thousand Notables.

Two thousand officials, princes, viceroys and taotis, in a kaleidoscopic field of silks and furs, in which gleamed an occasional yellow jacket, were massed upon the plat-

When the emperor appeared the entire ssemblage prostrated itself and remained kneeling until his majesty had taken his place in his chair. At the station the dowager empress summoned Traffic Manager Foley and Superintendent Moffatt of the railroad, the latter having driven the engine which drew the special train, and presented them to the emperor, who thanked them for their services.

The imperial cavalcade then moved off t a swift trot, the Chinese cavalry in the ead. Then followed the great body of officials, riding shaggy Mongolian ponies; the Manchu bannermen, the umbrella bearers the spearmen, General Huan Shi Kai, in his newly bestowed yellow jacket, and the emperor, with eight bearers carrying his chair and a guard of infantrymen marching on either side. Then came the em press dowager, with an equally conspicuous entorage; the latter was followed by the Boxer chief and Prime Minister Jung Lu, in a yellow chair.

Witness Grand Galaxy.

The dowager empress, Prince Chun and the lesser officials were carried in yellow and green chairs. While their majesties passed the soldiers lining the route of the procession knelt down, holding their guns at present arms, and the buglers sounded their instruments constantly. Although the streets were kept empty, thousands of Chi-

From the condition of the shaft it would seem that the men are surrounded by mass of dirt and broken timber. The lower end of the shaft is so badly twisted that the cage will not operate within 100 feet of month before he will be able to report for where the men are entombed. A dull roar and the crashing of timbers gave to the men on the surface the first intimation of the disaster below. A rush was made for the shaft and when all had quieted down fifteen volunteers under Captain James cial club, headed by Mr. Beatty, will go to Chicago to lay the contention before the Piper descended in the cage in an attempt to rescue. It was found, however, that the shaft was badly damaged, it being impossi-WILL MAKE MOTOR VEHICLES ble to get within eighty feet of the level in which the men were buried.

Cries for help were heard at the lowest point reached and the removal of the timbers which blocked the way found a man who shortly before the cave-in had started for the surface. He was uninjured, but was drenched to the skin and suffering greatly with cold.

Desperate Work of Rescue. The man could throw no light on the fate of his associates, the majority of whom are thought to be Italians and Finlanders. The steam pipes leading to the underground pumps were so damaged that it would be impossible to operate the pumps if it were possible to reach them, and the mine is

the wetest in the iron country.

Tonight the force of mechanics employed at the various mines of the steel company are getting other pumps ready for operation, but it is problematical whether these can be put into commission soon enough to prevent the water from flooding the mine. A big force of rescuers working in relays is making efforts to reach the damaged level before the water reaches it.

If the workmen are not rescued within the next ten or twelve hours all hope of getting them out alive will be abandoned The mine officials would not make a statement for publication as to the condition of the mine, nor the number of men underground. In fact, they will not be able to tell until all the other workmen in the level report at the office. It is assumed this will

Happy Childhood Knows What's Best

Medicine that a child dislikes, will not do it much good. Sensible parents will give the little darlings medicine that tastes good and does good, and don't grip or gripe; the kind they like themselves.
