## THE OMAHA DAILY BEE: WEDNESDAY, JANUARY 15, 1902.

# HEALTHY KIDNEYS AT 72 YEARS OF AGE

Mrs. Louise Grau, who is 72 Years Old, Has Been Permanently Cured of Rheumatism, Kidney and Liver Trouble by

# WARNER'S SAFE CURE

A TRIAL BOTTLE OF THE WORLD'S GREATEST KIDNEY CURE SENT ABSO-LUTELY FREE TO EVERY READER OF THE BEE WHO SUFFERS FROM KID-NEY, LIVER, BLADDER OR BLOOD DISEASE, OR WHAT IS COMMONLY KNOWN AMONG WOMEN AS "FEMALE WEAKNESS."

Warner's Safe Cure is the only sure cure for all forms of kidney, liver, bladder and blood diseases; it has cured thousands, it will cure you. Mrs. Louise Grau, who is 72 years old, says Warner's Safe Cure cured her of rheumatism, kidney and liver

# **CURES RHEUMATISM**

No. 37 St. Mark's Place, Brooklyn, N. Y. "I am over 72 years old and have long suffered from kidney and liver trouble. Not long ago I called a physician who did me no good, and a friend recommended Warner's Safe Cure. I began taking it without hope that it would be of any service, but at once I began to notice a change for the better. In addition to kidney and liver trouble, I have suffered from rheumatism. The latter has entirely disappeared, and I feel like a young sirl. I am willing at all times to recommend this greatest of all remedies. Thankfully yours, "Nov. 18, 1901. Mrs. LOUISE GRAU."

TEST YOUR KIDNEYS .--- Put morning urine in a glass or bottle, let it stand twenty-four hours; if then it is milky or cloudy or has a reddish, chalky sediment in the bottom of the glass, or if particles

or germs float about in it, your kidneys are diseased, and you should not lose a moment, but get a bottle of Warner's Safe Cure, as the diseas : works very rapidly and is liable to gain such a foothold that you cannot cure it or stop its spread without a great deal of pain and suffering.

Warner's Safe Cure is purely vegetable and contains no harmful drugs; it does not constipate; it is a most valuable and eff ective tonic; it is a stimulant to digestion and awakens the torpid liver, putting the patient into the very best receptive state for the work of the restorer of the kidneys. It prepares the tissues, soothes inflammation and irritation, stimulates the enfeebled organs and heals at the same time. It builds up the body, gives it strength and restores the energy that is or has been wasting under the baneful suffering of kidney disease.

Warner's Safe Cure is now put up in two regular sizes and sold by all druggists, or cirect. 50 CENTS AND SI.00 A BOTTLE.

### LESS THAN ONE CENT A DOSE.

Refuse substitutes. There is none "just as good" as Warner's Safe Cure. It has cured all forms of kidney disease during the last thirty years. It is prescribed by all doctors and used in the leading hospitals as the only absolute cure for all forms of disease of the kidney, liver, bladder and blood.

## TRIAL BOTTLE FREE

To convince every sufferer from diseases of the liver, kidney, bladder and blood that Warner's Safe Cure will cure them a trial bottle will be sent absolutely free to any one who will write Warner Safe Cure company, Rochester, N. Y., and mention having seen this liberal offer in The Bee. The genuineness of this offer is fully guaranteed by the publisher of this paper. Our doctor will send medical booklet, containing symptoms and treatment of each disease, and many convincing testimonials. free, to anyone who will write.

the location of four, in view of the fact that every effort to establish one had failed, and I hoped four might be located at one time without serious difficulty. The attempt was again made to locate one, but rival interests defeated it, as usual.

Rural Schools.

Rivel interests defeated it, as usual.
Rural Schools.
In this connection. I again call attention to the inadequate educational advantage of the transfer in rural districts. The average country school teacher receives less than 35 per point, exclusive of board, less, we are index than in any other northern state. If the the the major part of the \$5,00,000 education of the state for public photols is expended in citles and towns. It is exceedingly unfortunate that the rural schools are of such a character that the average former boy leaves at 14 or 15 years of age. This lamentable condition will be paintuily apparent in the years, if it is not a character that the average farmer boy leaves at 14 or 15 years of age. This lamentable condition will be paintuily apparent in the years, if it is not acharacter that the average farmer boy leaves at 14 or 15 years of age. This lamentable condition will be paintuily apparent in the years, if it is not increase will affect and city school is expected in the years of age and continue until graduation without intermission. It is a poor place for a child from the rural formmunity. I have in previous community. I have in previous community is believe with him that central toommunity. I have in previous compone length. It has also received consideration, wise consideration. I think-from the superintendent of public instructions in schools with provision for conversion the same manner in a stary should be fixed by law or the solution is low enough. Noter proposed system. If to this could be a provision for the employment of the teachers have in the same manner in the fared by law or the position would be let to the lowest bidder, be on the single are at prevent that the rural community superintendent, and with analogoed a provision for the teachers have in the same manner in the same manner in the same will affect by so doing you shall serve it to the director. Nepotism is generally comp

Capitol Improvement Commission. The Twenty-eighth general assembly au-thorized the creation of a commission to investigate and recommend such improve-ment of the capitol and other property of the state connected therewith, includ-ing decorations, works of art, electric light-ing and burgiar alarms, as in the oplinon of the commission would "place the capitol building in a state of perfect repair." and equip the same with modern improvements. In obedience to this provision, Hon. Peter A. Dey, who was a member of the original capitol commission, and who bore a con-spicuous part in erecting the present edi-fice: Prof. Charles A. Cumming, an artist of more than state reputation, and Henry S. Josselyn, a learned and practical archi-tect, were selected. Their report is on file, and is commended to your careful perusal and favorable consideration. This commission r. commends the expenditure in the aggregate of £50,000. I think it should all be provided for at one time, but it need not all be made available in one year. I think it would be unwise to mutilate the recommendations. The commission can be hastily improved upon. The whole scheme has been carefully wrought out. Those completent to judge believe the re-sit will be most satisfactory. The capitol is considered the third best in the contry, and its architecture makes possible a more artistic interior than any other. If will be remembered that the original commis-sion was suddenly and unceremoniously disharged before the contemplated work was completed. As a result, for nearly the fifth of a century visitors have stood on the outside of the building in great ad-mination, but have entered it only to be sconsidered the third best in downed, it as artistic interior than any other. If will be remembered that the original commis-sion was suddenly and unceremoniously disharged before the contemplated work was completed. As a result, for nearly the mination, but have entered it only to be sconsidered the bird unc **Capitol Improvement Commission.** The Twenty-eighth general assembly au-

duiles, should be the better prepared than any one else to judge of the relative value of the several roads), and then the ex-courier council adjuat all assessments at the July meeting, or the time of assessing railroads, if left with the executive council might be changed from March to July, so that the whole subject should be before the council for adjustment at the time." This action was not taken for the purpose the council to assess railroads an nually in the month of March and equalize the assessment of all other property in made. The following illustrations will, think, justify the recommendation. In March, 199, while the railroads were assessed to sub the realroad assessment airead marker, 199, while the railroads were assessed at a slight increase over the figures of an previous year, but in July following il was found that real estate had been assessed to sub the realroad swere assessed at a slight increase over the figures of an previous year, but in July following is was found that real estate had been assessed to sub of the railroads were assessed at a slight increase over the figures of an previous year, but in July following is was found that real estate had been assessed to sub of the railroads were assessed at a slight increase over the figures of an previous year, but in July following is was found that real estate had been assessed to sub of the railroads were assessed at a slight increase over the figures of an previous year, but in July following is was found that real estate had been assessed to sub of the state had been assessed to sub of the spection of lineced oil is near the opinicent to protect the public. Experience has shown that the pro-vision for the inspection of linseed oll is insufficient to protect the public. The most vile and worthless adulterations are readily sold as pure linseed oil. I am of the opin-ion that dealers in paint oils should be re-quired to place a label upon the vessel containing each sale, and proper penalty should be provided for the sale of adultera-tions unless appropriately labeled.

### Comedy or Tragedy? ous mining man, I thought these facts might be of some benefit to some of my acquaintances."

### THE WORST THING TO DO.

The worst thing to do when the stomach is diseased and causes discomfort, such as belching or acidity, is to take some of the many palliatives put up in the form of pills, tablets, powders, etc. These are not remedies for the disease. They only superficially change existing conditions. Allow that they "sweeten" the stomach, release the accumulated gas, check fermentation, etc. All this is only temporary. The diseased condi-tion of the stomach is untouched. Disease never stands still, and therefore the stomach itself is getting worse instead of better. It is the result of the use of some of these numerous palliatives that men and women, when they have erhausted their little helpfulness, find themselves with an aggravated form of stomach "trouble." If these palliatives had not disguised and covered up the earlier symptoms, the people would long ago have sought and found a real cure. The moral is that if

your stomach is "weak " diseased don't triffe with trivial palliatives-get the medicine which cures disease of the stomach and other organs of digestion and nutrition, Dr. Pierce's Golden Medical Discovery.

"For three years I suf-fered untold agony," writes Mrs. H. R. White, of Stanstead, Stanstead Co., Quebec, Box 115. "I would have spells of trembling and being sick at my stomach, pain in right side all the time; then it would work up into my stomach, and such distress it is

impossible to describe. I wrote to the World's Dispensary Medical Association, stating my case to them, and they very promptly answered and told me what to do. I took eight bottles of Dr. Pierce's Golden Medical Discovery, and five vials of Dr. Pierce's Pleasant Pellets. Thanks to Dr. Pierce and his medicine I am a well woman to-day. Dr. Pierce's medicine also cured my mother of liver com-plaint from which she had been a sufferer for fifteen years. We recommend these medicines to all suffering people."

## WHAT YOU MAY EXPRCT.

results which have followed its use in a multitude of other cases. You may expect that the stomach will be perfectly and permanentely cured; that by the perfect digestion and assimilation of food the whole body will receive new strength; that lost flesh will be regained. You may expect that if the disease of the nach has involved the heart, liver, kidneys or other organs, that the disease of these organs will be cured with the

nearly a third of a century. In ninety-eight cases out of every hundred it has perfectly and permanently cured the dis-eases for which it is prescribed and recommended.

Those who suffer from chronic diseases are invited to consult Dr. Pierce, by letter, All corre dence s Address Dr. R. V. Pierce, Buffalo, N. Y. WISDOM FOR PENNIES. A roos page book, free. 90P suffering wife appears perhaps in the divorce court that the curtain is raised for a moment and reveals the miseries

Household Dramas on which

the Curtain is Drawn.

The daily press makes us familiar enough with the scene in the drunkard's

family in which the intoxicated man finding the meal not to his liking, throws it on the floor and proceeds to vent his temper by smashing crockery and furni-

ture. This is pure tragedy to the abused and helpless family, and to the onlooker

who through the windows of the press views the sad scene. But the daily paper never has a word to say about the sober

and reputable man of family, who, in a fit of irritation, dashes to the floor or out

of the window some dish not to his liking.

know. Family pride and love draw the curtains of privacy closely about such scenes, and it is only when the long

The press doesn't tell because it doesn

love has long hidden. This is not a fanciful case. There is many a good home haunted by this skeleton of unhappiness ; many a reputable business man whose home coming is both feared and

dreaded. To an outsider the sight of a man furiously throwing a dish of cake from the window, or savagely kicking a chair out of his way, would provoke a

\$2,871.500 Total I believe the amounts asked in the fore-going list are all needed and it would be gratifying indeed if they could all be allowed. It is manifest, however, that this session of the general assembly cannot grant them all without incurring an un-warranted indebtedness. They are there-fore submitted with but this suggestion, that if any additional buildings are to be provided they should be of the most per-manent character. For many years the

It's a fact, strange as it may seem. If your hair is of only ordinary thickness and about a yard long, and if you should place each hair end to end, you would have 75 miles of hair!

It's a gray line, with age; a black line, with Ayer's Hair Vigor. It's a ragged line, when the hairs split at the end; a smooth line, when the hair is fed with Ayer's Hair Vigor. There's an immense amount of satisfaction in every bottle of it.

"My hair was falling out very fast, was rapidly turning gray, and was very harsh and dry. I tried Ayer's Hair Vigor, and soon my hair began to be soft and glossy. In a short time it stopped falling out and all the old color was restored. Then it commenced to grow very rapidly, and it is now five feet five inches long."-- Mrs. LYDIA KUYKENDALL, Claremont, Ill.

\$1.00. All draggiatt

J. C. AYER CO., Lywell, Mass.

In this connection, I desire to indorse most heartily the recommendation of the Board of Control that the state architect be relieved from designing educational buildings. I am of the opinion that de-signs for all public buildings should be thrown open to competiton, and the plans, before selection, examined by men of recog-nized ability and of national reputation. The buildings hereafter to be erected should be such as will stand the test arch-liecturally, as well as mechanically, not elmbursed for the expenses incurred access of the amount allowed by the reating the commission. Louisiana Purchase Exposition

Losses By Fire.

\* Normal Schools.

Louisiana Purchase Exposition. The centennial of the purchase and ces-sion to the United States in 1803 of the larger portion of our national domain west of the Mississippi river is to be commemo-rated by what promises to be the most extensive exposition the world has yet seen. With your honorable body rests the responsibility of determining the part Iowa shall take in this event. Wisely, this state contributed little to the Transmississippi exposition in 1808, nothing to the Pan-American exposition in 1901 and nothing to the South Carolina and West Indian expo-sition which is now in progress. But I am of the opin on that the people of this com-monwealth will approve such provision for the Louisiana Purchase Centennial expo-sition as will leave no doubt in the minds of visitors that Iowa constitutes an im-portant part of that priceless acculsition. Something worthy of the state, or nothing, should be our motto. Certainly there ought not to be created a commission with such limited means as to belie our prosperity and libel our resources. should be such as will stand the test arch-litecturally, as well as mechanically, not only of this, but of subsequent, centuries. The work of no one man will meet these requirements. A building admir-able in itself may not harmonize with those already erected-a consideration of great importance. Neither will success in one instance afford a guar-anty against signal failure in the next. Architecture is expression, and therefore educational. Even the sacred writings contain the language and characteristic expressions of more than sixty authors, each inspired, and their value and interest is largely enhanced thereby. Educational Institutions. Educational Institutions.

Vicksburg National Park Commission.

Educational Institutions. Our state educational institutions are of great importance and should be liberally dealt with. It takes money to build a uni-versity. Jowa need not expect to compete with institutions that are the recipients of donations aggregating millions with measer blennial appropriations. The College of Agriculture and Mechanic Arts at Ames is, admittedly, the best of its class in the United States. The Union stock yards of Chicago expects to spend \$10,000 at this in-stitution in the department of animal hus-bandry, believing there is no place where is an indorsement that should commend the institution to the very favorable con-sideration of your honorable body. Losses By Fire.

Vicksburg National Park Commission.
The government has recently established a national park at Vicksburg, and the Twenty-eighth general assembly authorized a commission to locate the position of the thirty-two Iowa regiments and other organizations which took part in that memorable slege, and to recommend such legislation as shall suitably and permanently mark the positions thus ascertained and worthily commemorate the valor and services of Iowa soldiers in the campaign and slege of Vicksburg. This commission was duly appointed and has filed its report, which is submitted to your honorable body with the recommendation that it be published in suitable form for distribution. The commission recommendation that it be published in suitable form for distribution. The commission recommendation that it be published in suitable form for distribution of flowa troops took part in this slege than in any other battle or slege, and, numerically, more soldiers from low avere there engaged than from any other state save Illinois. Visitors ought nortalized in the famous charge at Balaklava fost 63 per cent and Tennyson has immortalized their valor. The Twenty-scond lowa in a single charge at Vicksburg lost S per cent (several other regiments during list of your soldiers or the appreciation of lowa soldiers or the precent and it will now be the privilege of the twenty-ninth general assembly to permanently commonate both their valor. During the past year both the State uni-versity and the College of Agriculture and Mechanic Arts lost useful though not valu-able buildings. Temporary relief was granted in each instance from the emer-gency fund, wisely provided by the last general assembly. Commodious and per-manent buildings should be provided at the earliest date consistent with the available resources of the state. Our single state normal school is over-crowded. The attendance (over 2,000), in my judgment, is in excess of what can be cared for with best results under one man-agement. Two years ago I recommended the location of four additional normal schools to be equipped and put in opera-tion from time to time, as the finances of the state might justify. I recommended

Salaries. I am still of the opinion that the salary of the chief executive of this state ought to be increased. A bill fixing the salary at \$5.000 passed the lower house of the twenty-eighth general assembly, but for want of time failed to pass the senate. Salaries of all state officers are very low. They were fixed at a time when living expenses were much lighter than at pres-ent.

Official Bonds.

Official Bonds. In former years the bond of the treas-tree of state was \$300,000. This, through the discretion lodged with the chief ex-ocutive, has been recently increased to \$00,000. For more than six months the balance in the treasury of the state has exceeded \$1,000,000 and I am of the opinion that the treasurer's bond ought to be ap-proximately large. I am also of the opinion that this bond should be furnished at the expense of the state. The market value of the bond now furnished by the state treasurer is \$4,000 per annum. The present treasurer is \$4,000 per annum. The present treasurer actually paid \$1,500 in cash for his bond of \$300,000. The proposition on final analysis resolves itself thus: The state treasurer, if his bond shall remain at \$500,000, must pay \$1,800 per annum in excess of his salary or he must secure by subscriptions among his friends that which is junchasable in the market. I think similar provisions should be made with respect to all bonds required of public officients. Interest on State Funds.

Interest on State Funds.

kinds of food. "Finally I was put on Grape-Nuts and found I had recovered my 155 pounds. have since been able to hold my own. My

to sint out such as appear to have been in a sense accidental criminals. Some of them, it is believed, were innocent of the crimes charged. A detailed list, giving the names of all persons to whom executive clemency has been extended, and my rea-sons therefor, is this day submitted to your honorable body as provided by statute. I refer to the subject here as preliminary to the following suggestions and recommen-dations. I think additional legislation should be had, but I do not favor encum-bering the parole system with specific re-strictions. I think the chief executive should have absolute authority to release at pleasure any one charged with a less offense than murder in the first degree and to return him to the penitentiary at his discretion. The statutory provision for shortening the term because of good con-duct should be so amended as to permit the governor to declare the same forfeited in case the conduct of the prisoner when on parole is not satisfactory. Each case is distinct from all others, and no plan can be formulated with sufficient elasticity to meet the requirements of changed and ever-changing conditions. Under statutory provisions, as distinguished from free exer-cise of an unrestrained discretion, it is as easy for the intentionally vicious to earn release as for those of honorable and vir-tuous instincts. I have not done, however, except upon the recommendation of the fully dige and the county attorney who prosecuted. There are two quite distinct classes of criminals; the one deliberately and permanentily vicious, the other to some extent the creature of circumstances, and no law can be made that will enable a criminate wisely. Mistakes will be made at best, but on the whole I believe in the greatest possible discretion, and the free exercise thereof. I have returned several to the penitentiary because their early douction was neglected. They had never been taught to work, and when released would not seek or accept employment They are now in the tool factory at Fort madison acquiring increasing the court records indicate that crime is decreasing. Fewer persons were sent to the penitentiary during the last year than in any other, save one, in the last quarter of a century. The relations between capital and labor have been ex-ceptionally cordial, and deeds of violence have been few. The fair record of the state has not been marred by an illegal execu-tion in more than a decade. Justice ac-cording to law, the distinctive feature of Anglican liberty, is the recognized rule of our people. With no small deferee of pride for the past history of my state, rejoicing in her present greatness, hopeful for her future and in the full confidence that the conservative wisdom of your honorable body will preserve and strengthen all that is good and cure that which need correc-tion, I submit the foregoing. LESLIE M. SHAW. Equal Suffragists.

Equal Suffragists.

Mrs. Evelyn H. Belden of Sioux City former president of the Iowa Equal Suffrage association, is expected to arrive in the city tomorrow to organize the Equal Suffrage lobby for the Twenty-ninth general assembly. Mrs. Belden was in charge of the lobby last session, but has been in poor health this year and did not feel equal to the work. Miss Daisy Deighton arrived in the city last evening. She does not possess the wide personal acquaintance possessed by Mrs. Belden and the latter is coming down to get the work started, get Miss Deighton acquainted with the members and see that the campaign is on its feet and progressing rapidly before she returns home.

Mrs. Adelaid Ballard of Hull, president of the Iowa Equal Suffrage association, in expected to come some time during the session, but will not be actively engaged. Mrs. Nellie Nelson, in charge of the state suffrage headquarters, will also assist in the campaign against the legislature.

SPENCER PEOPLE REJOICE

Railroad Announcement Causes Joy and Embarking of Many New Business Enterprises

Bureau of Labor Statistics. The investigations made by the bureau of labor statistics during the last blennium are of great importance, and the report will be found interesting and valuable. More than 300 factories were inspected, and the facts accertained and reported lead to the belief that it would be well to make all needed provision for the inspection of the nearly 15,000 other factories in the citles and towns of Iowa, employing 60,000 per-sons. The sanitary conditions of many of the factories examined is well nigh alarm-ing, and I think demand consideration by this general assembly. The department should be clothed with authority as ample as the mine inspectors, and it should be protect employes from inadequate heat and dangerous machinery, and to enforce ade-quate fire escapes and wholesome sanitary conditions. The report shows that a large number of SPENCER, Neb., Jan. 14 .- (Special.)-No event since the incorporation of this village, about eleven years ago, has caused so much genuine excitement and good feeling announcement on Friday evening as the by Hon. G. F. Bidwell, general manager of of the Fremont, Elkhorn and Missouri Val-The report shows that a large number of children, some as young as 10 years of age. The report shows that a large number of children, some as young as 10 years of age, are being employed in the factories of lowa, and the faces of many of them tell a sad story of over-work and over-hours. The statutes of this state already prohibit the employment of children under a certain age in coal mines. Why not extend restric-tions as to their employment in factories? Healthful employment for limited hours is beneficial, and I therefore do not object so ley Railroad company, that their railroad would be extended from Verdigris, Neb., and located at this place by the first of next September. Over one hundred town lots changed hands on Saturday and other transfers in real estate are reported. Some of the business men from Butte have purchased sites and will engage in business here, as the road reaches within about three miles of that place when extended from this point. Right-of-way has been secured from Verdigris to Spencer and the How Much is Good Solid Flesh Worth !

was my principal ailment, and I have been also terribly afflicted with asthma, which I believe was brought on through the medium of indigestion. Now, as stated, after having used four bottles of your medicine, I have not had an attack of sour stomach or painful bloating, and my asthma has just about disappeared. In fact, I feel better now than for the last ten years. As I am largely known in New Mexico, Arizona, Colorado, California and Oregon, as a rather prosper-

blood, wind on the stomach, bloated pains after cating, liver trouble, sai don't move regularly you are sick. four mourn, disriness. When your bound of the senses tion kills more people than all other diseases tion kills more people that all other diseases of suffering that come afterwards. No matter what alls you, start taking CASCARETS today, for you will never get well and he well all the time until you put your howels right. Take our advice, start with Cascarets today under an absolute guarantee to cure or maney refunded. Bampia and booklet free. Address Sterling Remedy Company, Chicago or New York. 50
