Sharp Bear Attack on Corn Sends Prices Sliding Down.

BRINGS VERY WEAK CASH SITUATION

Porn Brenks at the Opening of the Markets and the Depression Causes Slump in All Other Cereals.

CHICAGO, Jan. 23.—A sharp bear attack on corn, brought on by the very weak pash situation and slumps in outside markets, sent prices in all pits sliding down hill today. Corn broke 2c, wheat 1½c, oats 1½c and pork 40c. After the subsidence of the panicky feeling on heavy selling there were slight reactions. Corn registered a net loss of 1½c, May wheat ½6½c and May pats 1c. Provisions closed 2½c to 20022½c lower.

All speculative markets were weak, but

were slight reactions. Corn registered a het loss of 1½c, May what ½½½c and May pats 1c. Provisions closed 2½c to 20022½c lower.

All speculative markets were weak, but the extreme weakness was in coarse grains, corn leading in the depression. At the opening this cereal seemed ripe for a break, and break it did. The initial incentive was the extremely bearish talk about the bottom being out of the Kansas City cash market yesterday. It was reported that kansas City houses were hedging sales on the Milwaukee curb and when this market opened the supposed weakness showed itself by heavy southwestern seiling here. May started ½c to ¾c down at 6½c to £½c. There was an almost entire absence of buying orders, cables were weak and reports mentioned a corn and oats blockade of 1,600 cars at Kansas City. St. Louis turned a prominent seller of corn and local bears started in to pound out the holdings on a prominent long professional. May broke to 62½c, a loss of 2c, but at such a price covering was profitable. There were reports also of some corn being worked to Germany and traders taking into consideration the small estimate of sixty cars for tomorrow, brought a half-hearted reaction. May soid back to 6½c, but closed weak. Dác lower, at 6½c. Receipts were 80 cars. Wheat was naturally weak on the corn depression. But everything else was against the price, sentiment, news and general conditions. Statisticians reports indicated a good crop condition and favorable weather. Traders were inclined to the belief that they had been too eager to accept the St. Louis strength yesterday to holster up alues. Cables were fligety and finally closed lower. Foreign reports forecasted good crops in Russia and India. Outside markets were lower at the start and May opened here ½6%c down at 234c, 78%c. Men corn broke May followed after and sank to 78%c. Heports of a good export demand with shipments varying from 15 to 50 loads, helped prices late. A slight reaction sent May to 78%c, when corn broke May followed acter and sank to 13%c. The clo

to 45%c. The close was weak, ic down, at 45%c. Receipts were 109 cars.

The early feeling in provisions was strong, following the influence of a good hog market. On the grain weakness, heavy liquidation of long stuff developed, and prices sased. The early business was congiderable, but late trade turned dull and heavy. May pork sold between \$16.15 and \$16.69 and closed 200223%c down at \$16.35. May lard closed 7%c lower at 9.42% and May ribs 2%c down at \$8.50.

Estimated receipts for tomorrow: Wheat, 20 cars; corn, 60 cars; oats, 100 cars; hogs, \$1.000 head.

The leading futures ranged as follows: ,000 head. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Yest'y

MOVEMENTS OF STOCKS AND BONDS.

Operations Are Small and Confined to

NEW YORK, Jan. 23.—There was no return of animation to the stock market today and the bulk of the small operations was confined to a short list of stocks, which advanced quite strongly from the influence of special causes. Even in these use dominant professional element was evident in the selling to take profits on the advance. There was a movement in the Vanderbilts which was apparently stimulated by stories that part of the new issue of the stock of the New York Central was to be exchanged for that of Cleveland, Clicinnati, Chicago & St. Louis, but the movement spent its force in the course of the day. St. Lawrence & Adirondack was marked up over 4 points, apparently on the expectation that it would be taken over by the New York Central. The recently prevalent strength of the local traction stocks red by the Metropolitan Street rallway, continued for a time today, but the whole group succumbed to realizing. Sugar succeeded to the leadership of the market and late in the day was lifted 32 points over last night. An advance of 19 points in the price of the product and reports of an agreement at Washington looking to the free entry of Cuban raw sugar were accountable for that movement. The news that an agreement had been reached between western railroads and packing house interests to maintain rates, thus relieving the objectionable conditions against which the Inquiry by the interstate commission's annual report in favor of allowing associations to maintain rates was also a helpful influence for western railroad stocks. Missouri Pacifics, Grangers and Southwesterns. The recommendation in the commission's annual report in favor of allowing associations to maintain rates was also a helpful influence for western railroad stocks. Missouri Pacific led with a rise of over 2 points. Dealings in the railroad list were on a small scale. Amalgamated Copper Stocked Missouri Pacific led with a rise of over 2 points. Dealings in the railroad list were on a small scale. Amalgamated to in order to prevent withdrawals of Frenc a Short List of Stocks.

Wool Market.

ST. LOUIS, Jan. 23.—WOOL—Firm and fairly active; medium grades, 13@17%c; light fine, 12%gi5c; heavy fine, 10@12c; tub washed, 14@24c.

LONDON, Jan. 23.—WOOL—Offerings at the auction sales today numbered 14,244 bales of good quality. The attendance was large and competition was active at firm prices. The superior condition of the wool stimulated the buyers to operate with great freedom. As a result the prices obtained were higher, with the continent the leading buyer. Americans bought suitable parcels of cross-breds at full rates. Withdrawals were small. Sales: New South Wales. 1,300 bales; scoured, 74d@18 5d; greasy. 34@12d. tically everything was out of first hands in good season.

There was very little change noticeable in the prices paid for buils, veal calves and stags, but still the market could safely be quoted strong on anything showing quality.

The stocker and feeder trade was in rather bad shape today. Speculators now have a good many cattle on hand that they have been unable to sell, even though they have been offering them for less than they paid for them. Very few buyers have been on the market and now that the end of the week is close at hand buyers did not care to get many more cattle on hand. Trade was slow and fully a dime lower. Had there been any choice heavyweight feeders offered they would probably have sold about steady. Common stockers today were almost unsalable at any price. Representative sales:

HOGS-Receipts this morning were not excessive, but including what was carried over from yesterday, there were a good many hogs on saie. Packers started in bidding better prices than they did yesterday, and the first hogs soid strong to 5c higher. At those prices quite a few changed hands, but still the market was not what would be called active. When the break came in provisions, however, the market came to a standstill and very little was done for some time. All of the advance of the morning was lost and more too, and the last end of the market was very slow and weak, and it was late before anything like a clearance was made. On the opening market the heavyweight hogs sold amostly from 36.30 to \$3.40. Good medium-weight hogs sold largely from \$6.15 down. Representative sales:

Dry Goods Market.

NEW YORK, Jan. 23.—DRY GOODS— There was a better store trade today and generally there was a better trade. Home buying in brown and bleached goods was quiet. Cutters were after denims, but were hampered by scarcity of supplies. Print cloths were dull, but firm. Prints and ging-hams were unchanged. Hosiery and under-wear oulet.

Kansas City Traffic Tied Up with Shipments Into the Southwest Country.

CORN BLOCKADES THE YARDS

KANSAS CITY, Jan. 23 .-- A corn blockade, with the grain commanding high prices and the great southwestern country buying from the north and east, instead of having corn for sale, is the anomalous condition that exists in Kansas City.

Grain men say there are 1,000 cars of corn on track here and the railroad yards so full that it takes many days to get corn started out of the city after it has been ordered shipped. Most of the corn is coming from Iowa and northeastern Nebraska, but the Dakotas and northern Illinois contributing large supplies now.

ADVICE FROM CARNEGIE.

To Gain Competence One Must Invest One's Money-His Own Start Due to a Fortunate investment in Oil Stocks. Great Opportunities at Present in the Oil Industry.

For people on a salary or limited income to acquire a competence—to ever have more than a mere living as a result of their inbor—it is absolutely necessary that they invest at least a portion of their savings, or surplus, whatever the amount may be.

This is the history of all our wealthy men. This is the advice given by such successful men as Carnegie (given in a speech, to railroad men recently in New York, Rockefelier, Flagler, Payne, Hanna and many others.

These men started without wealth—worked for a living as millions are doing today—but they saved part of their carnings, and by fortunate investment of the money saved laid the foundations of their subsequent millions and power.

Significantly, too, hundreds of America's rich men gained their wealth by investments in oil. Thirty years ago John D. Rockefelier was a poor clerk—today he is the richest man in the world. At a time when conditions in the oil industry were very similar to those that exist now, ho saw the future of oil and bought of stocks and lands to his entire financial ability.

The immense production of oil that exists in this country today means that the fuel of the future is here. The problem of getting it to market is being worked out by the big companies, and whyn that is completed there will follow the greatest boom in oil stocks in the history of the country. The immense production of oil that exists in this country today means that the fuel of the rest have done.

If you are interested in this great field for investment you will do well to get accurated with the extensive holdings and prospects of the North American Crude Oil Co., of Texas and California.

This company holds leases on 5,000 acres of very valuable oil lands in California—owns land in fee on Spinide Top Heights, Beaumont, Tex., and has formed an alliance with the Fuel Oil Marketing Co. of Beaumont and Kansas City, which insures a market for the entire output of the North American Crude Oil Co. is selling now at sixty cents per share. Hundreds of bankers and business men
