PROGRESSIVE TALKS ON FOREIGN TOPICS

New Arrangement of Logomachy Sprung as a Substitute for Worldly Pleasures and Taken Up with Avidity.

Among the diversions promised the fashionable when the observance of Lent shall have put an end for a time to more pretentious affairs is the Progressive Study class. Profound though the name may sound to those unfamiliar with it, the term "progressive" carries with it the suggestion of something more than self-improvement and recommends it to all interested in a good time.

The snowstorms of the last week supplied all manner of larks for some of the smart people about town, who welcomed it as a real diversion from the indoor affairs of the season and improved it to the utmost.

The third of the series of assemblies occurred on Friday evening at Metropolitan club and, owing to the presence of so many visiting young women and extra men friends invited for the occasion, was the largest of the series.

Starts With a Cold.

Catarrh is a lingering cold which refuses to yield to ordinary treatment.

Catarrh usually starts with a cold in the head and if left unchecked in this climate rarely gets well of itself.

As fresh cold is taken the disease spreads, getting deeper and deeper, creeping along the mucous membranes from nose to throat, from throat to windpipe, from windpipe to bronchial tubes and from bronchial tubes to lung cells.

The mucous membranes all connect, one with the other. Hence it is to spread from one part to another lined with this same membrane. This is why catarrh in the head soon affects the throat and finally the stomach itself, bringing on chronic catarrh of the stomach, which is a most obstinate form of dyspepsia.

Everybody is now well agreed that catarrh is a blood disease and not a local one, and the attempt to cure by local applications simply gives temporary relief from the purely local symptoms without the remotest effect in staying the progress of the disease.

There is a new preparation recently offered to the public that is apparently destined to do away with every other form of catarrh treatment.

This new remedy is not a secret patent medicine, but is a large, pleasant tasting tablet composed of Bloodroot, Red Gum from the Eucalyptus tree and other valuable and harmless specifics, which are taken internally and seem to have a remarkably beneficial effect upon the blood and mucous membranes, apparently eliminating the catarrhal poison from the whole system.

These tablets, while being pleasant, convenient and absolutely safe to use, have made cures in long standing cases of catarrh that are little short of marvelous. They are sold by druggists under name of Stuart's Catarrh Tablets, and any catarrh sufferer who has tried inhalers, lotions, ointments, salves, etc., and realized their inconvenience and uselessness will fully appreciate the difference between a mere palliative and a permanent cure after giving Stuart's Catarrh Tablets an impartial trial.

All druggists sell them at 50 cents for full sized package, and no matter where the catarrh is located, in the head, throat, lungs or stomach, Stuart's Catarrh Tablets will surprise you with the effective result of even a few days' use.

The name "Sorosis" was the happy selection of a body of talented women who met in the early sixties and organized the first woman's club in America. This organization has ever been distinguished for the talented women who go to make up its membership, and on its roster are names familiar wherever the English language is spoken. The following letter to a poor male who desired to join the Sorosis club, not knowing of its exclusive female character, is well worth reading:

MR. R. B. ROOSEVELT: Dear Sir—Your proposition to become a member of the "Sorosis" was laid before the executive committee and subsequently before the club. I regret to say that the decision was not in your favor. Reason and position are all alike unexceptional. But the unfortunate fact of your being a man outweighs these and all other claims to membership. We willingly admit, of course, that the accident of your sex is on your part a misfortune and not a fault; nor do we wish to arrogate anything to ourselves because we had the good fortune to be born women. We sympathize most truly and heartily with you and the entire male creation in your present and prospective desolation and unhappiness. But this is all we can do. "Sorosis" is too young for the society of gentlemen and must be allowed time to grow up. For years to come its reply to all male suitors must be principles, not men.

Your most respectfully,
JENNIE JUNE CROLY.

Hope for Plain Women. A plain woman may win fame, but she can never be a heroine, immortalized in son and story. Men are such curious cattle. Since the days of Adam they have been the willing worshippers of beauty, and that thought brings us to the main point. There are thousands of women who are prematurely plain and old without reason or excuse. Beauty is largely a matter of health. No woman in the prime of life can give one valid excuse for nervous trouble, wrinkles, a poor complexion or a bad figure. There is a remedy for these ills, simple, inexpensive, pleasant to take, and right here at home. The new Remington treatment—electricity, massage and Turkish bath, will cure the worst case. It will bring back the roses of health to faded cheeks, wipe out the wrinkles and the crows' feet, round out and bring back to thin and unbecomingly feeble the pleasing plumpness and the charming lines of youth. Try this treatment at the Ladies' Bathery, 216-220 Bee building. Trained operators always in attendance. Manicuring and hair-dressing a specialty. Telephone 1716 for appointments.
