Professional Wheat Speculators Turn Bearish and Prices Rule Lower.

LEADING CEREAL HAS SLUGGISH TRADE

News is of an Indifferent Sort, Cables Slightly Depressed, Argentine bipments Smaller and Northwestern Receipts Light.

CHICAGO, Jan. 31.—Professional wheat speculators turned bearish in sentiment today and though corn worked stubbornly against the influences, prices ruled lower all around. May wheat closed with a loss of %3%c. May corn 140%c lower and May oats 16c depressed. Provisions closed a shade to 5c lower.

Wheat had a heavy feeling all through the session. Routine news, while favoring buyers to some extent, was of an indifferent sort. Cables were slightly lower, Argentine shipments were still much smaller than a year ago and the receipts in the northwest were builts and on the breaks scalpers bought and shorts covered. Trade was light in volume. This led speculators to the argument that business was too small to hold the advance in the market when the pit turned bearish. Professionals turned selless, the seaboard reported a slack export demand and persistent selling caused declines. The fluctuations were small, with a steady lower at 73% 678%c, sold down to 7% c and after small reactions closed weak, %6%c lower, at 77% 677%c. Local receipts were only eleven cars, and Minneapolis and Duluth reported 249 cars, making a total for the three points of 250 cars, sainst 322 last week and 379 a year ago. Argentine shipments were 320,000 bu., compared to 729,000 bu., against 402,000 last year. Seaboard clearances in wheat and flour equaled \$3,000 bu. Bureau statistics at Washington reported three-fifths of the wheat exported from this country in December was from the Pacific coast, 5,980,000 bu.

Corn struggled hard to maintain its strength, but gradually slipped down in company with wheat. At the opening slightly higher cables and the firmness of the Kansas City market exerted considerable influence. Receipts at the western markets are failing off materially and reports state an indisposition on the part of holders to sell. Dry weather in Argentine threatens the crop. All told, the market here showed a firm undertone. But trade was light and the wheat weakness made itself felt. May corn, which/sold early at \$1000 and local trad

weak, 4c down, at 44%c. Receipts were 61 cars.

Provisions were quite, with very narrow fluctuations. Speculation was of a commonplace nature, slightly higher after the opening with the grains, but sagging later. May pork closed 5c off at \$15.85. May lard 5c lower at \$9.37% and May ribs a shade down at \$8.40%. 42%.

Estimated receipts for tomorrow: Wheat, 15 cars; corn, 70 cars; oats, 50 cars; hogs, 24,000 head. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Yes'y. •Wheat

Big Demand at the Manufacturing Centers

is Encouraging.

STEEL FACTORIES FLOODED WITH ORDERS Domestic Makers Unable to Preven Foreign Firms from Securing Tends Where Immediate Shin-

ment is Required.

NEW YORK, Jan. 31.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Despite some drawbacks, the business situation continues satisfactory, with especially good news from manufacturing centers. Labor disputes are somewhat more numerous and low water stopped mills in parts of the northwest. Special lines were stimulated by seasonable weather, but the same influences affected others adversely. Although manufacturers of steel have stubbornly resisted inflation of prices, the urgency of consumers has attracted more importations. Distant deliveries are undertaken by domestic producers, but where immediate shipment is required it is often impossible to prevent foreign makers securing the business. Last year's official statement showed a considerable loss in exports of some finished products of iron and steel, and this was doubtiess due to the same pressure by home consumers that is now bringing a movement into the country, not in competition with producers here, but because early deliveries cannot be made. As anticipated, the ore companies fixed Bessemer at the old rate of \$4.20. The remarkable report of the steel corporation gives some idea of the volume of business transacted last year, while contracts already placed practically assure still greater activity for 1902. All lines have a share in the vigorous demand and preparation for spring work has removed the duliness from pipe and tube departments. Minor metals finally reached a point where consumers were attracted and recovery was general.

Footwear shops in New England have NEW YORK, Jan. 31.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will

general.

Footwear shops in New England have large orders for spring goods and are still busy on seasonable lines, while weekly shipments continue to exceed those of last year. Wholesale buyers are in the trust on market, but show an inclination to delay placing contracts at the present advanced prices. Hides have declined still further.

Textile mills are well occurred.

on market, but show an inclination to delay placing contracts at the present advanced prices. Hides have declined still further.

Textile mills are well occupied and the lack of accumulations in first hands gives a strong tone to the market, though there is much evidence of conservatism among buyers. While the size of the cotton crop remains uncertain, it must exert a quieting influence on goods. Fewer lines of new woolens have been opened than were expected. The raw material is sustained by brisk competition and firm prices at the London wool sale. After carrying the decline to an extreme point, especially for coarse grades, there was sharp recovery. As usual during a period of gradually falling quotations, the market became heavily oversold, so that once the turning appeared there was the added impetus of anxious covering by the short contingent.

Even at the lowest point of the week wheat was 5 cents and corn 18 cents higher than at the corresponding date last year. Foreign buying of wheat was not perceptibly stimulated by the lower prices, but there continued a steady outgo, aggregating 3,764,873 bushels for the week, flour included, compared with 2,324,753 a year ago. Consumption of wheat as fodder or holding back for higher prices prevents the big yield from swelling receipts, which for the week were 2,840,081 bushels, against 2,775,975 last year. The reduced yield of corn is reflected in interior arrivals of only 2,379,365 bushels, compared with 4,908,962 a year ago, while the high price is responsible for Atlantic exports of 331,880 bushels, against 2,418,013 last year. Conflicting statements hold the cotton market in suspense, but there is no uncertainty as to the unparalieled yield of coffee, which put the price within a fraction of the lowest point on record.

Liabilities of commercial failures during four weeks of January aggregated \$12,902,007, of which \$5,683,392 were in manufacturing. Large were strictly commercial lines. Aside from a few exceptionally heavy defaults, the show-ling is good as to

MOVEMENTS OF STOCKS AND BONDS. NEW YORK, Jan. 31.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended January 30, with the percentage of increase and decrease as compared with the corresponding week last year: Lackawanna is Conspicuous for Its New High Record.

New High Record.

NEW YORK, Jan, 31.—There were some notable individual movements today, but the market as a whole was trivial and inconsequential. The most conspicuous movement was in Delaware, Lackawanna & Western, which rose by rapid stages, making a new high record at each stage, to 2814. It was expected that the annual report will be issued today and the street forecast of earnings is at a rate of 16 to 20 per cent. The report was withheld from publication, but the directors were in session. Rock Island made a notable advance of 54 points on light dealings, the market supply of this stock being scarce. Southern Pacific led the market in point of activity, but its narrow price movement indicated active profit-taking, which carried it below last night's level. The speculation continued active in Amalgamated Cupper, which rose 14, lost it all and then rose 24, again at the close. The arrival in this country of a director of the Rio tintos company, supposed to be forming a working agreement with the Amalgamated Cupper company, and the continued rise in the price of copper were the motives of the speculation. Colorado and Southern were bought on talk of an increase in dividend on the first preferred. Mexican National was strong by reason of reports of absorption by Southern Pacific. The Iowa Central stocks and the Minneapolis & St. Louis stocks were strong.

Bonds were less active and were irregular. Total sales, par value, 34,650,000. United States refunding 2s declined 4 and the 2s, coupon, 3 per cent on the last call. The Commercial Advertiser's London financial cablegram says: American shares were firmer than of late, but neglected, save Southern Pacific, which was very strong. Rio tintos closed at 45% after touching 464. Anaconda closed 3-16 up at 73-16. Copper soid at £554 per ton. The London county council loan was subscribed nine times over. The Chartered Trust and Agency company, formed under the auspices of the Chartered company with a capital of £2,500,000, offered £1,250,000 at par, the Chartered sh Clearings. Inc. Dec.

BOSTON, Jan. 31.—The Commercial Bulletin will say in tomorrow's report on the wool trade of the United States. There has not been much business locally. Interest centers chiefly in Australian. One Boston house made a single purchase of 500 bales of cross-breds in London this week. The increasing advance there has encouraged business here. The Atlantic mills bought in Boston 5.000 bales of new 64s quality Australian to arrive at full rates. Some of the Boston purchases in Australia, as compared with the London shows a profit of 5c a pound. Territorial wools have advanced in Boston. Choicest fine staple now costs 55c clean, fine medium staple costs 50c clean and only short off grades from Utah are to be had at 50c. Receipts of wool in Boston since January 1 have been 19.423,778 ibs., against 9,567,600 ibs. for the same period in 1901. The Boston shipments today are 28,525,202 ibs., against 25,104,140 ibs, for the same period in 1901. The stock on hand in Boston January 1, 1902, was 77,340,463 ibs., the total stock today is 68,239,039 ibs.

COWS AND HEIFERS.

BULLS

Hogs—There was not a heavy supply of hogs here today for a Friday, but reports from other points were unfavorable to the selling interests, and as a result the tendency of prices was downward here. Two market opened slow and 50,10c lower than yesterday. Trading was, not active at any time, and it was rather late before a clearance was made. The bulk of the good weight hogs sold from \$6.10 to \$6.20, and a few loads went above that figure. The medium weights brought in most cases from \$5.90 to \$6.05, and the lighter loads sold from \$5.90 down. Representative sales: No. Av. Sh. Pr.

SHEEP—There were none too many sheep and lambs on the market today to meet the demand and as a result the market was active and steady to strong, everything being sold in good season. A bunch of prime yearlings sold at \$5.15, but they were of extra fine quelity. Lambs met with ready sale for fully as much as was paid yesterday for the same kinds.

There were practically no feeders on sale today to make a test of the market, but it was evident that anything desirable would have brought good strong prices.

Quotations: Choice lightweight yearlings, \$4.7565.00; good to choice yearlings, \$4.5665.00; good to choice yearlings, \$4.5665.00; good to choice ewes, \$3.7564.00; fair to good wethers, \$4.2564.40; choice ewes, \$3.7564.00; fair to good ewes, \$3.5063.75; common ewes, \$2.7563.50; choice lambs, \$4.5676.00; fair to good lambs, \$5.5066.65; feeder wethers, \$3.5063.75. CHICAGO LIVE STOCK MARKET.

offerings was disposed of. The fact that Chicago was dull and lower gave buyers a big advantage and sellers at this point could not prevent values from going a shade lower than yesterday.

The cow market was a little more active than the steer trade, but still buyers did not take hold with as much life as they did yesterday. As a general thing they tried ito buy their supplies a little lower. In some cases they succeeded, and in others sellers received just about steady prices as compared with yesterday, particularly on the better grades.

Bulls, veal caives and stags sold at right close to steady prices, where the quality choice was neglected and sold a little lower than yesterday.

There were only a few feeders of desirable quality in the yards, and about steady prices were paid. There has been a fair trade from the country this week, and sellers have succeeded in cleaning up in good shape what they bought earlier in the week. The common grades were neglected in first hands this morning, the same as usual, and sellers found it difficult to dispose of those kinds at satisfactory prices. Representative sales:
