The Substitute Coffee Berry Which Isn't Just as Good. Chicago Record-Herald.

It is better to have the microscope rehouse, and several structures on the same veal the blue clay in a "coffee berry" than block, proposes, with several local finanto await the tardy revelations of a disciers, to erect the hotel on the site covordered digestive apparatus. A man's ered on the block facing F street, between stomach may stand the blue clay for years Thirteenth and a Half and Fourteenth without serious protest, but the gastric streets. The plans for the building are to juices will not labor with it always. The make it one of the largest and most modern process of waiting for an intestinal rehotels in this country, but as yet no definite bellion is too slow for modern methods of plan as to the style, cost and other details

warfare upon impure food. has been arranged. As there is a lease This is the very sound and sensible posion the Ebbitt house, which has three years tion taken by Secretary Wilson of the Deyet to run, definite plans may consequently partment of Agriculture. The microscope be delayed, unless some arrangement can is now playing such an important part in be made to void the unexpired lease. exposing food frauds that the secretary

has finally established a microscopic laboratory where all varieties of imported Consular Agent H. G. Granger has sent foods are examined before being submitted to the State department from Quibdo, Coombia, the following statement relative to the chemical division. The revelations already made under the to the value of trade advertising in that

new regulations adopted by congress are country: "American advertising matter is received astonishing. Coffee berries, artistically shaped and browned, are found that conocally in abundance, and compares favorably with European matters of the same sist of chicory, starch and other ingredients, and when ground present the apclass, use being made of Spanish or of pearance and give off the aroma of coffee. English, with Spanish translations. Conse The cocoa adulterations disclosed by the quently, there is a marked increase of immicroscope are said to be even more reportations from the United States, a nummarkable and more deceptive than the cofber of merchants having transferred their general dealings there from Europe. The fee adulterations.

By means of the photo-microscopic increase is also due to the production by our manufacturers of lines of cheap goods camera for picturing adulterants and discase bacteria and the microtone for cutting that still have more durability than the articles of food into infinitesimal pieces it European goods that have held the market is possible now to detect almost any food hitherto.

sophistication that may be attempted. "Business would be further increased i Judging by frequent disclosures on the there were more prompt dispatch of orders part of chemists, health bureaus and state and more care in packing for regions where there is so much rehandling with such food inspectors, Secretary Wilson has a great task before him, and it is gratifying

to note the completeness of his prepara tions for the work.

PERSONAL NOTES.

Alfonso Robles Freas has been commis sioned by the Chilean government to study electricity in the United States.

Sir Thomas Lipton has spent about \$2,000.-000 trying to win the America's cup. If it were made of polonium this wouldn't be bad investment.

A New York contemporary announces in "scare head lines" that the "Empero Breakfasts on the Kearsarge." It is dreadful to think of the presence of a superimposed turret in the imperial stomach.

William Darrach, who graduated from disasters that occurred in consequence. This Yale in 1897, has just been appointed one of the lecturing physicians at the P. and S. slowly and time schedules were subject to hospital in New York City. He is the youngest man who ever held the position. William Lee, who held the office of mayor of St. Paul, Minn., during the first decade of its existence as a city, celebrated the golden anniversary of his wedding last which will be within the next year. week. He is the oldest surviving executive of the capital city and is still in excellent health, although 84 years old.

Commissioner of Patents Frederick I Allen sailed July 1 for Europe to visit the patent offices of Germany, Great Britain and France. He will also take the opportunity to go to Switzerland and inspect the International Bureau for the Protection of Industrial Property, located at

Elsie Ward, the young New York artist satisfactory. Of course, we would all like who recently won the \$3,000 commission to make a drinking fountain for the St. Louis

with Starr, the tragecian; he never houces me any more. Crittick—Didn't I hear you tell him his style was very much like Booth's? Gushington-Yes, but surely— Crittick—That's where you made your mistake. You should have said Booth's style was like his.—Philadelphis Ledger.

PREPARING FOR THE DAY.

Philae phia Catholic Standard. Been in town shoppin'. Now, I'm don An' glad-well, I should say! Good thing we've only got the one Great "Independence day." One's quite enough, I tell ye what, One's quite enough, I tell ye what, To do us fur a year. With all yer kids near gittin' shot Or blowmi off yer ear. Well, here I am back home again. An here's my bundles, too: I tell ye what, it takes us men To do things through an' through. Old woman said she'd go with me, But I sex: 'If ye please Not much! It takes a man, ye see, To git sich things as these. So here I've fetched the hull dern lot O' things fur Fourth-July: I bet thar wasn't much thet got A-past my eagle eye. I bet thar wasn't much thet got 'A-past my eagle eye. Thar's lint in this big bundle here, An' here's a coolin' salve. When boys has burned their nose or ear Them things is good to have. The makin' of a frock's in there, An' here's a great big flag, An' in my pocket, stowed with care, The makin' of a lag. Of course it takes a taste o' rye To celebrate the day: To colorse it takes a taste o rys To celebrate the day: Seems like that's what the Fourth-July Wus made fur, anyway. Well, here they are, the hull blame lot; Now, won't them little Turks-Eh! Gosh! Ef . sin't clean furgot The dash-dinged fireworks!
