well and the Irish peasants tonight are once more venturing on the roads, though with fearful eyes and keen cars for the roar of the motors as they come down the hills of Kildare. The Frenchmen received some consolation in not getting the cup by gaining the prize offered by Hon. J. Scott Montagu, M. P., to the team whose members all finished.

The general opinion expressed by the British authorities, including the earl of Mayo and Henry Norman, M. P., is that the race was the most successful ever run and is likely to do much to remove the antagonism toward similar contests and motors in general.

Keene Runs Big Blak.

Foxhall Keene, as one of the representatives of Germany, had a good chance of coming in among the leaders. He ran a risk which is generally described as one of the most daring feats in the history of motoring. Turning a corner on the second round both his tires ripped up and while repairing them he noticed that the axle was giving way. Instead of stopping he drove 100 miles at over sixty miles an hour. and only drew up when the car became almost uncontrollable. Then it was found that the axle was within the smallest fraction of an inch of being severed.

Keene admitted that "It was as much like sitting on a box of dynamite as anything I have tried, but it was an awful pity I had to withdraw, as really I had not begun to let myself out."

Keene's mishap caused the greatest regret, next to Jarrott's accident, of any incident of the day.

Amid the representative crowd of English and Irish well known men were the ford lieutenant of Ireland, Field Marshal Lord Roberts and the earl of Mayo.

C. Gray Dinsmore represented the Automobile club of America.

From a racing point of view the contest which lasted from 7 a. m. to 7:30 p. m., will always be remembered for the desperate struggie between DeKnyff of France and Janatzy of Germany. Gabriel's daring drive in the Paris-Bordeaux race was quite eclipsed today by the speed at which the contestants seven times passed the judge's stand at Ballyshannon.

Then the rivalry between Germany and France always stood out. Both Janatzy and DeKnyff waved their hands wildly in answer to the cheers of the onlookers and drove with what looked like desperation. As the final round approached and the gap between the two rivals lessened there were many who thought a collision was inevitable, but DeKnyff kept his lead of a minute or two and crossed the line ahead.

ANTI-LYNCHER HINTS FORCE

Says it Were Better for All Negroes to Die Together Than One at a Time.

SPRINGFIELD, O., July 2-At a meeting of the Anti-mob and Lynch Law a-sociation tonight it was unanimously decided to petition congress and the president for legislation "for the protection of the negroes of the country from the lynchers and dave drivers. If the rulers of the United States fail to remedy the evils, then we appeal to the Christian nations of Europe." The meeting was attended by President H. C. Jenkins, Vice President Harris, Secretary U. E. Huffman and National Organtzer C. P. Hines.

After the meeting the secretary said significantly, "It were better for all the negroes of the country to die at once, than to be killed one at a time."
