Talks of Many Years Ago. His wanderings during the delirium were not always intelligible, but they seemed to relate to the history of events of many years ago, which, being unknown to those present, neither Dr. Lapozni nor Centra succeeded in comprehending.

Makes Effort to Control Will. It is evident that the pope is making a great effort and straining all his nerves to maintain calmness and to have his will triumph over his mental weakness.

When the pope's brother, Cardinal Giuseppe, died in 1880, Pope Leo informed his relatives that he was keeping all his valuable library intact, leaving them their share in money, obliging them to sign another declaration that they had received all they could claim.

THEIR PASS IS TAKEN UP. Svrtschman and His Wife Pro Tem Compelled to Camp on Right of Way. CHEYENNE, Wyo., July 14.—(Special.)—H. W. Bayman of Denver is here in search of his runaway wife. Mrs. Bayman came to Cheyenne last Thursday and was met by J. T. Batchelor, a Union Pacific switchman, who introduced her as his wife.

ROME, July 14.—7 a. m.—The pope had frequent fainting fits during the night and refused nourishment.

ROME—July 14.—9 a. m.—Now and then the pope becomes drowsy. He utters disconnected words while awake. What he utters seems to enjoy most are small glasses of Tokay wine, sent by Emperor Francis Joseph. The appearance of edema, or swelling of the lower extremities, is noticed.

ROME, July 14.—9:15 a. m.—The following medical bulletin has just been issued: There has been no change in the grave condition of the pope as stated last night. Pulse, 82; weak; respiration, 20; temperature, 38.5 centigrade.

ROME, July 14.—10 a. m.—During the night the pope had several attacks of vomiting and lost consciousness. At times all hope was abandoned.

ROME, July 14.—10:30 p. m.—The news of the grave condition of the pope spread rapidly and many cardinals of the diplomatic corps hurried to the Vatican.

ROME, July 14.—11:15 p. m.—Dr. Lapozni has left the sick room and gone to perform his duties. This is taken to indicate that the pope's danger is less imminent.

ROME, July 14.—1:35 p. m.—The organs of the pope are gradually ceasing to perform their natural functions. All the processes of elimination have ceased and no more nourishment is taken.

ROME, July 14.—4:30 p. m.—No further change has been reported in the pope's condition. His three nephews are remaining near the sick chamber.

ROME, July 14.—6:30 p. m.—The pope showed such a revival this afternoon that four cardinals, Cavochioni, the titular archbishop of Nazianzi, Nocella, patriarch of Antioch, Trippe, the prefect of the Congregation of Indulgences, and Cavagnini, were permitted to enter the sick room.

ROME, July 14.—8 p. m.—The following bulletin has just been issued: The pope passed a fairly quiet day, but had short periods of depression. Pulse, 83; weak; respiration, 20; temperature, 38.5 centigrade.

ROME, July 14.—11:35 p. m.—The pope has delirium.

ROME, July 15.—12:15 a. m.—After midnight the pope's sleep seemed tranquil enough, although his breathing at times was difficult.

POPE EXPLAINS HIS WILL

Property for His Relatives is Divided Among Them Long Ago.

ROME, July 14.—Although much has been said about the pope's will, nothing positive is yet known, except that on receiving his nephew's will he said: "As pope I do not possess anything, as I live by the aims of the faithful. It would be a great detriment to the church if I should desire to my family, even the smallest part of what the people receive by denying themselves. As to my personal

MASTEN ACCUSED OF GRAFT

Railway Mail Service Official Said to Have Demanded Bribe.

STRONG AFFIDAVIT SUPPORTS CHARGES

Degraded Employee Says He Was Offered Reinstatement at Ten Dollars Down and Five Per Month.

WASHINGTON, July 14.—Postoffice inspectors are investigating charges made against John W. Masten, assistant superintendent of the railway mail service and formerly chief clerk of the first assistant postmaster general's office.

A man named Terry, in the government service, has made an affidavit, alleging that Masten proposed that Terry pay him \$10 down and \$5 a month to secure reinstatement in a former position in Masten's bureau. Terry alleges that he was originally a \$90 employee in the dead letter office but was removed by Masten and put into the city postoffice.

He protested and finally Masten suggested his getting an outside party, a close friend of Masten and a former employee of the postal service, to help him. The affidavit alleges that Masten gave Terry assurance that if he paid the amount mentioned he could get back.

Masten suppresses complaint. Subsequently Terry says he made an affidavit containing these charges and handed it to Masten to present to First Assistant Postmaster General Johnson, but the affidavit did not reach Johnson. Subsequently he asked Masten for it, but he refused to return it and Terry thereupon placed the information before the civil service commissioner, who took it up with the president.

The federal grand jury is considering several important postoffice cases. Mr. Payne expects the grand jury will furnish some definite information available as to the identity of the cases, but the grand jury has been working on them for some time.

An agreement has been reached between the postoffice and the civil service commissioner regarding the resignation of employees from other departments to the postoffice department. The regulations require that it must be shown that the person transferred will be employed on work similar to that previously performed by him and has qualifications which will enable him to perform such work better than a person selected from the eligible register of the commission. The present investigation has disclosed a number of irregular transfers.

The resignation of George C. Christman, who was given a leave of absence as a law clerk, the department shortly after the sensational rife of the assistant attorney general's office, by Mrs. Taylor, has been under discussion at the department, but there will be no final action.

Mr. Payne will leave tomorrow, and will be aboard the revenue cutter, while it makes its regular cruise, as far as Boston, and probably up the Maine coast. He said tonight that he had not made his vacation plans yet, but would like to visit Poland Springs, N. H. He expects to be away most of August.

The inspectors investigating a case of the General Manufacturing company, of Franklin, Pa., have not yet submitted their report.

Ray Oliver Will Succeed Root. It seems to be a general understanding among officials of the War department that Robert Shaw Oliver, who has just been appointed assistant secretary of war, will favorably be considered for secretary of war when Secretary Root retires. It has been known for some time that on the completion of certain important matters Secretary Root will return to his home in New York to resume his private law practice, but there are some considerations which may prolong his stay as a member of the cabinet until after the next session of congress.

Secretary Root returned from Oyster Bay tonight, but declined to make any statement as to his retirement from the cabinet. The secretary expects the work of the Alaskan boundary commission will be completed in time to enable him to return to Washington and submit his annual report to congress in December.

Tobacco Tax Law Evaded. A circular of instructions to internal revenue officers has been issued by the commissioner of internal revenue calling attention to the gross irregularities and violations of law existing in the handling and sale of manufactured tobacco, snuff, cigars and cigarettes. A practice generally resorted to of evading the tax law by the sale of exports from the factory to the wholesaler denoting the payment of the internal revenue tax. This is said to be a serious violation of the law and regulations, which it is the purpose of the commissioner to remedy. Jobbers and dealers are given until November 1, 1903, to get all manufactured tobacco, snuff, cigars and cigarettes found on the market exposed for sale and not protected by the tax-paid stamps will be seized and the holders proceeded against in accordance with law.

McCarthy's Sentence Approved. The president has approved the action of the court-martial in the case of Second Lieutenant J. McCarthy, Nineteenth infantry, recently stationed at Fort Leavenworth, Kan., who was convicted of duplicating his pay accounts and sentenced to be dismissed from the army.

Confab Aids Treaty Settlement. Far-reaching in its effects on the Manchurian situation was the conference today at the State department between Secretary Hay and Theodore Roosevelt, who is understood to bring important advices from St. Petersburg regarding the ports in Manchuria which Russia is willing China shall open to the United States. This has been the question that has bedeviled the negotiations for some time.

What transpired at today's conference can only be surmised, as both of the conferees declined to discuss the matter. Immediately after Mr. Roosevelt's departure from Mr. Hay's office, the chief of the Bureau of the American Republics, and formerly American commissioner to China, and the two had a long conference. Mr. Roosevelt's intimate knowledge of the east, his residence there, is being appreciated through his State department, and Secretary Cassin's departure he was frequently at the Russian embassy in connection with the negotiations.

It was indicated today by a State department official that the next few days might bring to light important developments regarding the Chinese-American treaty.

WANTED IN NUMEROUS PLACES

Man Accused of Passing Worthless Checks is Arrested in Chicago.

CHICAGO, July 14.—Said to be wanted in many cities on the charge of passing worthless checks and accused of having fled to Mexico City, Mexico, after the failure of the Manning Harness company of Aldine, Mich., last November, W. H. Manning was arrested here last night.

MAKES A FULL CONFESSION

Most House Murderer Tells His Story on the Seafoam—Crime a Mystery for Four Years.

LONDON, July 14.—Samuel Herbert Douglas, the perpetrator of the most heinous murder, who was convicted at the Chelmsford assizes, June 23, of the killing of Miss Camille Cecile Holland, at Saffron-Walden, Essex, and sentenced to death, was hanged at the Chelmsford jail at 8 o'clock this morning after making a full confession of his crime.

The most house murder, as it was known, was committed over four years ago and hope of solving the mystery had almost been given up when the body of the victim Miss Holland, was found last April buried in the Most House grounds.

Miss Holland was owner of Most house, about four years ago, when Douglas, who was supposed to be her husband, but who, it was discovered, subsequently, had never been married to her, made his appearance, and Miss Douglas, supposed to be his sister, took up her residence on the place.

Miss Holland then disappeared suddenly and Douglas sued the woman supposed to be his sister, but who really was his wife, for divorce. This aroused suspicion and led to an investigation.

Douglas was arrested for cashing a check purporting to have been signed by Miss Holland, and while he was in custody the body of Miss Holland, for which a thorough but unsuccessful search had been made was accidentally found by a laborer in an old ditch, which had been planted over by a shrub nearly four years previously.

The laborer struck his fork into a hard substance which proved to be a woman's shoe containing a woman's foot. Then Miss Holland's body was found lying face downward.

An examination showed that the head had been pierced by a bullet, which was found in the skull.

Douglas was suspected of having made away with at least five wives.

TWO KILLED IN COLLISION

Accident on Chicago Great Western Railway Near Savannah, Mo.

Southbound Passenger Train Dashes Around a Curve at High Speed and Collides with Freight Engine.

TWO OTHERS ARE FATALY INJURED

ST. JOSEPH, Mo., July 14.—(Special Telegram.)—Two men were killed, two fatally hurt and several people seriously injured in a collision between a freight engine and Chicago Great Western passenger train, southbound, this morning. The wreck occurred three miles north of Savannah.

The dead: JOHN BROWNFIELD, engineer of passenger, Des Moines. WILLIAM STEWART, fireman passenger, Des Moines.

Fataly hurt: Tom Howard, engineer freight, Des Moines. William Benson, fireman freight, Des Moines.

Twenty others were more or less seriously injured.

Freight train No. 60, a double header, left St. Joseph about 12:30 this morning. The train had orders to meet the passenger at Schuster siding, several miles north of Savannah.

Before reaching that point, an accident to a car delayed the train. The head engine was uncoupled and sent northward to flag the passenger train, which was due in a few minutes. After proceeding about half a mile the headlight of the passenger engine was extinguished. Attempts to flag it would have been futile, as the train was going at a high rate of speed.

Engineer and Fireman Jump. Tom Howard and William Benson, engineer and fireman of the freight engine, jumped. An instant later the crash came. The baggage car and tender of the passenger train and the two engines were piled up in an inextricable mass.

Engineer and fireman of the passenger train were struck in the head by a piece of flying timber from the wrecked baggage car, while fireman Stewart was caught between the tender and engine and crushed to death. His body is still in the wreck.

Twenty other passengers on No. 9 were injured, eight or ten seriously.

Physicians from Savannah were hurried to the scene. Word was sent to this city and a special train was dispatched to aid the injured. Some of the injured were taken to Savannah and those who were slightly hurt continued on their way in a special that was sent from Des Moines.

The track will not be cleared of the debris until late in the afternoon.

Wreck on Iron Mountain. POPLAR BLUFF, Mo., July 14.—A freight wreck occurred on the Iron Mountain railroad today between Bouden and Gurdon, Ark., south of this city. Two brakemen, a baggage train and thirty-five carloads of horses and mules were killed.

A box car jumped the track just as the train ran on the Little Missouri river bridge with such force as to wreck the bridge and allow the thirty-five cars of stock and men killed to fall into the stream below, a distance of forty feet.

M'QUE IS DECLARED INSANE

Eclectic Army Officer to Be Sent to St. Elizabeth Hospital in Washington.

WASHINGTON, July 14.—General Corbin has approved the recommendation of General Bates I, the case of Lieutenant William K. McCue, First infantry, and the officer is now on his way to St. Elizabeth's hospital for the insane in this city.

The papers in the case have been received by the War department, and show that surgeons who examined McCue pronounced him insane. Among the papers is one tendering his resignation as an officer while in the Philippines and another written about the same time saying that he was insane.

This letter describes his life in the interior of Samar and says that existence there makes men insane. McCue is the officer who was married in San Francisco, although having a wife in Cincinnati.

President Appoints Postmasters. WASHINGTON, July 14.—The president has appointed the following postmasters: Iowa, Clark, Robert P. Oster; Kansas, Larned, Frank W. Johnson.

EXECUTIVE COUNCIL MEETING

Woodmen of the World Business Matters to Be Considered and Acted On.

The executive council of the Woodmen of the World is in session, at the sovereign camp this week, the first session having been held yesterday morning. The principal work of the present session is the designation of depositors of the funds of the organization for the coming year. These depositors are confined generally to banks in Omaha and the total amount of deposits is very large.

The council will also take up the question of assistance to be rendered the members of the order who suffered by the recent floods at Kansas City, Topeka and St. Louis. The sovereign camp has been rendering what assistance it could and local camps have contributed to the sufferers, but at this time the entire situation will be investigated by a committee, which will report upon the conditions and the part the order should take in relieving distress.

The appropriation of the expense account for the current year will also be considered and acted upon, and through a committee the condition of the headquarters building will be considered and the work necessary to make improvements required determined upon. It is the hope of the sovereign officers that these repairs and improvements will be extensive and it is believed that the improvements ordered will make the building one of the best modern office structures in the city.

Those present at the meeting are: J. C. Root, sovereign commander, John T. Yates, sovereign clerk, F. A. Falkenberg, Denver, sovereign advisor, Morris Shepard of Fort Worth, Tex., sovereign banker, H. F. Simral of Columbus, Miss., sovereign escort, E. De. Bradshaw of Little Rock, Ark., sovereign watchman, B. W. Jewell, sovereign sentinel, N. B. Maxey of Muskogee, Okla., chairman of the board of managers, C. C. Irwin of Omaha, W. A. Fraser of Dallas, Tex., C. C. Farmer of Mt. Carmel, Ill., M. D. Roach of Cleveland, O., E. B. Lewis of Winston, N. C., and S. L. Wade of Chicago. The council will adjourn Saturday.

Shoots His Wife and Himself.

CHICAGO, July 14.—Joseph Howarth, 50 years old, shot and killed his wife, Bertha Howarth, today at their home. A few hours later Howarth was to have appeared in a police court to answer a charge preferred by the dead woman of threats to kill her, resulting from domestic difficulties. After assuring himself that his wife was fatally wounded, Howarth shot himself and was removed to a hospital in a dying condition.

Had Impression for the Young.

NEW YORK, July 14.—It has been decided by the board of education that it would be poor policy to impress upon the youthful mind the violent deaths of President Lincoln, Garfield and McKinley. Accordingly a proposition for the erection and presentation of tablets in the memory of the martyred presidents, to the public schools of the city, has been voted down.

Superfluous Hair

Removed by the New Principle. DeMiracle

A sure, quick and inexpensive method of destroying objectionable growths of hair has at last been discovered. The new principle, DeMiracle, has evolved through many chemical experiments and a thorough knowledge of the productive condition of the hair follicle.

It is better than electricity, because it does not scorch or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues of the skin. Better than depilatories because it is not poisonous and does not break the hair off, thereby increasing the growth.

Electrolysis, X-ray or depilatories are offered you on the BARE word of the operators and manufacturers. DeMiracle is not. It is the only method which is endorsed by physicians, surgeons, dermatologists and medical journals.

DeMiracle will be mailed to any address, sealed in plain wrapper, on receipt of \$1.00 by DeMiracle Chemical Co., 2147 Ave. and 10th St., New York. Your money back if it fails to do all that is claimed for it. For sale by
