All Indications Point to Enthusiastic Reception for Edward in Ireland.

DUBLIN PEOPLE TURN COUNCIL DOWN

Decorate and Prepare Extensively to Welcome Buler in Spite of Aldermen's Decision to Abstain from Welcome,

LONDON, July 18.-The preparations for the approaching visit of King Edward to Ireland are completed, and there is every indication that an enthusiastic reception will be accorded his majesty throughout his

In official circles the hope is entertained that good political and social results will follow the visit. The Irish societies generally have agreed to present addresses of welcome to the king. The conservative press of the United Kingdom declares that the action of the Dublin corporation in refusing to present his majesty with an address in nowise represents the feeling in

the city, where the decorations are elaborate and the preparations extensive. The king and queen will leave Buckingham palace Monday afternoon and preparations have been made in London to give them a great send-off. No stops will be made until Holyhead is reached.

The royal yacht, Victoria and Albert, arrived at Holyhead today. It will take the royal party to Kingstown, whence they will proceed to Balis Bridge, outside of Dublin. Thence the state entry into the city will be made. The procession will be an imposing official display. The military feature will, however, be insignificant, only a small detachment of metropolitan police leading and a single troop of the Royal Horse Guards closing the procession.

Victoria and Albert, according to the present arrangement, will proceed to the west coast of Ireland, and the king and his party will re-embark at Berehaven and sail for Queenstown.

One of the popular features of the stay in Dublin will be the greeting of their majesties by children of the city in Phoenix park, where Queen Alexandra will receive bouquet from one of the school girls.

The most extraordinary precautions have been taken to safeguard King Edward throughout his visit, in view of the attitude of the factions opposing the recognition of the king as the ruler of Ireland, the naleaders having, since the royal visit was first proposed, said the Irish people would not be content to welcome his majesty to Ireland as king until home rule was granted.

Surely if there ever was a time when the preaching of the democratic gospel ought to be opportune, now is the time. The character of our party is to be determined by the manner in which it meets an opportunity, and the manner in which it meets an opportunity will be determined by the ideal that dominates it.

Will our party hesitate or take counsel of its fears? Will it abandon its champlonship of the people's interest in the hope of conciliating relentless foes, or of purchasing a few offices with campaign contributions that carry with them an obligation to be made good out of the pockets of the people?

The gemocratic party must appeal to the

e gemocratic party must appeal to the octatic sentiment of the country, and The gemocratic party must appeal to the democratic sentiment of the country, and this sentiment is far wider than any party. Wherever the question has been submitted in such a way that it could be acted upon independently, there has always been an overwhelming majority in favor of that which was democratic, and our party can appeal successfully to this democratic spirit if we but convince our people of our earnestness and of our fidelity to those principles.

Handicapped by Cleveland,

We are handicapped just now by the fact that the last democratic administration that we had was more subservient to corporate direction than any republican adimnistration that had preceded it and the record of that administration has been a millatone about the party's neck ever since.

The influence exerted by Wall street over the administration's policy the use of the complete and the party's neck ever since. about the party's neck ever since.

The influence exerted by Wall street over the administration's policy, the use of paironage to reward those who betrayed their constituents and the employment of the more reprehensible of modern methods made the administration a stemch in the nostrils of the people and kept in the republican party many who were disgusted at that party's course.

The odium which Mr. Cleveland's administration brought upon the oarty which elected him did more to defeat the party than any one plank of the Chicago platform, or even all the planks that were most severely criticised.

But for the repudiation of the administration it would have been impossible to make any campaign at all, and even the repudiation, thorough and complete as it was, could not completely disinfect the party.

BRYAN TALKS OF CLEVELAND the possibility of the party's return to the position that it occupied from 1883 to 1884.

This danger is not so imminent as the corporation controlled papers make it appear, but, insofar as it threatens, it
