COMMERCIAL AND FINANCIAL

Grains All Rule Firm and Higher on Board of Trade.

PROVISIONS STAY WEAK AND DROP LOWER

Armour Sales Momentarily Depresa . Wheat, but Subsequent Proceedings Help Prices Up with Corn and Oats.

CHICAGO, July 21.—Grains ruled firm and higher today, September wheat closing '27' %c higher; corn was up '12, while oats showed a gain of '42' %c. Frovisions remained weak and closed from 14c to 75c

profile weak and closed from 146 to 1526 tower.

With the exception of a little weakness at the start, due to free selling by Armour, under which September coil off from the opening, 755%755% to %c. to 75%, there was a firm undertone and prices showed a firm undertone and prices showed a steady advance to 156c. Shorts covered freely and there was good buying both by commission houses and local traditis, who were inclined to believe that the market had been too persistently pronounced. They were also encouraged by the moderately builles tone of the weeking oversistently pronounced. They were also encouraged by the moderately builles tone of the weeking oversistently pronounced and the second to be diversal and the second to be oversal at the close was firm, and showed the celepts of 150 cars, and pullet he can be oversal and sold were equal to \$.000 bu Mineapolis and Duluth reported receipts of 223 cars, which with local receipts of 150 cars, 49 of contract grade, made a total for the three points of 35c cars, against 202 cars last week and 712 cars a year ago.

Corn showed greater firmness than wheat and with good demand, offeriags were urgent. The close was strong with September %c higher at 49%c, having sold up with but little infortance from 45%c at the opining Trade was good throughout the sevening trade was a good wade in costs, and lillinois helped the strength. Clearances showed a decrease. The column of huild the profits were was large. Local receipts were 35c cars.

Provision sopened easy and sold of on selling by locals on fair movement of high.

Provisions opened easy and sold of on selling by locals on fair movement of high.

Provisions opened easy and sold of on selling by locals on fair movement of high.

Provisions opened easy and sold of on selling by locals on fair movement of high. With the exception of a little weakness

Provisions opened easy and soid off on selling by locals on fair movement of higs. Later there was a fair demand from brokers supposedly acting for the packers and on this and the firmness in grain some of the loss was regained. September pork at the close showed a loss of Lc, at \$14.25. Lard was 7½c off at \$7.85, with ribs down Estimated receipts for tomorrow: Wheat, Estimated receipts for tomorrow: Wheat, 45 cars; corn, 160 cars; cats, 160 cars; hogs, 27,000 head. The leading futures ranged as follows:

CROPS WILL NOT BE BUMPER

Threshing Returns Show Wheat is Not Turning Out Well.

CORN IN MOST SECTIONS CONTINUES LATE

Making Good Progress in Some States, but to South of Nebraska is Beginning to Suffer for Bain.

WASHINGTON, July 21 .- The weather bureau's weekly summary of crop conditions is as follows:

tions is as follows:

While the temperature in the central valley, lake region and Atlantic coast districts has averaged considerably below normal, no unfavorable effects from cool weather are apparent from the reports, except in portions of the middle and south Atlantic states, where growth was checked to some extent.

weather are apparent from the reports, except in portions of the middle and south Atlantic states, where growth was checked to some extent.

The need of rain is beginning to be felt in Oklahoma and Kansas. Local rain accompanied by hall proved damaging in the upper Mississippi and Ohio valleys and lake region. Conditions on the Pacific coast were favorable, although light frosts caused slight damage in Washington in the early part of the week.

Corn has made favorable advancement in all districts, but in the principal corn states is variable as to size and condition, being generally smail, especially in the central and western districts of the belt. In portions of Indiana, Missouri, southwestern Kansas, Arkansas, Oklahoma and Texas corn is in need of rain to a greater or less extent. High winds flattened considerable corn in the lake region on the 17th and 18th.

Winter wheat harvest is practically completed, except in a few of the more northerly states. Weather conditions have been favorable for threshing, which work is in progress, the yields sontinuing light.

The reports respecting spring wheat are not favorable. The late sown in the Red river valley in Minnesota is believed to be beyond recovery, while heavy rains have kept the low lands in the southern portion of the state flooded and have caused lodging in the uplands.

Rains in southeast and extreme northeast portions of North Dakota have improved the cops and in South Dakota spring wheat is filling well, except in the southern portion and in Iowa, where it is unfavorably affected by rust.

In Wisconsin and Nebraska and on the north Pacific coast more favorable reports are received. Much rust in oats is reported from the states of the Ohio and upper Mississippl valleys and lake regions, and upon the whole the condition of the crop is below recent anticipations. Harvest is in general progress.

Further improvement in the condition of cotton is general throughout the cotton belt, although it is grassy over a large port

NEBRASKA CROP CONDITIONS Past Week Cool, with Numerous Storms Which Have Done Much Damage.

The past week has been cool, with numerous heavy rain, wind, or hallstorms, injuring crops considerably in small areas. The mean dally temperature has averaged two degrees below normal in eastern counties and four degrees below in the western. Thunderstorms occurred in practically all parts of the state during the past week; in the extreme southeastern countles the rainfall was less than half an inch; elsewhere it quite generally exceeded one inch and in some cases exceeded five inches. High winds, and in some instances hall, accompanied these storms.

The winter wheat harvest has progressed rapidly and is about completed in southeastern counties, where a little threshing has been done; the yields are light and less than was expected. The oat harvest has progressed well in southern counties and is now about half done. Haying has begun in nearly all sections of the state and the crop is excellent. Corn has grown rapidly and is now nearly all laid by, although much of it is small and weedy; the early, planted is beginning to show tassels.

Iowa Crop Conditions.

Weekly bulletin of the Iowa section of the climate and crop service of the Weather bureau for week ending July 20, 1903;

The past week afforded four or five days CHICAGO, July 21.—CATTLE—Receipts, 2,500 head, including 1,500 Texans; steady; good to prime steers, \$5.30\(\frac{1}{2}\) for to medium, \$4.25\(\frac{1}{2}\) for 55; poor to medium, \$4.25\(\frac{1}{2}\) for 55; stockers and feeders, \$2.50\(\frac{1}{2}\) for 55; bulls, \$2.25\(\frac{1}{2}\) for 55; calves, \$2.50\(\frac{1}{2}\) for 55; bulls, \$2.25\(\frac{1}{2}\) for 50.00.

HOGS—Receipts today, 14.000 head; tomorrow, estimated, 28.000 head; left over, 2000 head; choice steady; others \$5\(\frac{1}{2}\) for 50.00.

In this dareas in the northern and eastern districts, where damage resulted from heavy downpours. In the southern districts the showers were generally light, and in \$5.45\(\frac{1}{2}\) for 50.00. of fine weather for haymaking and harvest-\$5.45@5.60.

SHEEP AND LAMBS-Receipts, 10,000 head; steady; good to choice wethers, \$3.00 and hard. The general condition of the G4.00; fair to choice mixed, \$3.00@3.60; western sheep and yearlings, \$3.2564.25; native lambs, \$4.00@6.35; western lambs, \$5.50@6.00. though the temperature for the week was slightly below normal. A survey of the fields will show unusual variation in size and appearance of the corn plant, ranging from twelve inches to the normal tasseling height, and it is evident that extremely favorable weather will be required to bring the belated portion of the crop to maturity. Spring wheat and oats are affected by

rust, especially the late seeded portions. and the quality of the grain will be somewhat impaired. The barley harvest is well advanced, and early seeded wheat and oats are in shock. Reports indicate that the early; potato crop is below expectations, being affected by blight and rot. The apple crop seems to be holding its own, and the yield of early fruit is good.

GOSSIP OF COMMISSION ROW Potatoes Come in So Plentiful that the Price Hits the Toboggan.

Potatoes suffered a black eye yesterday, the price was 50 cents. Monday the young ones were selling up and down for 65 or 75 cents, and late yesterday one load was offered at 40 cents, and the spuds are on the bargain counter. But they may be up again Wednesday, it all depends on how many hit the town and on how hungry the town is.

The Texas tomatoes were practically cleaned up yesterday and not a score of crates were left in the market at noon. Wednesday it wi'l be no more the southerners who grew to soft plumpness among the cotton, but rather hardy fellows from the banks of the drainage canal, the Illinois tomate from Chicago, called the Acme, The old lot went out as low as 50 cents, some of them, and the new will probably start in not much short of 80 cents. The watermelons have been eating baby food to judge by their fat curves. The

first to come a week or two ago were of scarcely twenty pounds weight, but now they roll cheerfully along thirty-five pounds heavy if an ounce. The cheerfu! Texans sell for 30 or 25 cents each. Cantaloupes are fine; the traveled and cherished Mermain brand, grown below the sea level in California, and the Texas round fellows from Worth county. The former got in from Chicago, their eastern headquarters, yesterday, fifty-box parties of them, in pink wrappers or kimonas, and were quoted to friends at \$5 to \$7; the latter, a whole cartoad, are nothing for style, but good goods. They sell at \$2 and will do the business.
