

FINISHES UP EQUALIZATION

State Board Makes Douglas General Levy Four and a Quarter Mills

SOME FIGURES ON THE NEBRASKA CROP

Labor Bureau Estimates the Yield of Wheat at About Forty Million Bushels for the Year

LINCOLN, July 30.—(Special.)—The State Board of Equalization held its final session this morning and completed the draft for the grand assessment roll. This was the first session which a state board of equalization will hold in the state, unless future legislatures decide to return to the present method of taxation. The new revenue law will be in effect next year and it does not provide for equalization by the state board. The draft of the assessment roll follows:

Table with columns: COUNTY, Assessed Valuation of Property, State Levy in Mills, General, School, University, Total.

Figures on Nebraska Crops

The labor bureau today issued a detailed statement giving the acreage by counties of the various crops now under cultivation in the state. The figures are authentic, coming from the assessors, who compiled them in their reports during the month of June and therefore are up to date. The tabulated statement follows:

Table with columns: COUNTY, Winter Sp. Wheat, Spring Wheat, Rye, Corn, Oats, Barley.

total yields as to the three staple crops of this state:
Corn.
The general condition of the corn crop over the state is far below normal, not ranking over 75. With a frost at the normal period, about the 15th of September, there should be 75 per cent of a corn crop. This will be increased or diminished according to the date of the frost and the freeze following. Corn is now looking much better than a fortnight ago, and the prospects for a crop are brighter.

The corn crop has made wonderful progress in view of the handicap caused by late seeding. This will seriously affect the yield in spite of a late frost, because when the corn begins to ear it will not have had its growth and instead of all the vitality going to the ear a large part will enter the stalk to complete its growth, which will cause smaller sized corn than if conditions had been normal. The condition of the southern counties is 75, central counties 84, northern counties 80.

Wheat.
Conditions early in the season were such as to warrant the expectation of the great-

decreased from ten to thirteen bushels per acre. The north central portion has excellent prospects. Custer county especially will yield an immense crop of all grains, together with alfalfa and hay. The standing of the southern part of the state is 93, the central 84 and the northern 81. The average estimated yield of wheat by counties appears in the "Summary by Counties."

After close inspection and observation by officials of the department, the supplement of conservative opinions of experienced producers in all sections of the state, the department feels able to estimate the average yield of winter wheat in the state at eighteen bushels per acre and the total yield at 25,000,000 bushels. The average yield of spring wheat is estimated at twelve bushels per acre and total yield of 4,500,000 bushels.

Oats.
The oat crop is an enigma so far as estimating is concerned because of the irregularity of the stand and prospects. There is no uniformity of appearance. Nevertheless there will be a normal yield of about 20 bushels per acre, or about 100,000,000 bushels in the state. The central and northern portions of the state will yield better than the southern. The condition in the central portion is 84, in the northern 82.

Wolf Bounty Claims Rejected.
Deputy Auditor Anthes today placed the seal of his disapproval upon a batch of claims for wolf bounty, thirty-three in all, aggregating \$500. Several of the claims dated back for a score of years. The most ancient was one filed by John H. Evans of North Platte, a former member of the legislature and at present deputy county clerk of Lincoln county. In his claim Mr. Evans avers that he killed seven wolves in Lincoln county in the year of 1875, for which he thinks himself entitled to the 50 cent bounty authorized by the legislature in the new wolf bounty bill. The provisions of the law, however, limit the life of such claims, and that of Mr. Evans' had to be rejected.

State House Briefs.
The State Board of Public Lands and Buildings was in session this afternoon conferring with Commandant Cole of the Grand Island Soldiers' home concerning some repairs at that institution, which, in the commander's estimation, are necessary to its operation.

The Bankers' Reserve Life Insurance company of Omaha filed articles of reorganization today with the secretary of state. The company serves notice of its desire to operate in the mutual legal reserve plan, in accordance with a law enacted by the late legislature. President B. H. Robison, Secretary Ray C. Wagner and Directors James P. Latta, William F. Miller, Robert L. Robison and W. W. Black, State Superintendent Fowler today were notified by Superintendent H. R. Dollinger of Grant county of the destruction at Hiyan of a new four-room brick school house during a hurricane Tuesday night. The building was almost entirely destroyed in the future under the same school in Grant county and was a modern school building, being only recently constructed.

A. N. Dodson, deputy to Secretary of the State Banking Board, has been called to Camden, W. Va., by the death of his mother.

Labor Commissioner Bert Bush journeyed to Omaha today on official business connected with the inspection of fire escapes recently erected in that city. Auditor Weston left this afternoon for his home in Hay Springs, Sheridan county.

Gov. Mickey today authorized the announcement of a reward of \$200 for the apprehension and conviction of the man who murdered William G. Merritt at Niobrara on Sunday night. This action was taken at the request of the Knox county assessor, although a man named McCown, suspected of the crime, was taken into custody last evening.

The Capital National bank receivership, after ten and a half years of existence, has been ended. This was the last thing that Charles Mosher secured by having farmed out of deposit amounting to \$800,000 and owed other banks \$250,000 more. The face value of the assets at the time of suspension was \$225,000, but notwithstanding the fact that the receiver secured large sums on stock liabilities, the net sum collected by him was but \$40,844. Of this \$211,000, or 17 per cent, was paid to depositors in dividends, the expenses of the receivership ate up \$80,000 and the remainder went to pay preferred claims. The state lost \$280,000 in the failure.

Asks Governor for Aid.
A fortune-hunting lawyer from Dredgen, Germany, has induced a letter to the governor asking his aid in finding the possessions of Johann Probst, who came to America the latter part of the eighteenth century. The letter follows:

End of the eighteenth century a man with name Johann Probst which is borne on the 27th March, 1763 in Bernitz, Kingdom of Saxony, departed for the United States of America and it is said that he was living in your country and for some time in the hands of the government.

In the name of some relations of the said Probst, the undersigned desires to give any information (if possible) on the following questions:
1. What named Probst living in the state of Nebraska? Did he move to another state?
2. Did he have any property in the hands of the government?
3. If your excellency list not possible to answer of my questions to stand before, so I beg to give information, whether perhaps your Excellency know any thing of Saxony with the name: Lahode, Seebach, or Probst which was born in the year of the beginning of nineteenth century came in your state.

Two New Telephone Lines.
BEATRICE, Neb., July 30.—(Special.)—A number of farmers residing in Madison and Logan townships can now be reached by phone, two lines having been completed by the Bell Telephone company, which are sixteen patrons on these two lines and more will be added in a few days.

Found Dead in Yard.
WEEPING WATER, Neb., July 30.—(Special.)—Last evening George Adams, one of the oldest settlers of Cass county, a very popular and highly respected citizen of this place, president of the City National bank, was found dead in the yard at the home of his son, Guy, in a very early stage of death. The funeral will be held Saturday afternoon.

Two New Telephone Lines.
BEATRICE, Neb., July 30.—(Special.)—A number of farmers residing in Madison and Logan townships can now be reached by phone, two lines having been completed by the Bell Telephone company, which are sixteen patrons on these two lines and more will be added in a few days.

BEATRICE, Neb., July 30.—(Special.)—At a meeting of the County Board of Supervisors yesterday afternoon the printing of the delinquent tax list for Gage county was let to the Wymorean by a vote of 4 to 3. The proposition of ridding the banks of the Blue River just east of Blue Springs is the next matter of business to be taken up. The board will be in session the remainder of the week.

Wymoreans Get Printing.
BEATRICE, Neb., July 30.—(Special.)—At a meeting of the County Board of Supervisors yesterday afternoon the printing of the delinquent tax list for Gage county was let to the Wymorean by a vote of 4 to 3. The proposition of ridding the banks of the Blue River just east of Blue Springs is the next matter of business to be taken up. The board will be in session the remainder of the week.

BEATRICE, Neb., July 30.—(Special.)—The committee on arrangements for the Labor day demonstration met last night and organized by the election of Charles Kloos as chairman and B. F. Gurney secretary. Subcommittees were appointed on speakers, grounds and attractions. Every effort is being made to secure the attendance of labor organizations from Lincoln and Wymore. Reduced rates have been secured on all roads.

BEATRICE, Neb., July 30.—(Special.)—A number of farmers residing in Madison and Logan townships can now be reached by phone, two lines having been completed by the Bell Telephone company, which are sixteen patrons on these two lines and more will be added in a few days.

LIGHTNING HAS BUSY TIME

Ashland and Greenwood People Suffer Losses from Its Visitation

GREENWOOD, Neb., July 30.—(Special.)—Joseph Clymer's fine barn near town was struck by lightning Tuesday night, and with all its contents was burned to the ground. The horses were all in the pasture, so no stock was burned. Four sets of harness, a buggy, some plows, a quantity of hay and some tools were consumed. There was a small insurance on the building, not sufficient to cover the loss.

ASHLAND, Neb., July 30.—(Special.)—During the heavy electric storm of Tuesday night, lightning struck several places in town. The most severe damage was at the residence of Willis Butler, which was badly damaged by fire resulting from the lightning. The loss will be over \$500 on this house. Other places in town struck were T. T. Young's barn, Uriah Swerdfecker's house, a tree in Postmaster Samuel E. Hall's yard and the newly completed Methodist church building. The damage was only slight except on Butler's house.

Crop Conditions at Superior.
SUPERIOR, Neb., July 30.—(Special.)—Wheat has been a disappointment. That is the general verdict of all who have watched out any of the grain. The quality is fair, but the quantity is quite deceiving. Fields that were estimated to run about eighteen bushels to the acre are panning out twelve in the machine. The thrasher is proving that twelve bushels is the average this year. Some fields are running as low as ten, some as high as fifteen. A. N. Adams, head miller for Guthrie & Co., says: "It is testing 88, and is fair milling wheat, but there will be lots of screenings in it. The berries in the middle of the head are plump and well formed, but the berries at either end of the head are shriveled. A little bit of extremely hot weather just at the critical period did it." Oats are practically all harvested, but no threshing reports are in yet. This promises to be a big crop, but it may fool the farmers, just as the wheat has. About half the corn is tassel. The weather for corn couldn't be better. Plenty of heat and moisture.

Catches Many Grocers.
FREMONT, Neb., July 30.—(Special.)—Inspector of Internal Revenue Painter of Omaha was in this city yesterday looking after sales of "unfermented" grape juice by grocers, and as a result of his investigations nearly all the grocers of the city were taken to task. The grocers, however, find that they have been wrong in their knowledge, being selling liquor without a license, and are therefore liable to a fine. The grape juice sold by them, it is said, contains more alcohol than beer, though advertised and purchased by them as unfermented. As there was no intentional violation of the law, no prosecutions will follow and the matter was satisfactorily settled and hereafter none of it will be sold by grocers. Several grocers had a large trade in the juice, and it was used quite extensively as a beverage by people who claim to be total abstainers.

Regret Parting with Pastor.
YORK, Neb., July 30.—(Special.)—Rev. T. C. Cross, one of the most popular ministers of York departed this week with his family for Eugene, Ore., where they expect to make their future home. Rev. Cross one year ago attempted to resign, but the congregation insisted on his staying another year here and when his resignation was handed in again the year the same, Last Sunday Rev. Cross preached his farewell sermon before one of the largest audiences which had ever assembled there. On behalf of the members of the church, Rev. Cross, grounds and attractions. Every effort is being made to secure the attendance of labor organizations from Lincoln and Wymore. Reduced rates have been secured on all roads.

BEATRICE, Neb., July 30.—(Special.)—The committee on arrangements for the Labor day demonstration met last night and organized by the election of Charles Kloos as chairman and B. F. Gurney secretary. Subcommittees were appointed on speakers, grounds and attractions. Every effort is being made to secure the attendance of labor organizations from Lincoln and Wymore. Canadian Government Food Test Grape-Nuts

Shown to have over sixteen times the amount of digestible food as the least one, and about two-thirds more than the next best food made, and nearly double the energy-producing power of any other food known.

(Extract from report of Gov't officials at Ottawa, Can.)

LABORATORY OF THE INLAND REVENUE DEPARTMENT.

MAJOR, MACFARLANE, ESQ., F. R. S. C., Chief Analyst Inland Revenue Department.

Sir, I beg herewith to submit a report of my work on Breakfast Foods.

Table with columns: SAMPLE, Moisture, Fat, Ash, Proteids, Crude Fibre, Dextrin, Starch, Calories per gram, Material soluble in Cold Water.

GRAPE-NUTS is away in the lead of every other food in the following respects: It has less moisture, less fat and less starch; it has more dextrin and is more soluble than any other food.

The first four are the most heavily advertised cooked foods in the world. Scientifically made food works wonders for the users. Six years ago Grape-Nuts started to supply the public with a scientific food, fully and correctly cooked at the factory, and made to supply the certain elements needed in making the gray substance in the brain and nerve centers, and to supply human energy, while at the same time furnish.

A food so easy of digestion that an infant's stomach will handle it without question. DEXTRIN is the form of sugar that the starch part of grain is turned into before it can be digested. Dextrin is the part that makes human energy.

The public made Grape-Nuts A Tremendous Success. The four blank spaces in this column showing no Dextrin whatever, apply to that number of uncooked foods.

DON'T FORGET Grape-Nuts has about double the energy-producing power of any food on earth.

IN THE LAST COLUMN Is shown the percentage of the food that is ready for immediate digestion.

GRAPE-NUTS has over sixteen times the amount of digestible food as the least one, and about two-thirds more than the next best food made. Made at the Pure Food Factories of the POSTUM CEREAL CO., Ltd., Battle Creek, Mich.

Red Hot from the Gun Was the ball that caused horrible ulcers on the face of a young boy in this city. It was cured by the use of the medicine known as Dr. Williams' Pink Pills for Pale People. For sale by Kuhn & Co.
