GOOD HARVEST WEATHER HITS WHEAT

Corn Suffers in Sympathy, White Onts, Though Pairly Active, Do Not Rise, and Provisions Mostly Tumble.

JHICAGO, Aug. . - A bearish sentiment prevailed in the pit today and September corn was unchanged, oats were the lower and provisions were from PAc higher to 200 A sharp setback destroyed yesterday's wheat advance, the market ruling weak the greater part of the session. Opening prices were weak on news of the excellent harvest weather in the northwest and September was off % ord. There was much business at 79% order. There was quite general selling at the start, with some of the commission houses. September started on the down grade and although there was some reactions, the keneral tundency was on the down grade and although there was some reactions, the general tendency was toward lower prices. The northwest and St. Louis markets were lower, which added to the depression here. After selling down to 71%c. September railled somewhat, but the close was weak and %27%c lower at 72%c. Clearances of wheat and flour were equal to 480,000 bn. Primary receipts were 564,500 bu, against 1,055,800 a year ago. Bradstreet's report save security of wheat and 564,500 bu, against 1,053,590 a year ago. Brad-street's report says exports of wheat and flour for the week were equal \$0.3,040,000 bu. Minneapolls and Duluth reported receipts of 129 cars, which, with local receipts of 135 cars, fifteen of contract grade, made the total receipts for the three points of 264 cars, against 157 last week and 298 a year ago. Notwithstanding the weskness in wheat,

Notwithstanding the weskness in wheat, corn prices held comparatively firm, but trading was of a saleable kind and the movement was freer, cables were strong and but for the drain in wheat the market would have made a good advance. After selling between 52c and 52%c September closed unchanged at 52%c. Local receipts were 121 cars, with nineteen of contract grade.

Outs ruled fairly active as a selection of the contract of the Outs ruled fairly active and with the Outs ruled fairly active and with the support of commission louses and some of the local bulls, the market held steady in spite of the weakness in wheat. Liberal shipments of contract outs was a help to prices. Local receipts were 219 cars.

Provisions sold off sharply early in the day, due to offerings from outside holders and some selling by packers, but tater a fair demand developed for lard and the whole list responded in the uniturn. September lard was 2½c higher at \$7.92% and ribs were off 10@12%c at \$7.5@7.87%.

Estimated receipts for tomorrow: Wheat, 120 cars; corn, 115 cars; outs, 215 cars; hogs, 15 coo head.

Foreign Financial.

LONDON, Aug. 7.—The demand for money was moderate. The exchequer bond payments disturbed the market. The supply of cash was restricted. Discount rates were firm. The stock markets opened with a better tendancy, and were moderately active. The activity in Americans relieved the depression, and consols and home rails hardened. Americans opened strong and well above parity, and further improved on covering by the bears. Norfolk & Western, Eric. Union Pacific and Atchison were the festures of the market. More local support for Americans was manifest, and after slightly drugging after the New York opening they closed hrm, some of them below the best reported for the day. Kaffirs were firm and higher. On the street Americans were flat, the leaders varying from half point to 2 points below the official closing quotation.

PAHIS, Aug. 7.—The bourse opened duil and rather weak, except in the case of gold mines and government securities. The market closed quiet and inactive.

Three per cent rentes, 37 francs 77% centures for the account. Foreign Financial.

BUSINESS IS MAINTAINED

Dun Declares Country's Trade Equal to a Year Ago.

DISTRIBUTION USES UP RAILROAD CARS

Crops Have Yet to Be Moved, Though Rolling Stock in Already Reported Short in Many Sections.

NEW YORK, Aug. 7 .- R. G. Dun & Co.'s weekly review of trade will say tomorrow: Trade advices from nearly every section continue to show as favorable conditions as a year ago, and in many lines the volume of transactions has increased. Jobbers report fall business opening with excellent prospects, and manufacturing plants are well occupied with the exception of cotton mills. Distribution of merchandise is so heavy that railway equipment already proves inadequate, although crops are not so great a factor as they will be in a few weeks. Earnings for July exceeded last years by 12.7 per cent and those of 1301 by 20.2 per cent.

On the whole, news from the farms is less favorable, but no serious curtailment is assured, and many sections make bright reports. A decline of 1.5 per cent in the cost of commodities during July is evidence that prices are less inflated, rince the change was mainly in mests and other food, which have been ruling abnormally high. Trade advices from nearly every section

Iron Buyers Still Many.

Consumption of iron and steel is on a large scale, and in many departments the past week has witnessed the signing of numerous contracts, but there is a tendency to delay purchases beyond early needs. This conservatism is not surprising in view of the uncertainty regarding the security and financial markets, together with considerable interruption to structural work through labor controversies. The rate of consumption and the moderate size of orders, however, indicate that stocks are running lower, which encourages furnacemen and mill operators to noid quotations fairly steady. A moderate tomage of pig from has been ordered, and in partly finished products the best feature just now is the bidding of agricultural implement makers. More pig from was imported in July than anticipated, and German billets are still offered at Pittsburg, but the domestic makers announce their intention of meeting foreign competition.

TRADE A! FAIRS PROMISING Bradstreet Discounts Sentimental Drawbacks, Pointing to Excel-

lent Crop Prospects. NEW YORK, Aug. 7.-Bradstreet's tomorrow will say:

Summed up in a sentence, it may be said

Summed up in a sentence, it may be said that the position in trade and industry is satisfactorily secured, while the future, despite some mainly sentimental drawbacks, is highly promising.

Divided geographically, it is to be noticed that the east feels the effect of speculative liquidation and the duiling effects on manufacturing of high prices of raw material or of strikes, while the west and south contemplate the prospects of good yields of staple crops and remunerative prices for the same with confidence and even optimism. Staple prices are drifting lower. Food products certainly tend lower.

Other developments in actual trade and manufacture are feeble. There are more buyers of dry goods and clothing, hats, shoes and hardware in western markets, and in nearity all lines business is claimed to be equal to or in excess of last year.

Story is a Fake.

ST. CLAIRSVILLE, O. Aug. 7.—The report that a posse was after a young negro lawyer of this place named C. E. Burns to lynch him for assaulting a prominent woman, Mrs. M. E. Stowe, is pronounced untrue by Sheriff Major. No persons of the above names are known at St. Clairsville and there is no excitement.
