Combine to Boost Grains.

PROVISIONS DROP WITH PLENTIFUL HOGS

Corn is Especially Helped by Cli matic Conditions and Takes Onto with it on Board of Trade.

CHICAGO, Aug. 12—A firm undertone pervaded the grain pits today and September wheat closed 140% higher; September corn was up 14c, oats were up 14c, but provisions were off from 14c to lic.

Trading in wheat was fairly active and the general sentiment was inclined to the built side under the influences of continued light receipts and a better cash and export demand. The openion was somewhat in buil side under the influences of continued light receipts and a better cash and export demand. The opening was somewhat irregular, the distant deliveries being steady to firm, while the September option was easier as a result of lower cables. September was off %c to %c at the start, opening at 79/36794c, selling up early to 80/3674c. The advice was due mainly to the active demand for December and May, with but little on the market. On the advances there were realizing in all months, but the feature was the heavy liquidation of September, which resulted in that month decilining to 79%c. Notwithstanding the large amount thrown on the market, the declines were only temporary, reaction occurring whenever the selling had ceased. The strength is corn was a help in advancing prices late in the day and caused a firm close, September being up %2%c at 8.4%0 80%c. Clearances of wheat and flour were equal to 17,200 bushels, Primary receipts were 551,300 bushels, against 1,306,200 bushels a year ago. Minneapolis and Duluth receipts of 11/ cars, 16 of contract grade, made total receipts for the tarse with local receipts of 10 cars, with local receipts of 10 cars, with local receipts of 10 cars, with local receipts series a year ago.

The sentiment in the corn pit was decid-

made total receipts for the three points of 221 cars, against 281 cars last week and 49) cars a year ago.

The sentiment in the corn pit was decidedly bullish on the cold weather throughout the corn section, snow being reported at Omaha. There was a big trade, but offerings were surprisingly light even at the advance. Cables were higher and receipts small, while the cash demand showed considerable improvement. Shorts were active buyers throughout the day. The close was at about the top figures, September being %c higher at 52c. Local receipts were 114 cars, with 18 of contract grade.

There was only a modefate trade in oats, but prices were firm throughout the day, due partly to the strength in corn and partly to the lack of offerings. Crop news was bullish and there was an improvement in the cash demand. After selling between \$44,834% C September closed %c higher at \$44,600. Local receipts were 179 cars.

A liberal run of hogs and easier prices at the yards caused lower prices in provisions. Trading was extremely quiet and the market showed little fluctuations. Sepat the yards caused lower prices in provisions. Trading was extremely quiet and the market showed little fluctuations. September pork closed 7½60c lower, September lard was off 7½c, while ribs were down

even though the actual shipments were made from Paris. Attention at this moment, however, is concentrated on the extent of the Egyptian demand. It is thought that owing to the sharp rise in cotton lately the requirements will be much larger than usual. The outlook apparently justifies the cautiousness of the bill brokers. The stock markets were steady, but little business was done pending the conclusion of the settlement. Consols were firm. Americans hestlated at first, and then became firm at above parities. There was a slight increase of local and continental orders for Americans, under the influence of the crop reports, and they closed strong. Buillon amounting to £15,000 was withdrawn from the bank of England today for shipment to Germany, and £20,000 withdrawn for shipment to Roumania. PARIS, Aug. 12.—The bourse today was dull and feeble.

Three per cent rentes, \$1f.80c for the account. Exchange on London, £5f.15c for checks. count. Exchange on London, Estisc for checks.
BERLIN, Aug. 12.—The tendency on the bourse today was irregular. Most departments except the market for iron shares were dull. Iron shares were strong on heavy buying. Coal shares were lower upon the delay on completing the formation of the coal syndicate.

Discount rates, short bills, 3½ per cent; three months' bills, 3½ per cent.

NEW YORK STOCKS AND BONDS.

Prices Reflect Optimism, Though Frequent Checks Halt Rise.

Prices Reflect Optimism, Though Frequent Checks Halt Rise.

NEW YORK, Aug 12.—Wall street's more hopeful views of the outlook were reflected in the upward movement of prices with which the day's operations began. The advance became so rapid as to overrun the newly awakened demand and attract some selling to take profits which caused some hesitation. A feature of the market was the duliness which developed on reactions due to the withholding of stocks from the market except at advancing prices.

The speculative element, made up of professional traders played an important part in the movement and undoubtedly buying to cover short contracts was on a large scale. Yesterday's market also showed signs of being oversold, the genuine liquidation having falled to keep pace with the bear selling to anticipate it. The fact was instituted in today's market that there are buyers who would come in on an advance who would refrain from buying on a lower level. There is a large volume of selling which disappears from the market when prices turn upward. This is especially true of enforced sellers by reason of margins wiped out and shrinkage of collateral. It is also true that holders of securities are prompted to sell them when prices are decilning who would hold when prices hearin to advance. The selling of collateral out of loans, and the contraction of credits seemed to have disappeared entirely today. Aside from these considerations there was no marked change in conditions to account for the larger demand for securities. Rates for time money continue very heavy. London is buying quite freely of stocks. The increasing of security in the ripening crops is encouragement to offer exchange bills in the market for long periods to be covered at maturity when the export of the new crop is in progress. The weather bureau's weekly summary on corn yesterday added to the encouragement counsed by the monthly report published the day before. In the generally brighter sentiment of the day hopes were expressed of a good bank statement. Late

active.

The general tone of the bond market was strong. Total sales par value \$2,900,000.

NEW YORK, Aug. 12.—COFFEE—Spot Rio, steady; mild quiet. Futures opened steady at unchanged prices and at first ruled quiet, but later became more active, chiefly as a result of changes from Sep-

tember to November, though there was also a light demand more generally through the list on the better European cables and expectations of further unfavorable crop accounts from Brazil. The close was steady, net unchanged to 10 points higher. Sales, including changes, were 35.750 bags, and included September at 3.75c; October, 3.55c; November, 3.55c; December, 4.50g, 4.55c; March, 4.56c; May, 4.70c, and July at 4.55c.

so clock and that also helped to delay the market. As a general thing the prices paid did not show much change from yesterday, but trading was slow and the day well advanced before a clearance was made.

The few cornfed steers that arrived sold in about the same notches they did yesterday where the quality was at all satisfac tory. The same as has been the case all the week, however, the part-fat kinds were neglected and hard to dispose of at what seemed to be steady prices.

The cow market was a little uneven and could be quoted steady to a shade easier. The desirable grades sold in about vesterday's notches, while others were slow and, if anything, a trifle easier. A good many common cows, such as canners and cutters, are now coming forward and owing to this fact buyers have things much their own way on that class of offerings.

There was no particular change in the prices paid for buils, veal calves and stags. Common buils, though, are slow sale.

The stocker and feeder market was not very active this morning. Speculators were afraid to take hold very freely, as the severe storm, they figured, would tend to keep buyers at home the remainder of this week. There was a fair demand from the country yesterday, as about \$5 cars were shipped out, but the prospects for today were not considered as favorable. That being the case the feeder market could best be described by calling it slow and weak on everything except the best.

There were not as many western rangers on sale today as arrived yesterday and the beef steers, while not any higher, could not be quoted lower. The good stuff sold freely, but common kinds were duil. Range cows sold steady to a shade easier and stockers and feeders were steady on the best, while others were slow and weak. Representative sales:

MAYOR'S ACTION IS POPULAR

Chief Executive Elicits General Approval in Signing Ordinance for New Hond Issue.

A good deal of quiet satisfaction was apparent in the city hall when it became known that Mayor Moores had signed the ordinance authorizing an issue of \$200,000 fund bonds, which will be sold to Spitzer & Co., of Toledo, O., at par. onds bear interest at 414 per cent and will run thirty years. Final arrangements have been made for their disposal to Spitzer & Co., and the money will be paid to the city in installments of \$50,000 each at the expiration of the months of September, October, November and December.

The sale is made to raise money to fill the deficiencies in the various funds due to the railway tax litigation, which holds back about one-fifth of the levy. In other words it is done to enable the municipal corporation to continue in business during the last four months of the year. Most of the important funds, such as the fire, police and lighting will be exhausted in September, and the issuance of further warrants against them stopped.
