Wool Market. BOSTON. Aug. 14-WOOL-The Com-mercial Bulletin tomorrow will say: There is a strong market for wool. The opera-tions of one mill in new Menitana involved the placing of several million pounds this week at full prices, showing a fair profit on interior cost. The general demand still runs to the extremes very fine and the lower grades, though rather more interest in fine medium is reported by some houses. The western wool season of 1963 is prac-tically over. The Montana markets have closed strong and buyers are returning home. Prices were maintained to the close on all good wools. Foreign advices note a little easier feeling in wools in London. but cross-breds closed firm, with supply short. The shipments from Boston to date from December 31 are 141.507.555 lbs. against 159.258.551 lbs. the same date last year. The receipts to date are 177.170.752 lbs. against 156.415,751 lbs. for the same period last year.
