honesty. Famous Gallery Spectacle.

Washington Post. It is semi-officially announced that no matter what changes Speaker Cannon may make in the house committees, the galleries will not be deprived of the daily delectable treat of seeing Sereno Payne of New York smilingly and somewhat pompously preempt the first aisle to the left of center and "move that the house do now adjourn."

Put on the Brakes.

Cincinnati Enquirer. In some parts of the country it seems that in granting licenses to run automobiles there should be more particular examination as to common sense than as to knowledge of steam or electricity. The ownership imagine they will strengthen their party of one of these horseless establishments seems to imbue a man with the desire to go through the streets at the speed of a dog with a tin kettle tied to his tail.

American to the Core.

Louisville Herald. Louisville has a stronger claim to be considered "the American city" than Philadelphia. The percentage of the latter's forion of 204,731, has 21,427 foreign born, or 10.5 per cent. Cincinnati's foreignborn people are 17.8 per cent, Cleveland's 32.6, Pittsburg's 36.4. Philadelphia draws most of its population from Pennsylvania in relation to the public lighting whose population is 84 per cent native-born monopoly, Judge Sullivan's fool friend, against 97.3 per cent for Kentucky. Of Kentucky's total population, 2,147,174, there were in 1890 reported 1,885,338 born in Kentucky itself. The total native population of the state was 2.093,295. Kentucky is thus Amereditor of The Bee declares the people ican to the core, and its busy and beautiful metropolis, American, too, in every sense of that noble term

But He Didn't Cough Up. St. Louis Globe-Democrat. public that he was one of the best secretaries of the treasury that there ever was, Will the World-Herald kindly inform but the secretary did not appoint a disbursing agent for that \$5,000,000. He said 'this is no matter of sentiment, but a plain usiness proposition." The money will be forthcoming in good season, though one needs to count carefully when one is spending \$5,000,000. Secretary Shaw was taken into a high place and shown all the kingoms of the earth, strung along Skinker road, or soon to be so, and he greatly liked the view which has at present as the van preferred to make his bed with the terminus of its perspective, the car sheds railroads and the people will let him of the Transit company. These are, however, to be quite concealed by Adolphus Busch's Tyrolean Alps. "Beyond the Alps lies the car barns." Before the secretary went away he told us our universal exposition was going to be the finest ever seen.

IS THERE A HARD COAL TRUST!

Pertinent Inquiry Reaching Down Into the Pocketbook. Chicago Post.

We have grown so into the habit of speak ng of trusts and fancying that we can see trust in every industrial combination that it may seem the height of absurdity employes in those departments has been for anyone to question the existence of an reduced rather than increased by virtue | Anthracite Coal trust. Of course, all ordinary evidence favors the belief that such a trust exists, but when we inquire into the matter more closely we find that the genure with political color blind carpers erally accepted definition of a trust does not apply to the hard coal arrangement. In the first place, the father of all truststhe Standard Oil company-has assured us repeatedly that its chief purpose is philanthropic; it was formed with the object of heapening kerosene and other petroleum products to the consumer. The hard coal perators cannot plead guilty in this particular. Again, a trust is something against which the anti-trust laws of the nation and the several states operate. But none of the anthracite coal producers and carriers. transportation and they control the retalier. with reference to some of the jobbery They have suspended the law of supply and demand, for they can tell to a cent months coal will be, no matter what the amount of production or the percentage of consump less it includes all the different Indian tion. Only recently they have said that qualities of the same men for like posithey were over-producing and might soon have to close mines and restrict operations, raise prices.

The coal strike costs the operators about but the consumer is charged \$1 a ton more today than he was just before the strike If the production has exceeded the demand, how are we to account for this dif-

> An important general order will shortly appear from the War department. It is of the greatest interest to army officers. ince under its provisions the amount of baggage to be transported at government expense is increased three-fold. Quarter master General Humphrey, who has had much practical experience in his depart ment, is responsible for the change, and it is on his recommendation that the quancost to the owner, as specified in paragraph 1242 of the army regulations will be as follows: "For a major general, 19,500 Ledger. pounds; brigadier general, 8,400 pounds; pounds; brigadier general, 8,400 pounds; "John Jones, the patient who came in a little while ago," said the attendant in the pounds; first lieutenant, 5,100; second lieu-out-patient department, "didn't give his octenant and veterinarians, 4,500; noncommissioned officer, 1,500." Heretofore, excess of baggage has been transported by the owner at his own risk and whatever cost might be imposed upon it. Hereafter, this excess will be transported by the government at the favorable rates which may, of ourse, be obtained by the War department and the actual cost of the transportation will be charged against the owner whose benefit by this arrangement is derived from the special rates which the government obtains and which, of course, would not be available for the individual.

> The question of army music is before the question of army music is before the general staff with every prospect that some reformatory measure will be evolved as a result of the deliberations. Numerous suggestions have been submitted to the "So you think it is an advantage to a boy to see the country."
>
> "To be sure," answered Farmer Cornitossel. "A boy has a heap better chance suggestions have been submitted to the "So you think it is an advantage to a boy suggestions have been submitted to the suggestions have been submitted to the general staff from a variety of sources, including chief musicians, who ought to be in a position to know what is most needed. in a position to know what is most needed. One of the steps upon which everybody agrees as necessary for the achievement of practical results is the increase in the pay of army musicians. This, of course, can only be done by legislation, and it is probable that among the recommendations sent to congress during the coming session. will be one in favor of a change in the law so as to give members of army bands greater compensation than they now receive. The change is considered as absolutely necessary in order to preserve the artistic quality of military bands. General A. W. Greely, chief signal officer

of the army, has adopted the plan by which the government shall be in possession of photographic records of important military events and scenes. He has already equipped which the members of the United Order with photographic outfits sergeants of the signal corps who are on duty in Alaska and the Philippines, with instructions that key is Syrio-comic, or at any rate less the product of these photographers shall be Syrious than was supposed. There are sent to Washington. Detailed instructions five ways of spelling Beirut and fifty ways have been furnished so that interesting incidents and surroundings may be pre-Emerson Enterprise: Bryan and the Kan- served by means of the camera. > Doing Quite Well, Thank You. Minneapolis Times.

Chief Statistician King of the census of fice has cruelly punctured President Roosevelt's race suicide notion by the statemen that according to the census there were band in Ayer's 2,049,133 births in 1960 and only 1,039,048 deaths. Remembering that deaths are much more fully reported than births the showing is not as favorable as the real ing convention by Congressman Hinshaw. figures would be. If the president meant who is one of the livest political wires that our "best people" are not multiplying Hair Vigor. Lewell, Man. as rapidly as they should, there is com pensation in the fact that the humbly born

GET TOGETHER.

Merging of the Irrigation and Trans-Mississippi Congresses Suggested. New York Evening Post-

The suggestion that the Transmississipsi congress and the National Irrigation cor gress be combined comes from the west, following close after the meeting of the organization and its methods, to the end plank was tossed over the transom of Newark and neighboring towns who profitable one. He went there to talk over former at Seattle. The latter chose Ogden, Utah, for a gathering place. It would seem make the proposition to unite a sensible one. "Congresses" and "fairs" with long ommon, and if the country beyond the been in the state for months, their in- possessed full authority to do what it did, questions were discussed and a good deal of Mississippi would attract attention to itself there must be some definite purpose b hind its exhibitions. The objection, fre points presented by the prosecution that prevails in favor of retaining the rapid-fire quently urged, that the Transmississipple congress represents a much larger area than is interested in irrigation laws and methods is not so valid as would appear. Major Guilfoyle has submitted a report of Barring the first tier of states beyond the the results of his observations at Fort Sher- big river, there is hardly a community that is not vitally affected by drouth, occasional or periodic. From North Dakota approval. Quite a number of experts were to Texas and from eastern Washington to of the opinion in this connection that the southern California, irrigation is the farmpoints of the bull's-eye at 300 yards should ers' hope. Everywhere in that immensa be increased in diameter from eight to ten area the Wright Irrigation law was looked scribed by the revised regulations also met vival of interest in the problem of making With Senator Duon every hand respecting the system of bols of Idaho heading a company to water rapid fire adopted by the board. It has 35,000 acres of land about Lewiston, with appearing target should have other valua- ing a project to reclaim 65,000 acres in the tions for hits besides five and zero. The Grand valley, Colorado, and with numberrevised regulations will probably change less smaller private enterprises on foot, it this target to conform to this view which Is difficult to see what more important work course and to introduce it in the sharp- of union, but the obvious advantages of shooter's course, giving a time limit of the consolidation seem likely to appeal more forcibly as the aims of each are better understood.

COMING AND GOING.

How the Anthracite Coal Barons Work the Consumer. Pittsburg Dispatch.

It is interesting to observe the explanation by which the anthracite coal corporations justify their order to shut down the mines on the plea of overproduction at the same time that prices are being shoved up 10 cents per month by order of the same au-

Only last spring it was heard from the same sources that the deficiency in proup the shortage. It seems rather difficult

such a condition would be to lower prices

By shutting down now they will be able to allege next winter another shortage in the size of coal for which there is the greatest demand and to extract some more \$10 and \$12 prices. Then after that extortion has been worked to its capacity they can repeat the "overproduction" pretext next summer and produce artificial scarcity again.

SMILING LINES.

Miss Anne Teek-He asked me if I re-

"What was the nature of his trouble?" asked the resident physician.
"Injury at the base of the spine."
"Put him down as a book agent."—Philadelphia Press.

Spellbinder—Yes, my friend, eternal vigilance is the price of liberty. Be on your guard; a word to the wise is sufficient.

Voice from the Audience—Then you must take us for gol-darn fools! You have been talking for an hour and a half!—Kansas City Journal. "He called me a boiled lobster," explained

the complainant.
"Well," replied the defendant, "he runs
a red automobile, and he looks like one."
"Discharged," said the judge.—Chicago

The kangaroe can jump a bit; The flea's a jumper, too-He'll jump, he'll bite, and then mp, he'll bite, and then he'll flit. And never leave a clew. When either jumps, nobody tries His jumplets to pursue— We're glad the flea has not the size

Of the big kangaroo, —Chicago Tribune. ARMY OF THE CORN.

St. Louis Globe-Democrat. All summer long the army stands. In ranks erect and clean.
The garrison of level lands. And of the hills between.
The Armies of the Wind and Rain Come shouting to the fight;
Alert upon the spreading plain. The corn waits in its might.

It flaunts its insseled banners high, And beats each swaying shield,
Until the summer's battle cry
Is chorused from the field.
Victorious and sturdy still
It rises from the fray,
And rustling chants of gladness fill
The long hours of the day.

The dawn's first tender, rosy blush—
The hailing of the morn—
Finds, shrouded in a peaceful hush,
The Army of the Corn.
But friendly breezes come and go
Till dying afternoon
Hears, faintly sighing, soft and low.
The echo of a croon.

And so, serene and bold and brave,
All through the summer long
The gleaming banners proudly wave
In cadence with the song.
Until the golden autumn morn
When there will come to spoil
The standing Army of the Corn.
The hopeful Troop of Toll.

Many a woman has found a hus-
