Corn and Wheat Weak for Greater Part of the Session.

WEATHER DEPRESSES PRICE OF CORN

Heavy Rains Caused Good Buying of Oats, Making Higher Prices, the Provision Market Holding Wednesday's Strength.

CHICAGO, Sept. 10.—Corn and wheat were weak the greater part of the session, the former steadying a trifle at the close at a loss of 'ge for December, the latter snowing a net loss of 'gille for the same option. Oats, strong, December closing 'se higher, while provisions were up lot to 20c.

The opening in wheat was steady at about yesterday's final prices, December starting at \$2\text{M}\$ to \$5\text{spille}\$ (the sustaining features being fairly steady cables and lighter receipts southwest. An easier tone soon prevalled, however, induced largely by anticipation or a bearish government report, commission houses and long holders letting go considerable quantities. A break to \$1\frac{3}{3}\text{c} resulted in the December option. The close was at slightly better

break to \$1%c resulted in the December option. The close was at slightly better prices, due to covering by shorts, with December at \$1%(561%c, a net loss or %c. Clearances of wheat and flour were equal to \$2,000 bushels, and primary receipts 1,255,500 bushels, against 1,851,000 bushels last year. Minneapolis and Duluth reported receipts of \$16 cars, which, with local receipts of \$16 cars, which, with local receipts of \$15 cars, \$5 of contract grade, made a total for the three points of 1,000 cars, against \$10 cars last week and \$55 a year ago. Continued mild weather in the corn belt

brought out quantities of long corn, and al-though local bulis offered considerable sup-port early, prices continued to sag. Exbrought out quantities of long corn, and atthough local buils offered considerable support early, prices continued to sag. Expectation of bearish advices in the government report also contributed to the weakness. Commission houses generally were on the seiling side, and shorts who had covered on the frost scare put out their lines. December sold down from the opening, 51 to 51½c, to 50½c, closing at 50½65½c, a loss of ½@1c. Local receipts were 812 cras, 36 of contract grade.

There was general good buying in oats, influenced by neavy rains in many sections and a prevailing feeling that the government report would show a large reduction in the indicated yield. December ruled strong, closing ½c higher at 37½c, after ranging between 37½c and 37½c. Local receipts were 136 cars.

Yesterday's strength in provisions held today, but in a less degree, pork being up at its best 25c but setter.

today, but in a less degree, pork being up at its best 25c, but easing off on liquidation by longs with profits. There was a light run of hogs, and local traders gave the market support. Closing prices were \$13.89 for October pork, a gain of 20c, with lard up 17½c at \$8.47, and ribs 10c higher at \$8.80.

Estimated receipts for tomorrow: Wheat, 0 cars; corn, 580; oats, 165; hogs, 14,000 The leading futures ranged as follows:

LONDON, Sept. 10.—Money was in strong demand in the market today for settlement requirements and discounts hardened. On the Stock exchange little was done beyond arranging the account. There was a slight general improvement, but the market afterward became dull, owing to the current uneasiness regarding the future of money in addition to the Balkan troubles. Consols opened slightly better, but subsequently receded to the lowest figure recorded since 1870, on talk of an advance of the Bank of England's discount to 5 per cent.

Cotton Market.

NEW YORK, Sept. 10.—COTTON—The cotton market opened firm at an advance of 1g9 points, and for a time ruled active with an upward tendency, following a better class of cables than expected. The early market was also bullishly influenced by indications of renewed support from recognized bull leaders, furthered by a rumor to the effect that late bear traders had turned bulls. There was later a period of liquidation that carried prices off a little. Still later there was later a period of liquidation that carried prices off a little. Still later there was a sharp rally on renewed support, considerable increase in outside investment demand and quite active covering, following reports in crop deterioration. Reports of boll weevil and rust came in quite numerous, although it is said they wore generally to be traced to bull sources. The market towards the close cased off anywhere from 3 to 10 points under realizing, but was finally steady at a net rise of 5611 points. Sales were estimated at 500,000 bales. No quotable change in the prices paid for bulls, veal calves and stags was noticeable.

There was a little more life to the stocker and feeder trade today than there was yesterday. Something over 50 cars of cattle were shipped to the country, which relieved the situation to quite an extent and as the weather was more favorable this morning speculators took hold of the better grades quite freely and in some cases paid stronger prices. By the better grades is meant good, heavy, dehorned feeders. Light and common stuff of all weights was slow sale and no more than steady.

About the usual proportion of the offerings consisted of western grass beef steers and while good stuff could safely be quoted strong and active the common kinds were not much more than steady. Everything, though, was sold in good season. Range cows opened strong and active but closed a little slow and weak. Western dehorned feeders of good weight and quality were in brisk demand at stronger prices and other kinds held about steady. Representative sales:

WIFE'S FATHER MURDERS

Illinois Man Gives Deadly Vent to His Drunken Frenzy.

HE THREATENS TO KILL TWO OTHERS

Escapes Into the Woods Well Armed and Posse is in Pursuit with Instructions to Shoot Him on Sight,

WATERLOO, Ill., Sept. 10 .- William A. Hoffman, a young farm hand living near here, called his father-in-law, Dr. William Brandt, to the door of his house last night and shot him to death. Then he rode back to his home, told his

wife that "he had killed the old hound, her father," gave her \$2 which he said he wanted her to spend on the christening of their baby, klased her and their four children and rode into the woods.

"There are two men I must kill before I kill myself," he said to his wife, before leaving. The family of Dr. Brandt offers a reward

of \$300 for Hoffman's capture. Sheriff Ruch and a large posse are searchng for him. He is heavily armed. Just before killing his father-in-law, he purchased fifty rounds of cartridges.

Hoffman is an unerring marksman and the officers believe he was driven to recklessness by whisky and his imaginary troubles.

Warned to Beware.

Before murdering Brandt he told Herman Pape: "In one hour there will be a warrant out for me. But look out; I will shoot you or Ruch or anybody else who tries to arrest me."

Hoffman's wife says that as he left he declared: "I must kill two men and then myself. If the sheriff or his deputies try to arrest me, I must also kill them." Sheriff Ruch thinks Hoffman is hiding in

the woods near his home at Rock Cliffs. He and his deputies are heavily armed and prepared to shoot the fugitive at night. This entire section of Monroe county is terrorized, as the fugitive is regarded as desperate. It is not known who are the other two persons he intended to kill and both men and women are so badly frightened that many will not leave their homes without arms.

It is supposed that Hoffman's motive for killing his father-in-law was that the old gentleman refused to increase his weekly allowance. Dr. Brandt was quite wealthy and had been practically supporting his son-in-law and family. He gave Hoffman a certain amount of spending money each week.

FALSE ALARM AS TO FROST

Scare that Fall Came During Night Allayed in Statement from Weather Forecaster.

The extreme coolness of the early morning yesterday gave the popular impressionthat a frost must have fallen in this locality during the night. Weather Forecaster Welsh discourages the prophesy in the statement that "the only frost of which the Weather bureau has any record as occurring last night is the report of a slight frost at Denver. But it was too slight there to cause any damage. No frosts are reported from any other section in this district. The temperature here in Omaha was 48 and 49 during the night, the former being the lowest. At 7 o'clock this morning a temperature of 49 prevailed. There was no frost at all in Nebraska. I anticipate that all danger from frost is now over, so far as any damage to the maturing of corn s concerned. In fact the cool snap is prac tically over for this season, and a steady and gradually rising temperature may be looked for, though the present indications promise no particular change for the pres-

light frost even then."

ent. The frost last year put in its first appearance September 12 and 13, just a year ago the coming Saturday. It was but a

Judge Dickinson Grants Application to Modify Injunction in Gas Company Contract Case.

Judge Dickinson yesterday granted an application for a change in the order restraining the city council from receiving or considering a contract from the Omaha Gas company.

The court stated that the restraining order went much farther than the petition and that the order was evidently secured for the purpose of restraining the old city council from extending the present contract of the company and was not intended to prevent the present council from entering into negotiations with, or making a new contract with the gas company.
