The winners in price, however, were the bananas, the navy beans and the grapes.

before even the bulk of the arrivals was disposed of. Although there were a good many western grass cattle in the yards this morning. that were classed as killers there were very few that were at all desirable. Anything that could be called good sold without much trouble at steady prices as compared with the close of last week, but there were so many of the common kinds on sale that the tendency was to pound prices on that class. Range cows sold steady to a dime lower, while western feeders if of choice quality and heavy weight sold at not far fro steady prices with others around a dime lower. BIEEF STEERS.
