LINCOLN, Sept. 16 .- (Special.)-The decision of Judge Westover at Butte yesterday in the Boyd county land case, in which he denied the right of Land Commissioner Follmer to retain counsel, granting the attorney general the sole authority to appear for the state, has by no means pacified the land commissioner to allow Mr. Prout to handle the case alone, but it has served to somewhat complicate matters and will eventually be the means of long and tedious litigation. Attorneys Ryan and Murfin, who appeared for Mr. Follmer and were shut out by the court, were here today but are not yet ready to say what will be done by them. It is probable, however, that they will make another effort to get the cases in the federal court. Judge Westover, Attorney General Prout and M. F. Harrington, attorney for the settlers, agreed to meet in Lincoln at some later date, at which meeting the attorneys will argue the case.

Recently the Board of Educational Lands and Funds passed a resolution giving to Mr. Follmer the right to proceed in the cases as he saw fit. The next day, at the request of Attorney General Prout, the board rescinded its former action and the records show that no further instructions were given to any one. Follmer and Mortensen have voted together and Governor Mickey, Prout and Marsh have stood together

When court was called yesterday, Mr. Follmer was there, represented by Robert Ryan and Captain E. J. Murfin, the settiers by M. F. Harrington, and the state by Attorney General Prout at the request of Governor Mickey. The cases called were those of Joseph Connot and William Luedke who are trying to prevent, by injunction, Mr. Folimer from leasing school lands upon which they are settled. Some months ago the attorney general filed with the court a demurrer to the petition, but nothing had been done in the case. By reason that he alleged the petition was false, Follmer, through his attorneys, filed an answer denying the truth of the petition, Yesterday Prout moved to strike out the answer on the grounds that he is the sole head of the legal department of the state, The answer was struck out.

In the case of A. H. Blair and others against Follmer and County Treasurer Brown of Boyd county, Follmer presented petition for removal of cause to the United States circuit court for reasons that the questions involved were federal Accompanying the petition was W. T. Auld, R. E. Moore, Eugene Munn, A. J. Sawyer, Judge J. H. Broady, Joseph Wolfe, S. W. Burnham and J. L. Miller of Lincoln and C. W. Cuff, M. P. Meholin and Ed G. Johnson of Butte. With this was also filed a power of attorney by Ryan and Murfin from Follmer and Brown to represent them. Prout moved-to strike out the power of attorney and the removal of petition from the files on grounds that he, as attorney general, was the only Furnam. Prout had reached attorneys. attorneys, Harrington stated that he and Prout had reached an agreement whereby an amicable suit could be brought and the case settled by a suit of ejectment, which, he said, was the only proper way to settle it. He said that if Folimer was to have attorneys they may not agree with himself and Prout and he would have to continually hunt, then up and talk to them, which would bring about a state of anarchy.

At a meeting of the board held February 11, 1902, Prout moved the adoption of a resolution that the state accept other lands. On this resolution Prout voted in the affirmative and Folimer in the negative, Stuefer and Marsh falling to vote. Folimer then moved that as the question had been settled at a former meeting that nothing further be done. This was not seconded. Then again Proix called up his resolution. He explained that if the board refused the petition the settlers had no appeal. For this the vote stood Prout in the affirmative, the vote stood Prout in the affirmative, Foilmer negative. Cause of Change,

It is the known views of the attorney general, as shown by the records, that made Follmer object to him representing the state in the case. In justice to Mr. Prout his change of opinion is explained by a statement that when he first looked the case he believed he was working under the law passed in 1961, granting the John Greeson, is now in the county juli state the power to issue the deeds. He held that this law was unconstitutional and the members of the board agree with him in that. He afterward found the law of 1881. and it was under this law he claimed that ten years. places Prout in a peculiar light. Follmer's Position.

The Boyd county land case is one of the great problems of the state to zettle. The land is part of the Fort Randall Military reservation and was given to the state for school lands and was accepted by the state. All of the odd-numbered sections not accepted by the state were opened to settlehomestead entrymen. The last report of Land Commissioner Follmer said:

eighteen other parties attempted to file

school land selections made by the state
on odd-numbered sections, all of which
were rejected by the officers of the United
States land office at O'Neili, for the reason
that the land belonged to the state of Nebriska under its grant and by reason of its
selection. They appealed from this decision
to the commissioner of the general land
office, who approved the decisions of the
local land office, and finally they appealed
from the decision of the general land office
to the secretary of the interior, with the
result that the decisions of the local land
office and the general land office were sustained and approved by the secretary of the
interior. report of Land Commissioner Folimer said:

No Work on Cella.

The time for the completion of one-half of the cells at the penitentiary, for which the Board of Public Lands and Buildings agreed to pay the Van Doren Iron works of Cleveland \$63,000, elapsed today and no cells are done. In fact, not a turn has been made and no member of the board seems to know anything about when the work will be done. According to the terms of the contract, the contractors are to receive \$442 a gell for 156 cells, one-half of which are to be in place in four months and the other half in six months. After this time had elapsed the contractors were to pay to the state \$10 a day for each day that the cells were not in place.

The state of affairs at the penitentiary because of the absence of the cells and the cramped condition of the prisoners is getting worse every day. "It makes discipline difficult," said Warden Beemer. "The men are kept together far too much for the maintainance of proper conditions. In fact what we are obliged to do is to corrall them. Because of this there is always darger of the men trying to get away or to mutiny."

A meeting of the board will be called soon to look into the matter."

Methodist Conference.

The Methodist conference was well attended today at both the morning and afternoon sessions. Bishop Andrews opened the session with prayer. The congregation was made up mostly of men with a sprinkling of women. Rev. Spencer of the Christian bond for \$2,000 signed by B. F. Knight, Advocate made a brief talk at the morning session in which he said that of the \$97,-000 recently raised for mission work, fully 90 per cent had been furnished by the west The women held the fort at the afternoon session with their foreign missionary so ciety business.
