My Dear Baifour: I am afraid after what occurred at the cabinet meeting yearspace, it is not possible for me to remain a member of the government with any advantage to myself or to it. I have therefore, to ask you to place my resignation in the hands of the king.

I am in entire sympathy with the desire to unite the mother country and the colonies mure closely, but I know of no method by which preferential treatment can be accorded to the colonies other than that which is advocated by the colonial secretary, namely the taxation of food, which involves as a consequence an increase of taxation. To this policy I am opposed.
