No Pardon for Carleton.

C. C. Carleton of Dodge county, who murdered August Gotham in a fight over a voman nearly ten years ago and who for this crime is now serving a life sentence in the penitentiary, will continue for the present at present address, for Governor Mickey has refused to interfere. The Carleton matter was brought before Governor Mickey last week by an Omaha attorney and friends of the man from Dodge county, and a pardon asked for. The petition presented to the governor with the argument was signed by 1,500 men, among whom was Schator Reynolds, who agreed to employ Carleton should he receive executive clemency. Governor Mickey-read carefully all the evidence in the case and then refused

to interfere. Friends of Carleton asserted that he should not have been prosecuted for a crime greater than manslaughter. Governor Mickey said that even if this was true the man had served only eight and a half years, and for manslaughter the sentence can be ten years. For murder in the second degree the lowest sentence is ten years. Both Governors Poynter and Savage refused the man a pardon. The jury first gave Carleton the death penalty, but this was commuted to life imprisonment by Governor Holcomb. Governor Mickey commended Governor Holcomb's action.

Carleton lived on a farm near Fremont and Gotham and his young wife samped there while traveling through the country Krontz of Norfolk, democrat more and the two went to Schuyler to Pmaha, Neb. get married, Carleton later claiming that he did not know she was Gotham's wife, While Carleton was at his home alone here early next spring. A petition was Gotham went to the house and the two fought, Carleton shooting Gotham in the

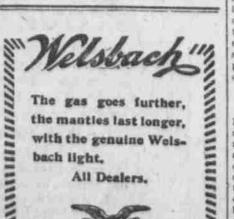

head three times and killing him. Conference on Tabitha Home.

Governor Mickey, Attorney General Prout and members of the State Board of Charlties and Correction tomorrow will have a conference with Rev. Helner, superintendent of the Tabitha home, to see what he intends to do about it and to determine whether to bring those proceedings to annul the charter of the organization. Since the eport of Father Ruesing was published another report has come to the board from members that the condition of the boys at the Wisner farm has been greatly improved, the publication of the report having had a good effect. Now that this report has come in and the head of the home is showing a disposition to take care of the inmates to the best of his ability, it may be that no proceedings will be brought and if brought it is believed that the State board would have hard work establishing its grounds for the annulment of the char-

The main object of the irritation, however, the powers that be believe they will accomplish, that is to have the next legislature enact a law that will require all private institutions of this character to report to the State board the conditions of the inmates and the financial condition like the state institutions are now com- is nearly all on, the tower most finished pelled to do and have their doors open to and both railroad companies have a force aspection at any time the State board of men at work changing the tracks. The may see fit to inspect. This has been the big coal chute of the Northwestern at the dream of the State board since its inception east end of the yards has been finished and Governor Mickey is of the opinion that and is now in use. The Union Pacific will such a law is badly needed and that it rebuild or enlarge its present freight depot, would result in a betterment of the condition of those who are dependent on such homes for their living. He believes also that the agitation will result in the enactment of such a law.

Governor Is Optimistic. Governor Mickey, though a very busy nan these days, is still not too busy to take an interest in the campaign that is ow on. He is very optimistic of republisuccess in the judicial fight, and said

this morning: "I believe there is no doubt in the world but Judge Barnes will be elected supreme judge. I have met men from all parts of the state during the last week, and they bring reports that everywhere it is Barnes and a full republican vote. They tell me that the party is well organized in every district, and I feel sure, basing my belief

Speaking of the First judicial district where the fusionists are claiming to be o sure of suggess. Governor Mickey said: I have no doubt but Reavis will be elected notwithstanding the fight that is being made on him. I have known him a num ber of years and his father before him and both are fine gentlemen and popular

with the people. Reavis is one of the brightest young men in the state, and he has a faculty of getting there and I am sure he will. The circulars that were sent out denouncing him will do more harm to the fusion cause than to Reavis." No dates have yet been set for Governor Mickey to take the stump, and he does not know when he will start out. He has been invited to go to Iowa and Ohio to help out the party in those states, but declined the nvitations because it would require his absence from business at a time when he believed he should be at home.

## Long Pine to Have Light.

Long Pine is to have an electric light and power plant, the power to run which is to come from Long Pine creek, S. H. Kyner, manager for Mrs. Lizzie Kyner, made application to the irrigation board today secure the water. The application calls for forty-five cubic feet a second. It will cost to erect the plant, \$3,000 for the dam, \$5,000 for the machinery and \$2,000 for the building. It is to be completed by April 1, 1906.

Works School Teachers. A book agent down in Cass county has been working the teachers on a library scheme to the extent that the county superintendent, C. S. Wortman, has sent out a circular letter warning them against the man. Mr. Wortman stated that the agent was going around telling the teachers that the county superintendent gives the books his highest endorsement when it fact he had never seen the agent at all and knew nothing of the matter until two

school boards had informed him of the manner of procedure of the agent. According to the warning sent out the agent is selling thirty non-copyrighted books for \$37.50, when the same books could be bought for \$10 or \$15 for forty volumes. The sales are all made upon the alleged recommendation of the county superintendent.

Fence Sixty-Three Miles Long.

CHAMBERLAIN, S. D., Sept. 30 -- (Special.)-A fence is being constructed entirely around the Lower Brule reservation. It will be quite remarkable in the way of fences, being sixty-three miles in length. It will be composed of four wires, placed on posts set a rod apart, cedar and ash posts alternating. In its construction 252 miles of wire will be used, weighing 76,000 pounds, and there will be 19,000 posts. And all along this great fence there will be but three gateways, one on the trail leading from Lower Brule agency to Chamberlain, one on the trail leading from the agency to the White river past Medicine buttes, and the other on the west side of the reservation on Cedar creek. The work is being done entirely by Indians, under the direction of the agency authorities, the Indians receiving \$2.50 per day for man and team and \$1.25 for a man. It is reported that in the spring it is the purpose of the streets between Main and F. AMBASSADOR HERBERT DEAD

British Representative at Washington Passes Away at Swiss Health Resort.

NEWS COMES TO BOUNDARY COMMISSION

Board Created by Treaty He in Part Formed Adjourns Out of Respect and All Pay Tribute to Hls Worth.

LONDON, Sept. 30 .- Sir Michael Herbert, the British ambassador to the United States, died today at Davos-Plats, Switzmembers to take an active and equal part erland, after a long and plucky fight with the older ones in the social responsi- against consumption, which terminated with tragic suddenness. The first anouncement of the ambaseador's untimely from Bret Harte with characteristic good end was received at this afternoon's ses effect. Miss Daisy Dickinson's essay on sion of the Alaskan boundary commission the study of literature was full of sound It was announced by Lord Aiverstone, who logic and well delivered. Miss Nicholi's had jotted down a few sentiments, which

he read as follows:

The members of the tribunal have just learned with the deepest sorrow of the death of Sir Michael Herbert, who, in behalf of Great Britain, negotiated and signed the treaty by which this tribunal was constituted, and under which it is at this moment sitting. I cannot trust myself to express the feeling of grief which this announcement has caused to every member of this tribunal, and to many others who had the great privilege of Herbert's friendship. It is no language exaggeration to say that no man ever brought to the discharge of his duties higher ideals, and few, if any, greater qualifications. His majesty and the British nation have lost a devoted public servant and many of us have lost a cherished personal friend.

Americans Express Sorrow.

In the meanwhile Ambassador Choate had entered. He had just come from Lord Lansdowne's room, where he learned the news. The intense stlence which followed the delivery of Lord Alverstone's tribute was broken by Jacob M. Dickinson of the American counsel, who voiced the American sorrow and proposed an adjournment of the commission. Solicitor General Carson followed and the commission quietly broke up until tomorrow.

Friends of Sir Michael Herbert came hurrying along the Foreign office corridors to ascertain if the news were true. On all sides, American, Canadlan and English, genuine sorrow was exhibited, which was evidently actuated by a sense of deep per-

sonal loss. Sir Michael had been at Davos-Platz about five weeks. When he returned to London from America he confessed that he felt far from well, but his physicians still held hopes of his conquering the consumption. The ambassador expected to leave Davos-Platz a week or so ago in order to greet the Alaskan commissioners here, but contracted bronchitis. Of this he wrote only a few days ago, quite slightingly, saying it was only annoying be cause, on account of it the doctor insisted on his not going to London to see his American friends.

Lady Herbert intended to leave Switzerand a short time ago with her children, but she apparently changed her plans and remained at Davos-Platz.

Secretary Root, Senator Lodge, Senator Turner and former Secretary Foster all expressed regret at the death of the ambassador and paid tribute to his qualities

as a man and a statesman. It was announced tonight from Wilton, Wiltshire, of which the earl of Pembroke, Sir Michael's brother, has been mayor and member of parliament, that the ambassa dor's body will be brought to England and is expected to arrive at Wilton October 3. The news was received there with profound regret and the town council met this afternoon and passed a resolution of

No Surprise in Paris,

PARIS, Sept. 30.-When he received the news of the death of his confrere St Edmun Monson, British ambassador, said that the service had sustained a distinct loss in his death.

Ambassador Herbert's death caused little surprise among his friends here, who were aware of his condition. While in London he was so seriously indisposed as to be unable to accept many courtesies offered him. Though the ambassador must have been informed that he was suffering from a pulmonary complaint, he persisted in regarding his trouble as due to a cold, and so stated early in August to the correspondent of the Associated Press, adding that he believed that he would entirely recover in the bracing atmosphere of Switzerland, and that he intended to return to Washington in the latter part of September. WASHINGTON, Sept. 30 .- The following statement by authority of the president was issued at the White House today: The president is deeply shocked and grieved at the death of Sir Michael Herbert, both because of his personal affection for Sir Michael and because of his high appreciation of him as an official.
