COMMERCIAL AND FINANCIAL

Volume of Trading in Wheat Lorger, with Better Prices Than Recent Days.

CORN RALLIED IN THE LATER HOURS

Outside of the Wheat Pit Grain Prices Were Not Sustained, but Provisions Were Higher on Chicago Board.

CHICAGO, Oct. 1.-With increased trade raily occurred in wheat prices today and seember closed %c higher. December orn was off %c, outs were down 4c, while saturary provisions were from 2%c higher December closed 3c higher. December corn was cff 3c, onto were from 3c, while January provisions were from 3c, while January provisions were from 3c higher to 74c lower.

The volume of trading in wheat was larger than for some time past, with the December option leading in the demand. Opening prices were weak, in sympathy with the lower prices in corn, December being 18f3c to 35c 3cc, at 75cc to 77cc, and during the first hour of the session there was little change in values. Local traders sold freely early in the day and there was some seiling by commission houses, but the inquiry and strength in cash wheat soon became evident, and this helped the future deliveries. Elevator interests were good buyers of December later in the day, and with only light offerings the market became stronger. As the session advanced prices continued to ascend, December selling up to 78cc, the close being at 755,9784c. a gain of 3cc. Clearances of wheat and flour were equal to 48,300 bushels. Primary receipts were 1,618,100 bushels, against 1,385,100 bushels a year ago. Minneapolit and Duluth reported receipts of 640 cars, which with local receipts of 640 cars, which with local receipts of 67 cars—1 of contract grade—made total receipts for the three points of 920 cars, against 715 cars last week and 23 cars a year ago.

The early corn market showed signs of nevere demoralization and for a time there appeared to be no bottom to prices. Hearish crop reports were responsible for the opening weakness. Later a firmer tone developed on buying by prominent commission houses, which brought out considerable covering by shorts, and much of the early loss was regained. A stendler tone prevailed toward the close, and after selling between 45%c and 45%c December closed at 45%q45%c, a loss of only %c for the day. Local receipts were 127 cars.

Provisions held up comparatively well in view of the weakness in corn and a decline of 3cc in the price of hogs. There was no special pressure to sell and there was fair buying of October lard and a good d

age and small interior Santos receipts. For a time it ruled unusually active and very firm in spite of free selling by shorts and importers, but inter eased off slightly. The close was steady at unchanged prices to an advance of 19 points. Sales were 57.00 bags, including October at 4.50c; November, 1.70f4.50c; December, 2.00f5.50c; January, 5.1065.20c; March, 5.20c; May, 5.4565.50c; July, 5.6065.60c; August, 5.60c; September, 5.6665.70c.

Stocks Recovered Vigorously and Sentiment Was More Cheerful.

NEW YORK, Oct. 1.—Stocks recovered vigorously again today, the last price showing advances of 255 points for the principal active stocks. The dealings were highly professional and the movement was not free from suspicion of manipulation. But the effect seemed to be, for some reason, more cheering upon sentiment than the rather forcible lifting of prices on Tuesday. There may have been some buying for support in today's market also, but the great banking interests were not so conspicuous in the dealings. On the other hand, an over-extended short interest was a very important factor in lifting prices. The opening dip in Pennsylvania and New York Central was attributed to bearish manipulation. Louisville seemed to suffer from a liquidation of the account and pressure upon that stock reappeared from time to time during the day. While the demand for stock seemed to come opt at different intervals, as seemed to be shown by the demand last night in the rise in level of prices, it brought no sign of liquidation, which has been so urgent for a long time past. It was this fact that had the most decisive influence upon business. These reached about the same aggregate as those of yesterday. London helped somewhat lowards the advance, the turn of the month there having retarded the money market considerably and led to some investment buying of consols, which had a good recovery.

turn of the month there having retarded the money market considerably and led to some investment buying of consols, which had a good recovery.

The Bank of England statement did not make a strong showing, but the fact that the bank rate was not advanced and the absence of failures which were feared caused a cheerful sentiment. A notable feature of the day was the violent break of about 30 points in demand sterling here, under pressure of very large offerings of commercial bills and dearth of demand.

Large wheat clearances were reported for the day and the completion of the cotton corner led to considerable commission house buying in that market. The establishment of normal conditions in the cotton market is expected to have very important results in the outward movement of the staple, and this led to very free offerings of cotton bills in the exchange market. The early demand for stocks was especially notable among the coalers, which were helped by the strong statement of net earnings for August by the Lehlgh Valley and the admission of E. H. Harriman to the Erie directory.

The expiration of the original period for the United States Steel conversion syndicate and intimations that the bondholder had accepted the action of the syndicate aroused hope that the recent severe pressure on steel bonds by those desirous of retiring from the syndicate would now be relaxed. The offering of specifications by the Pennsylvania company for work on its terminal project had an effect on the United States Steel stocks, as this work involves a large requirement for steel products.

Natural relief was felt that the preparation for the October dividend and interest disbursements have been completed, while the government bond operations are yielding handsome returns to the money market, promising continued exemption from stringency. Even time money was called slightly easier, although not quotably changed, and the western demand for currency seems to be still deferred.

Finited States bonds were bought on an enormous scale up to T

Filted States bonds were bought on an acromous scale up to 71c. Total sales, par vive, \$4.876.000. United States 3s. registred, and the old 4s declined 4 per cent, se 2s 4 per cent and the 2s, coupon, 1 per nt.

*Offered.

NEW YORK, Oct. 1.-COTTON-The mar-

NEW YORK, Oct. 1.—COTTON—The market opened very firm at an advance of 766 bill points on the higher cables and a builtsh crop report, showing a deterioration for the month of 1.8 in the condition of the month of 1.8 in the condition of the month of 1.8 in the condition of the crop. For a time the market, influenced by the fears that the government report on Saturday would show even a worse falling off, ruled very active and firm, with October shorts particularly free buyers. European houses and the south also bought Liberally and the buyers representing the New Orleans built crowd seemed to have forders for January. There was not a little realizing on the advance, however, and shortly after the opening this proved sufficient to case the prices off slightly from the top estimates for tomorrow's receipts at leading points were disappointing, and while the weather had a favorable average the market did not lose its firmness of unat leading points were disappointing, and while the weather had a favorable average the market did not lose its firmness of undertone, being rallied again before midday and selling to a level net 100017 points higher on a further outburst of covering and buying for long account, which was encouraged as it became evident that the exports for the day would reach a much larger level than the receipts at the ports. Later in the afternoon, however, there was a renewal of liquidation and with some bear pressure the market sold well down from the top. The close, was steady net 327 points higher. Sales were 600,000 bales. The spot market was marked down 2.75 points to 10.25 in accordance with the current guotation for the spot month.

prices for them.

The cow market was rather slow and irregular. The quality was common and buyers did not take hold with any great amount of enthusiasm. Good stuff probably would have commanded right around steady prices, but the general run was slow and a little lower than yesterday. The day was well advanced before even the bulk steady prices, but the general run was slow and a little lower than yesterday. The day was well advanced before even the bulk of the arrivals was disposed of.

Bulls, veal calves and stags were also rather slow, but prices did not show any quotable change.

The stocker and feeder market was steady on the best grades, but slow and weak on the common kinds. The demand from the country yesterday was about the best of the season, shout 115 loads having been shipped out. This went a long way toward cleaning up the surplus stock on hand, and consequently the feeling was a little better this morning so far as the good stuff was concerned. When it came to the common kinds, though, salesmen found it hard to get even a bid and the offers they did receive were lower.

get even a bid and the offers they did receive were lower.

The market on the common kinds of western beef steers such as were offered was
slow and weak, but good stuff would undoubtedly have sold readily at steady
prices. Packers have been getting all the
common cattle they could use, and consequently they are not at all anxious for
that class. Range cows were rather slow
and a little lower, excent in the case of
something very good. The best prades of
stockers and feeders held steady, with others slow and weak. Representative sales:

SHEEP AND LAMBS—Receipts, 4.361 head. The market was steady; top Idaho lambs, \$5.00; top Idaho wethers, \$3.65.

2 feeders., 850 3 50 24 feeders., 855 3 50

HOGS—There was a light run of hogs on sale again this morning, but packers continued their bearish factics at all points.

The market here opened very slow and a nickel lower than yesterday's close, or 565 10c lower than yesterday's general market. Trading was extremely slow, for the reason that salesmen were not willing to accept the prices offered. Packers were bidding \$5.55 to \$5.60 for heavies, \$5.60 to \$5.65 for medium and \$5.70 to \$5.82½ for lightweights. The morning, though, was well advanced before much of any business was transacted. The situation, though, kept getting worse as the morning advanced and the close was wery slow and weak, particularly on the heavy hogs, which in some cases sold as much as \$6 lower on the close than they did on the opening. Representative sales!

Dry Goods Market. NEW YORK, Oct. 1.—DRY GOODS—The Jewish holiday has intensified the quiet so much in evidence in the last few weeks in dry goods. Buyers have not felt warranted in placing very many contracts ahead, even though a slightly easier condition is reported on certain lines for future delivery. Where spot goods are required sellers have for the most part back able to secure full asking prices.

REAL ESTATE TRANSFERS. DEEDS filed for record yesterday as fur-nished by the Midland Guarantee and Trust company, bonded abstracter, 1814 day, but the demand was in good shape, and as a result the market held up in very satisfactory manner. Fat stuff in particular sold to good advantage, as the large proportion of the offerings consisted of feeders. The desirable grades of killers could safely be quoted active and steady to strong. Common kinds of course were no more than steady and not as active as the better grades.

There was a very fair demand for feeders, and all the better grades of both sheep and lambs sold without much trouble at steady prices. Common stuff, though, was more or less neglected and in some cases sold a little weaker.

Quotations for grass stock: Choice western lambs, \$1.566.0 fair to good wethers, \$1.566.0 fair to good lambs, \$1.566.0 fair to good wethers, \$1.566.0 fair to good wethers, \$1.566.0 fair to good better lambs, \$1.566.0 fair to good better lambs, \$1.566.0 fair to good better lambs, \$1.566.0 fair to good lambs, \$1.566.0 fair to good better lambs, \$1.566.0 fair to good better lambs, \$1.566.0 fair to good lambs, \$1.566.0 fair to good better lambs, \$1.566.0 fair to good better lambs, \$1.566.0 fair to good wethers, \$1.566.0 fair to good better lambs, \$1.566.0 fair to good lambs, \$1.566.0 fa
