COMMERCIAL AND FINANCIAL

Wheat Shorts Were Driven to Cover by Condition of Weather.

RAINS AFFECT THE PRICE OF CORN

That Grain, with Oats, Showed an Advance, While Selling Brought Down the Price of Pro-

visions Generally.

CHICAGO, Oct. 7.—Wheat shorts were criven to cover today by the rains in the west and northwest. The demand from this source caused a firm undertone, the December option closing the higher. December corn was up %6%c and oats the January products closing from 507%c to the January products closing from 507%c

the January products closing from 50772c
to 30c lower.

Everything considered, wheat prices were strong, due largely to the unfavorable weather throughout the entire wheat belt, although smaller receipts added to the general apprehension among shorts. Opening prices were firm, with December a shade to 460% higher at 774677%c, notwithstanding the rather indifferent tone of cables. With some impravement in the cash demand and on covering by shorts, the price advanced early to 775674c, but later sold off again on prospects of more flavorable conditions, the weather map showing clear skies tomorrow for the west and northwest. The selling pressure was augmented by a private crop estimate of over 704,000,000 bushels for the crop of the current year. Commission houses were over 704,000,000 bushels for the crop of the current year. Commission houses were good buyers late in the day and the mar-ket rallied to about the opening figures, December closing %c higher at 77%67%c. Clearances of wheat and flour were equal to 407,300 bushels. Primary receipts were 928,000 bushels, against 1.088.400 bushels a year ago. Minneapolis and Duluth reported receipts of 407 cars, which, with local re-ceipts of 80 cars, no contract grade, made total receipts for the three points of 547 cars, against 856 cars last week and 838 cars a year ago. cars a year ago.

Corn ruled firm, influenced mainly by the

Cars a year ago.

Corn ruled firm, influenced mainly by the heavy rains throughout the corn belt. There was persistent selling by provision interests, but shorts were active buyers and there was also some demand from scalpers. The best buying was in December, which showed a fair gain, but May was offered freely and lost the early advance. After selling between 44%c44%c, and 45%c. Local receipts were 374 cars, with 63 of contract grade.

Outs were firm along with the strength in other grains. There was some selling early on the big crop estimate, but a fair scattered demand, influenced by the wet weather and smaller receipts, prevented any decline, and the close was at slightly higher figures. December being up 16c at 35%c. Local receipts were 145 cars.

Loss of confidence among outside holders of provisions was bear impression in form of general liquidation of long property. The selling was heaviest in October lard and ribs, which showed losses of 15c and 55c, respectively. Packers apparently made no effort to support the market. The close was was, with January pork down 20c at \$12.15; January lard off 10c at \$5.72%, while ribs were \$577%c lower at \$6.47%gr800.

Estimated receipts for tomorrow: Wheat, 100 cars; corn, 310 cars; oats, 125 cars; hogs, 29,000 head.

The leading futures ranged as follows:

at parity, but the transactions were few. They arterwards improved. Atchison, Topeka & Santa Fe and Union Pacific were the strongest. There were some declines during the last hour and stocks closed weak, notably United States Steel Kaffras recovered on the cessation of liquidation. United States Steel was flat on heavy continental selling, attributed to a reported fallure in Holland. The amount of bullion taken into the Bank of England on balance today was £165,00.

PARIS, Oct. 7.—Three per cent rates 96f, 70c for the account. There was an improved tone on the bourse today owing to London advices. Rentes and internationals were active with an upward tendency. Rio Tintos made gains of eight franca as a result of the dividend. At the close the market was calm.

BERLIN, Oct. 7.—Prices on the bourse today generally were firm.

NEW YORK STOCKS AND BONDS.

Interest Centers Around United States Steel, with Many In Doubt. NEW YORK, Oct. 7—The stock market moved in a rather bewildered way today, but the dealings presented little more than a groping of professional traders to ascertain the sentiment of the real holders of stocks. The reduction in the steel dividend hrought in some selling orders, but they were all accepted, at first, by one house which was credited with acting for banking interests connected with the corporation. Support was accorded to this stock, especially the preferred, during the rest of the day and the personality of the stock, especially the preferred, during the rest of the day and the personality of the stock shed come back to the hands that were entrusted with the first floation. The common stock was forced down over a point at one time, and the general list was heavy after the opening firmness. The marked weakness of Amalsamated Copper whose loss was more than marked weakness of Amalsamated Copper whose loss was more than the same forced in the general list of the fact that is an industrial on a 2 per cent divident basis it was too high compared with United States steel, now on the same hasis. But the inferences drawn from the movement of the stock as to the market attitude of the large capitalists controlling this corporation were of much more effect on sentiment than any divident comparisons. The accompanying weakness of 8t. Paul gave emphasis to this yiew of the market attitude of the Standard oil party, and made the contrast stronger with the support in evidence for a number of the Morgan stocks, including the steels. Eric was also notably firm, notwithstanding the depression amongst the conlers as a group. Assertions were heard that the coming cold weather demand offers little prospect of an absorption of the accumulation of anthractic. Eric had the advantage of its excellent annual report of Louisville & New York Central, helped to reinforce confidence as to the general railroad situation. The late strength in Atchison seemed to be based upon the declaration of the regular profession of the extent

bles, smaller interior receipts, renewed covering and a further demand from outside sources. Later, the advancing tendency was accelerated by cables from Brazil, stating that the receipts had not been heavy enough or sufficiently general to greatly relieve the crop situation, and prices responding to this were advanced to a level net of 15 to 20 points higher, and closed steady on that basis. Sales were 76.750 bags, including October at 4.60c, November, 4.5564.75c; December, 4.80d5.00c; January, 4.5665.55c; February, 5.10c; March, 5.6595.29c; May, 5.20g5.35c; July, 5.40g5.45c; September, 5.56g5.60c.

Cotton Market.

Cotton Market.

NEW YORK, Oct. 7.—The cotton market opened firm with an advance of 1910 points on the better cables than expected and expectations of less favorable weather, including lower temperatures in Texas, accompanied by rains, After the call some of the months showed a little further gain, but the receipts for the day were heavy and there was 2000 a renewal of bear pressure that cased off to within a few points of yesterday's finals. Reports were being circulated, however, that spinners had been attracted into the market at the decline and private advices indicated a steadier tone in the southern markets. In addition to this, it was argued that the decline had been rather more rapid than the condition of the crop as reported warranted, and that a considerable short interest had undoubtedly been accumulated that might sooner or later turn for profits. At any rate, the declining tendency was of but short duration and prices before midday were working upward with several prominent interests heavy buyers. The advance was encouraged by rather lighter estimates for tomorrow's receipts at leading points and further unfavorable advices respecting the crop buil room turned for profits, a net gain from 17 to 29 points, and the market in the early forenoon eased several points from the best. It was rallied again before the close by more or less general covering led by houses with southern connections, and closed steady II to 18 points higher. Sales were estimated at 500,000 bales.

NEW ORLEANS, Oct. 7.—COTTON—Futures steady: October, 8.09410c; November, 9.10912c; December, 9.1269.25c; March, 9.236; 25d; good middling, 1.084; middling, 5.784; ordinary, 4.94. NEW YORK, Oct. 7.—EVAPORATED
APPLES—The market is quiet. Small jobbing sales of old apples are reported at
former prices, but new fruit shows unattractive quality and rules neglected. Common are quoted at 4050: prime, 54,654c;
choice, 66,654c; fancy, 54,676.

DRIED FRUITS—Spot prunes are firm,
with coast advices indicating bullish views
among holders. Quotations range from
34c to 7c for all grades. Apricots also are
firm, with choice quoted at 34,634c; extra
choice at \$4,6164c, and fancy at 104,611.
Peaches are quiet at 74,6174c for choice;
74,684c for extra choice, and \$4,6104c for
1 bull.

Dry Goods Market. DFY Goods Market.

NEW YORK, Oct. 7.—DRY GOODS—
Buying in dry goods either for spot or for future delivery is limited to the most conservative proportions, although the cotton market now and again gives little warrant for buyers securing lower prices yet awhile, yet here and there goods are easier to buy without producing any increase of trade. Jobbers store trade, both locally and throughout the country, is in over modest proportions.

Omaha Man in Bad Plight.

STURGIS, S. D., Oct. 7 .- (Special.) - A man got off the train here Monday and wandered around the city for awhile when he was taken in by Sheriff Brown. He appears to be insane. A book in his pocket gives his name as F. H. Gwynne of Omaha. It also appears that he is connected with a telephone company there. It is said that Gwynne had purchased a ticket to Hot Springs and upon his arrival there would not get off, but came to this city and would not go any further.

A Death Blow to Malaria. Electric Bitters kill and expel malaria lisease germs, will prevent typhoid and cure fever and ague, or no pay. Only 50c. For sale by Kuhn & Co.
