Marconi received a wireless message

POLITICAL DRIFT.

General Shafter is talked of for mayor of San Francisco. The town is weary of lightweights.

Tammany's candidate for mayor is to make campaign speeches in four languages and shake with both hands.

David Bennett Hill is shrewd enough to refrain from cutting into the political con ersation in New York City.

How happy the indicted postal officials would be if their troubles were subject to eview by the Missouri supreme court.

With congress soon to meet and a score of state legislatures to follow it seems superfluous to organize a \$3,000,000 talking machine trust.

"Golden Rule" Jones of Toledo says "ringing up fares in a street car is degrad-ing to the soul." Doubtless the mayor flashes a pass to save the conductor's feelings.

Republican spellbinders need not bother bout home made protection statistics next year. Great Britlan's free trade relapse furnishes an abundance of the real thing.

Preliminary music of the New York City campaign promise a spirited concert when the musicians are thoroughly tuned up. It will make the concert of Europe sound like Hlawatha on a barrel organ.

Governor Richard Yates of Illinois has formally announced his candidacy for reelection in a speech before the Morgan county republican convention, and the county convention adopted resolutions of indorsemet.

The Hon. Isldor Rayner, attorney general of Maryland and of Admiral Schley's counsel, has formally declared himself to be a candidate for the democratic nomination for United States senator before the next state legislature.

Optimistic democrats count on Connecti cut coming back into the democratic col-

umn next year. The republicans carried 124 towns and the democrats thirty-seven production will have been restricted 1,209,- at the local election last Monday. There isn't much in these figures to warrant democratic hopefulness.

There is some foundation for Mayor Harison's assertion that graft prevails in Chicago politics. One energetic officeholder charged with the duty of chopping down weeds on the highways in town managed to put in a bill for \$31,000 for three months' work. The uplift of Charley Schwab is threatened with eclipse,

IS IT A TURN OF THE TIDE?

Reasons Why the Question is Annwered in the Negative.

Boston Transcript.

Discussion of the stock market outlook enters on the prospects of general business, more particularly on presumable demand for staple commodities next year. Conceding that the violence of extreme iquidation has passed, that the penalty for the 1901-1902 saturnalia of promoting, comsining and exploiting of prosperity has been paid, the position simplifies to this: The decline in stocks in the last thirteen months represents a shrinkage in market or selling value of the public securities of the country so great as to extinguish fully two-thirds if not more of the extreme gain which followed the first election of President Mckinley. That is, starting from a panic basis back in 1896, It is computed that security values advanced about \$4,500.-000 in the asgregate of their public market or selling value, while the reaction that began in September, 1902, and which has continued to date, means a shrinkage of fully

Of course such an estimate is no better keeps in touch with market movements knows that the decline of the last thirteen months have been as drastic as were the advances of the preceding four years.

coats made very good marks, the skirmish-

ers appearing like iong, dark stripes. Khaki

France has a new penitentiary at Fresnes

The vandal who cut the British flag to ribbons in the City Hall park at New York doubtless thought the colors would be more effective in ribbon form.

The woman suffragists have been discussing what they should ask from the next Nebraska legislature. Our advice would be to ask for considerably more treaty between this country and China, than they expect to get.

Isn't it a triffe inconsistent for a Nebraska World's fair commissioner to be booming Nebraska's resources at St. portance in its bearing upon the future Louis and at the same time planting trade relations between the two councolonies up in Canadian Winnipeg?

The orderly character of the street crowds in attendance on the carnival States secures some valuable concesdeserves at least passing attention. In no other large city could the people congregate in such numbers and behave themselves better.

Arguments on the Alaskan boundary dispute have been concluded before the arbitration commission. If it takes as long for the commissioners to ruminate as it did for the counsel to orate, we need be in no hurry to look for the announcement of the decision.

That the managers of the St. Louis exposition have money to burn is again strikingly illustrated by the announcement that 35,000 Dutch tulip bulbs have been imported from Holland at a cost of \$35,000 for the horticultural exhibit on the exposition grounds. At \$1 apiece these builds are dog cheap. Two hundred years ago, during the historic tulip mania, they would have found a ready market in Holland at from \$50 to \$500 apiece.

The World-Herald is very much wrought up over that Vinsonhaler pledge, but not a word about the Vinsonhaler graft by farming out of trust funds for private gain, or the retention other country. The policy of our govof fees which by law are required to be turned over into the county treasury. This is perfectly natural, however, as the editor of the fusion reform organ has since his birth been afflicted with a cataract that has blinded his eyes to the misdeeds of public treasury embez. is highly gratifying. zlers and speculators in trust funds.

the decision of the boundary tribunal may be, it will not have the slightest influence upon the question of trade relations between Canada and the United men doubtless realize that the owners States.

jority of them. Whatever, therefore,

THE TREATY WITH CHINA. The signing of a new commercial their way clear to secure fair interest as to which there has been no little anxiety for a considerable time, due chiefly to Russian interference, is a matter of considerable interest and imtries. By the terms of this convention, the final ratification of which may be assumed to be assured, the United sions, among them the opening of new

ports and the right to carry on trade, industries and manufactures in all parts of China.

While there may not be immediately shown any very marked results from these concessions, it may confidently be anticipated that at no very remote time American trade will begin to realize a material benefit from them. Our government has been especially urgent in asking the opening of two ports in Manchuria and the fact that it has been able to overcome in this matter the objection of Russia is a victory of a very decisive character. It is perhaps need less to say that in this our government has not labored selfishly, but in the interest of all the commercial nations. We have obtained in this no special privilege or opportunity, for in the opening of the new ports every

other country will be given an equal chance with ourselves to secure Manchurian trade. In some other respects the treaty of course contains special concessions to this country, these being of a character, however, which does not in the least discriminate against any ernment in the negotiations has been to ask for nothing that was not entirely fair and just and in the interest

of stronger ties of friendship between the two countries, and its success against somewhat formidable obstacles

Ex-Councilman Hascall read a paper There seems now to be nothing what before the National Association of Musoever in the way of the ratification of incipal Reformers on the vital points in municipal government. Mr. this treaty. That it will be accepted by call's extensive experience would doubtthe United States sonate may be regarded as certain and it appears equally less suggest that the most vital point in rence of floods in Kansas and Missouri safe to say that it will encounter no municipal government is to keep a sharp lookout for court bailiffs bearing opposition elsewhere. The only obrestrain the council from doing mallcious mischief and to keep the council mistake of that position and abandoned chamber doors closed against taxpayers municipal assessments.
