CRAIN AND PRODUCE MARKET

Wheat Gains Half a Cent in Price on Good Demand.

COMN PRICES HAVE A NARROW RANGE

Auotations for December Corn a Little Higher, with Oats Following in Sympathy-Market for Provisions Firm.

CHICAGO, Oct. Si.—Small contract stocks and a good shipping demand were influences that created an urgent demand for December wheat today and prices in that pit ruied grong, December closing with a gain of 4c. December corn and oats were each a shade higher, while January provisions closed from 196134c higher.

There was a better trade in wheat than for some time past and after an easier opening the market turned strong and prices were well maintained throughout the day. The opening was a trifle lower on easier cables, favorable weather and larger receipts in the northwest, December and larger receipts in the northwest, December and larger receipts in the northwest, December and larger receipts of December and with traders showing a disposition to hold on to that month the market quickly turned strong, and the price advanced to Sic within the first hour. May was influenced by the strength in the nearby delivery and showed a fair advance. Heavy clearances were a built factor late in the acasion. Just before the close some of the advance was lost on realising, but the close was strong, with December 4c higher at 80%c. Clearances of wheat and flour were equal to 850,000 bushels. Primary receipts were 1,22,000 bushels. Against 1,530,000 bushels a year ago. Minneapolis and Duluth reported receipts of 85 cars, mone of contract grade, made total receipts for the three points of 1,652 cars, against 1,530,000 bushels a year ago of strength the corn market also became firmer. Trading, however, was light and prices kept within a narrow range. December closed a shade higher at 86,40 cars, which when the small improvement in the shipping demand. Trading was dull the entire session. December ranged beiween 25%c and 30%c, closing a shade higher at 35%c. Local receipts were 250 cars, at the start along with the weakness in other grains, but the strength in wheat soon checked this selling desire, prices remaining practically stationary. Receipts were 450 cars, with 6s of contract grade.

There was a little selling pressure in o

While ribs were 12% better at \$6.40

Estimated receipts for Monday: Wheat, 166 cars; corn, 115 cars; oats, 240 cars; hogs, 71,000 head.

cattle showing quality, and as a result common stuff is very hard to move at any price.

The trade on western grass beef steers in the trade on western grass beef steers in the been in fairly good shape, as the best grades, such as sell from \$3.90 to \$4.50, are about steady. The medium and commoner grades, though, are undoubtedly a little lower. Preity decent cattle are now selling from \$3.15 to \$3.60, with common surfers and feeders are selling as noted above.

High this morning and the market opened about a nickel higher. Packers, though, did not seem to be anxious for the hogs at the prices asked. After the first reund or two they shut down and only offered about steady prices with yesterday. The bulk of the heavy hogs soid from \$4.50 to \$4.50, medium weights from \$4.50 to \$4.50, medium weights from \$4.50 to \$4.50. The same as has been the case for some time past the trains were very slow in arriving and the close was sow and weak.

The receipts of hogs this week have been heavier than they were last week, but are about \$6.000 head short of the same week of last year. Por the month of October from the above table. The tendency of prices has been downward this week and the low point of the year has been reached.

The receipts of bogs this week have been from the above table the week have been from the above table the week of last year. It is sufficiently the same month of last year as will be seen from the above table the week and the low point of the year has been reached.

The receipts has been downward this week and the low point of the year has been reached.

last week and a trifle heavier than for the corresponding week of last year. For the month of October there is an increase over the same month of last year amounting to more than 16,000 head. The receipts for October of last year were the largest on the corresponding to this time, which means that another record has been broken this year by a vide margin.

Conr derling the heavy supplies the market has been in very satisfactory condition. Packers have bought up the fat stuff in good shape all the month, so that very few shipments were forwarded or carried over from day to day. As compared with the close of last week the best grades of fat sheep and lambs are around a dime lower, with some of the less desirable grades perhaps a little more. Quite a rew lambs that a short time ago were selling for feeders went to killers this week at prices that looked considerably lower, but of course they were lacking in quality.

Feeder wethers and yearlings of desirable quality are steady for the week, with the demand fully equal to the supply. LONDON, Oct., 21—Money was in keen demand in the market today. Discounts were firm, owing to the weakness of New York exchange and fears of early exports of gold to the United States. On this point the Statist observer: "The crinion is held that the amount of gold taken hence will be moderate." On the stock exchange the attendance was meager. Think operators taking advantage of the state of t that the amount of gold taken hence will be moderate. On the stock exchange the attendance was measure, ranny operators taking advantage of the fine weather to leave town. Business was stagnant and irregular. Consols were irregular. Americans opened dull on the reported impending strike of iron workers and in expectation of a poor New York bank statement. In some instances there was an improvement, but the market closed lifeless. The fallure was announced of H. E. Phillips. a small jobber in Americans. Buillon amounting to £150,000 was withdrawn from the Bank of England today, £100,000 to South America.

PARIS, Oct. 31—Trading on the bearse today was hesitating but caim and closed inactive with prices fairly strong. The private rate of discount was £ 12-15 per cent. Three per cent rentes, 576 55c for the account. Exchange on London, 251 1446 for checks.

Man and Dog's Owner Look.

A feud which bids fair to rival some of the historic affairs of old Kentucky and which has already resulted in two deaths is now raging in the vicinity of Twenty-fifth and Leavenworth streets. J. I. Kemp who runs a feed store near that corner slayed the last victim yesterday afternoon Kemp owned a pet lamb which he kept in his barn. Having occasion to visit the barn yesterday afternoon he discovered the lamb lying dead upon the floor and a large buildog in the act of devouring it. Without waiting to consider the consequences Kemp produced his pocket knife and slashed a large gash in the throat of the canine, which caused its death in about

two minutes. A short time later there appeared upon the scene of Kemp's mercantile operations one McDonald, an expressman, who as-serted in loud and threatening language that he was the owner of the dog Kemp killed. He asked for satisfaction for the death of his constant companion, the dog, Kemp told him firmly, but politely, that he considered the score even.

The expressman departed without taking any immediate steps to vent his anger otherwise than in conversation. He went to some of the friends of Kemp after his departure and told them that he was making preparations to get even for the death of his dog and intimated that they had better warn the owner of the lost sheep that when he did get even it would be good and even. As McDonald has a neighborhood reputation as a slugger of no mean ability and on several occasions has attempted to whip the entire police force of Omaha with more or less success, Kemp called up the police station last night and remarked over the telephone to Desk Sergeant Havey that he would prefer that the police not hold him responsible for anything he might do in case McDonald attempted to put his effusive threats into execution. The police are now anxiously awaiting developments, which they expect to materialize with this morning's sun.

WILL SMELT REHAN STATUE One of the Features of the Chicago World's Fair Reaches Its End.

The silver statue of Ada Rehan, which formed part of the Montana exhibit at 8 the Chicago World's fair, arrived in this city Saturday morning by Wells-Fargo express from the Barnum Dry Goods company of Topeka, and will be reduced to 1 silver and alloy Monday by the smelter. The statue is a beautiful figure of Miss Rehan in the pose of justice with sword and scales. The figure is six feet high and stands on a globe which surmounted an eagle with seven feet spread of wings the whole work being about eight feet high. The statue will weigh over 650 pounds and is the bullion will be worth approximately \$5,000. The silver is of coin fineness or about one-tenth alloy. The smelter people will break up this statue Monday and in a few days ship the remains. The statue when first exhibited was the

object of much admiration and received 1,126,806 26 1,118,832 31 a fictitious value mounting up to \$100,000. 1,384,836 15 After the close of the fair a company was a fictitious value mounting up to \$100,000. formed to exhibit the silver Rehan and did so for some time, showing her in Omaha and elsewhere. A dispute arose between NEW YORK, Oct. 21.—Total imports of the stockholders and the manager, and try goods and general merchandise at New about seven years ago Samuel Barnum of Tork for the week were valued at \$123.— Topeka was appointed receiver, and ever since it has with the exception of two short appearances reposed in the basement of the dry goods store. The stockholders Enally coming to an agreement, a representative of the smeiter went to Topeka during the summer and arranged for the plied. Relieves pain instantly and heals by the summer time.
