ensy.

The closing quotations on bonds are as follows:

General Liquidation of Wheat Holdings Caused Further Decline in Price.

CORN PRICES ARE SOMEWHAT HIGHER

Oats Advanced in Sympathy, with Corn at About the Same Range, While Produce Market Was Irregular,

CHICAGO, Nov. 5.—General liquidation of December wheat was again a feature today and caused further decline in values, the close being 160% lower. December corn was up 3.6% c, oats were %c higher and January provisions were from 7.5% loc lower to 10c higher.

There was a renewal of the selling pressure in December wheat which has characterized trading the last few days at the start, and during the opening hour that delivery declined to a point below what May was selling at. News was again decidedly bearish before the opening, cables being generally weak, receipts larger and weather favorable, and many traders seemed inclined to dispose of their holdings. December closed with a loss of \$4.50 at 78.46.75%c. Clearances of wheat and flour were equal to 165,000 bushels. Primary receipts were 1.43, 100 bushels, against 1,33,200 a year ago. Minneapolis, Chicage and Duluth reported receipts of 1,1% cars, against 912 cars last week and 903 a year ago.

Complaints from reliable sources continued to come in regarding the poor condition of the corn crop, and with general rommission house demand the sentiment was quite buillish. Enying by provision interests was a feature in trading. Selling was of light volume and principally by small traders. The Ohlo report showing a loss in condition of 14 points compared with last year, was one of the chief buil factors, sithough firm cables helped in the upturn. After selling between 43%c and 44%c December closed at 44%c, a gain of \$6.0% to a corn. Loval shorts covered to corn.

cember closed at 44%C. A gain of 78079C.
Local receipts were 228 cars, with 24 of contract grade.

Onts ruled firm in sympathy with the strength in corn. Local shorts covered freely and these was fair buying by commission houses, but offerings were rather light. December ranged between 25c and 25%C at 36c, closing with a gain of %c at 35%C at 36c, closing with a gain of %c at Lard was the strongest item in the provision market and showed a fair advance oh a good demand from shorts, but other products were easier. Smaller receipts of hogs and an advance of from 5c to 10c in prices at the yards was a strengthening influence. January pork closed 7%Gioc lower at \$12.17%, January lard was up 10c at \$5.95, while riks were a shade higher at \$6.35.

Estimated receipts for tomorrow: Wheat, 195 cars; corn, 250 cars; oats, 170 cars; hogs, 12.000 head.

The leading futures ranged as follows:

Cotton Market.

Cotton Market.

NEW YORK, Nov. 5.—COTTON—The cotton market opened at a decline of 5 points to an advance of 7 points under the conflicting influences of lower cables. On the call there was no particular activity, but for the first half hour or so afterward the market was more wildly excited and active than at any time since the days of the old buil campaign. Before the first rush of buying had subsided December was selling at 10.33c, January at 10.30c, representing a net gain since the close of yesterday of 25 to 30 points, while the advance since the low point of last Monday was a matter of about \$300 a trading contract. Such a profit as this could not but prove attractive and there was heavy realizing on the higher level. The market was finally steady, with the total sales estimated at 1,500,000 bales, this being a day's business, but once equalled in the history of the exchange.

NEW ORLEANS. Nov. 5.—COTTON—Steady; sales, 4,500 bales; ordinary, 7,11-15c; good ordinary, 5c; low middling, 10%c; middling, 10%c; June, 10.502 10.82c; July, 10.80c.

very few corn-fed steers were effered and the most of those that did arrive were of the short-fed variety. It would be safe to quote well finished stuff fully steady and in brisk demand, but the short-fed stuff dragged, the same as usual, but was generally steady with yesterday.

The cow market was not a great deal different from yesterday. The more desirable grades changed hands quite freely at steady to strong prices, but when it came to the commoner kinds the market was slow and certainly no more than steady. It was rather an uneven market all around, so that some sales looked considerably better than others.

Bulls, veal calves and stags did not show enough change to be worthy of mention.

There were not very many stockers and feeders in the receipts this morning, but the demand from the country this week has not been very heavy, so there were enough fresh arrivals to meet the requirements of the trade. The good to choice grades of all weights sold readily at fully steady prices, and, in fact, some sales looked a little stronger. The common to grades of all weights sold readily at fully steady prices, and, in fact, some sales looked a little stronger. The common to medium grades, though, sold at rather uneven prices, but were generally steady. Anything at all desirable in the way of western grass beef steers sold freely at steady to strong prices. P.ckers, though, were not liberal buyers of the commoner kinds, and as a result that class of stock was slow sale and no more than steady. Range cows were strong if of good quality and no more than steady if common. Stockers and feeders were just about steady. Representative sales:

BEEF STEERS.

No. Av. Pr. No. Av. Pr.

cows.

greatest decline. Trading was not very active, as salesmen were slow to take the decline and packers did not bid at all freely. Heavy weights soid mostly from \$4.50 to \$4.70, medium weights from \$4.70 to \$4.75, and light weights went all the way from \$4.80 to \$4.85. The top price was paid for a load of prime light weights.

Later in the morning it became evident that there was scarce enough hogs in sight to fill packers' orders and, as a result, the market strengthened a little on the lightest weights. The big, heavy hogs showed little or no improvement. Representative sales:

No. Av. Sh. Pr. No. Av. Sh. Pr.

Good feeders also sold at right close to steady prices, but the general run were slow and weak. That was particularly true of ewes and lambs.

Something Uneful Recently Patented and Attracting Much Attention.

NEW STOVE INVENTION.

A new and useful stove invention has been recently patented. It consists of a smokeless, sootless, odorless stove for soft coal and lignite, which is now in practical operation, perfected in every detail. If itllizes every particle of the energy of the fuel by consuming both the smoke and gases. Contrary to the ideas of many people, the stove is simple in construction, while the price is extremely low, and wher the fact that the cost of coal is no very much lower for this stove than for operating a hard coal burner, the advantage or this fuel-saving device can be readily seen The stove can be supplied with coal at a

Without doubt this is one of the most economical stoves ever invented, not only by virtue of its consuming both the smoke and gas, but because the very poorest and cheapest of coal can be used with entire satisfaction. It is also self-feeding, and will keep fire for forty-eight hours. With the exception of a very fine ash, resembling that of a cigar, there is no refuse, as the fuel is being coked during the consuming of the gas.

The mica front is illuminated by a sheet of flame, giving a cheerful and comfortable appearance, while the stove is equipped with a double heating device, by which means an upstairs room may be nicely heated, much after the order of a furnace. The stove in operation is attracting much attention, and practical stove men say that it is all the name implies.

Mr. Mat R. Bingham, a special representative of the Garland Stove Co., will show the stove in actual use at Milton Rogers & Sons Co. throughout the balance of the week.

The stove is called the Wonder Garland and its operation is guaranteed in every, a respect.

Red Hot from the Gun Was the ball that caused horrible ulcers on G. B. Steadman, Newark, Mich., Bucklen's Arnica Salve soon cured him. 35c. For sale by Kuhn & Co.

John Kellogg was slashed across the left cheek at 5 yesterday morning with a razor in the hands of a negro he did not know. Kellogg was in a resort at 917 Capitol avenue, he told the police, when he was attracted to the door by a loud rapping. He threw the door wide open and saw two negroes standing on the steps. Without warning one of the two pulled a razor from an inside pocket and before he could get out of the way had slashed his cheek. His assailants then run up the street and he did not catch them. Kellogg is a waiter at the Mullen theater. He was removed to the Oxford hotel, where he rooms.

Young Man Charged with Arson.

NEW YORK, Nov. 5.—Helmer Duncan, secretary of a firm of nursery men at Flushing. L. I., has been arrested on charges of arson and burglary. Duncan's father is said to have been one of the characters is, "Innocents Abroad," and the young man moved in the best society. His arrest grew out of a fire in the company's offices, when ledgers and many valuable papers, which had been piled up in the middle of the room and soaked with keresene, were fired.
