DOESN'T KNOW IF HABIT IS GROWING

Tolla National Leaders at Cincinnati Convention that Even if it is, There Remains Much to Rejolce Over.

CENCINNATI, Nov. 13.-The thirteenth annual convention of the Woman's Chrissix days here today with a very large attendance, the 500 delegates constituting only a small part of the visitors. At 8:30 a. m. prayer meetings and conferences were held. Mrs. J. J. Trego, national evangelist, was the leader of the opening devotional exer-

The purity conference, of which Mrs. Helen L. Bullock was leader, was addressed by Mrs. C. E. Hunt of Illinois and others. The Tenth Street Baptist church was crowded when President Stevens called the convention to order at 9:30 a. m. Following the crusade psa'm and the crusade hymn, prayer was offered by Dr. William J. Mc-Surly of Oxford. After the roll call by Mrs. Clara C. Hoffman of Missouri the reports of the executive and other committees were presented. Addresses of welcome and responses were made and telegrams and letters read. Then Mrs. Lillian N. M. Stevens of Portland, Me., national president, delivered her address, reviewing the victories and the defeats of the year, and touching, with some apparent reluctance, the problam of a spread of the wine-drinking habit among women

President Stevens Undaunted. President Lillian Stevens said in part; In every civilized country the temperance question is receiving more or less attention. The influence of the Woman's Christian Temperance union is acknowledged throughout the world.

We realize that in England the "rowing against the tide" is exceedingly hard, but the temperance people are rowing as never before. Even in England there are some encouraging features in connection with the temperance reform. Steps are being

encouraging features in connection with the temperance reform. Steps are being

taken with good prospects of success to induce Parliament to abolish barmaids, 80,000 of whom are employed in the British Isless. A few years ago such a movement was considered inexpedient, but today it is considered inexpedient, but today it is considered expedient because it is right. In our own country naturally enough there comes first to our minds the overthrow of the prohibitory law in. Vermont and New Hampshire. This disaster came about by a combination of political trickery, the unstinted work of the liquor frafornity of the country, and the deceived and bewildered condition of some of the voters of these states. One of the pamphlets circulated by the liquor bureau was. The Theory of Frontbition, by a minister. It is a blighting shame that asvone professing to be a minister of the gospel of our Lord and Savior should formulate a "theory" which could be used by the liquor interests of the country to promote its diabolical trade.

Faithful work has been done making

Faithful work has been done making sentiment in favor of an anti-polygamy amendment to the constitution of the United States. Minneapolis Mayor an Example.

Minneapolis Mayor an Example.

The Woman's Christian Temperance union is today, and it true to his heritage will ever be, arrayed against all forms of impurity and legalized vice. We paiafully recognize that there are some evia that cannot be annihiliated in this day and generation, but we evermore declare that these evils, if they exist, shall do so in opposition to law rather than by sanction of law. The record of the attempt made two years ago by the mayor of Maneapolis to introduce a system of regulated vice should be a warning to others not to lry to do likewise. The best element of the American people will always if need be unite in a protest as loud and as long as that which resulted in the issuance of the order from the War department, with instructions concerning its carrying out, which practically abolished the system of legalized and licensed vice which had existed for a time in the far-away Philippines.

The increasing interest in the child labor problem, the establishment of juvenile courts, the organized work for the newsboys are all indications that the spirit of Him who blessed the children is flowing out through human instrumentalities to defend the weak and bless the innocent.

Concerning Women Who Drink. The question, "Is liquor drinking among women increasing?" is hard to answer. We women increasing?" is hard to answer. We surely hear more about drinking women than formerly, perhaps from the fact that the drinking habit attracts more attention than it did in the days when nearly everyone used liquor in one form or another. Speaking of intemperance among women, and that much of it comes through the use of alcohol in medicine. Sir Thomas Barlow, physician to the ains of England, is reported to have said; "The only remedy for the evil is total abstinence; haif and half measures are use, ess; we must banish alcohol entirely."

since nothing can arrest the progress of a true principle on its way to the heart of intelligent people, it would be strange if we could not declare, as we can, that the ques-

As temperance women we desire the right of franchise, because we believe we could, thus armed, deal more effectually with the liquor problem, and the lact that the liquor element is always opposed to woman's suffrage furnishes ample proof that we are right in our belief. Those who think that women should have equal opportunity with men'in the medical field have reason to rejoice as little by little the barriers built up by custom, prejudice and superstition are being awept away. Those who believe in woman's equality in the church may rejoice, as one woman after another is being elected as a delegate to the generar conference of the Methodist church, with no possibility of her being turned away because she is a woman. Those who believe in the equality of women in governmental affairs may well rejoice as they read the statements of fair-minded men rying in those communities and states where the ballot with all its responsibility has been granted to women. These are but a few of the encouraging prophecies of that better time toward which Christian civilization is leading. As temperance women we desire the right Ways and Means Committee of Rouse

iending.

The National Woman's Christian Temperance union must be in hearty accord with the movement made by the American Peace society for a stated international congress to meet once in every five or seven years to deliberate upon matters of common interest to the nations and make recommendations to the governments.

Report of Officers. The report of Mrs. Susanna M. D. Fry,

the corresponding secretary, contained the

The national organizers report 322 unions organized, with 9,547 members. This does not include the work of the state or local organizers. The receipts of the Williard memorial fund were 14,128. A larger number of Women's Christian Temperance union instutes were held during the past year than ever before. Eleven states have made a gain of 506 or over new members above all losses, and some of them well on toward 1,000 new members, which goes to prove that the Women's Christian Temperance union is marching on with a regular and measured swing. Thirty-five other states report an increase of membership. The report of Mrs. Helen M. Barker, the treasurer, showed the gain in membership for the year was 6,964. The total receipts

the balance on hand being \$778. On account of "much talking in the audi ence" it became necessary to appoint a sergeant-at-arms. Mrs. Forbes of Connecticut was appointed jointly with Mrs. Demerest of New Jersey, but the work of preserving order was finally left to the latter with authority to appoint assistants.

were \$26,177 and the expenditures \$25,339,

On motion of Mrs. Marie C. Brenn of Chicago the American flag was adopted for the official salute instead of "unhygienic use of handkerchiefs," and a committee was appointed to secure the flag.

Addresses were made by Dr. W. F. Crafts of Washington, Miss Emma Alexander, editor of the Union Signal, and others. Mrs Helen G. Rice, in reporting as general secretary of the Loyal Temperance Legion, ntroduced prominent workers from different states to show what was being done by that branch. Tonight welcome addresses were delivered

by representatives of the civil government, local churches, state and local branches of the Women's Christian Temperance union and other organizations, with responses by Mrs. Stevens of Maine, Mrs. C. H. Howe of Missouri and others. An overflow meeting was conducted in another church by Rev. Anna Shaw of Pennsyl-

Makes Report as to Bill. TWO DEMOCRATS OPPOSE THE REPORT

Representative Dick Introduces Bill Providing for Commission to Investigate Election Laws of

Various States.

WASHINGTON, Nov. 13 .- When the house met today Mr. Payne (N. Y.), chairman of the committee on ways and means, reported the Cuban bill and gave notice that on Monday he would call it up for minority of the ways and means committee was given further time in which to submit

a minority report. Mr. Payne stated that the agreement with the minerity was that the Cuban bill be considered until 4 p. m. Thursday, when a vote will be taken.

Immediately after the reading of the journal Mr. Livernash (Cal.) arose to a question of personal privilege. Reading from manuscript, he began by saying: Indications are that in the Panama-Colombia matter the president is invading a constitutional prerogative of the congress, and it seems of high importance to the dignity and importance and authority of this house that doubt be dispelled forthwith

Mr. Payne rose to a point of order and nsisted that the question of privilege be stated first. The speaker suggested that a resolution would inform the house as to what question the gentleman desired to present. He finally sustained the point of order, cries of "regular order" being heard on the republican side. On motion of Mr. Payne the house adjourned.

The house committee on ways and means today authorized a favorable report on the treaty by a vote of 14 to 2. Mr. Metcalf, rep. (California), was present, but did not vote and Messrs. Robertson, dem. (La.), and Cooper, dem., (Texas), voted against the bill. Two amendments were offered in committee, but both were rejected by the republicans. One extended the provisions of the United States. The measure is intended to cause the conversion of United States bonds into 1 per cent bonds. By Mr. Gardner (Mich.), providing for "post check notes" of the denomination of Si, 34 and 35. The bill is identical in wording to the one introduced in the last conpublicans. publicans. One extended the provisions of the treaty to all other countries. The other abolished the differential duty on refined

sugar. The report says;

The enactment of the bill into law is necessary to give effect to the convention providing for reciprocal trade between this country and Cuba. This results not merely because the convention itself provides that it shall not take effect until the same shall have been approved by the congress, but because the constitution gives no power to the president and the senate to make a convention or treaty changing the rates of revenue. That power now is expressly lodged in the congress.

It is not intended here to cite authorities or advance reasons on this proposition. The records of congress abound with unretuted arguments on the affirmative of this connection and the practice of congress has been uniformly in the same direction.

The president has deemed the subject of sufficient importance to convene an extraordinary session of congress in order that the convention may become effective before the commencement of the harvest of the new sugar crop in December.

No Harm Will Heault.

sugar. The report says:

No Harm Will Result.

This legislation will result in no harm to any American industry Articles, the product of this country, like the articles embraced in this convention, now imported from Cuba, receive the very highest protection of any in the same schedule. The duty on sugar was placed above the protective point or the postoffice revenue. The house tariff bill provided expressly for a reduction in the interests of reciprocal trade agreement, which it authorized the president to make. The duty on tobacco has for years been much higher than any necessity required on account of the competition of Cuban tobacco. The reduction in this bill leaves it amply protected.

The report closes with an argument set-

ting forth the advantages to both this RATES TO BE BASED ON COST office of J. J. Hill and Baring, Magoun & country and Cuba, which will result from a reciprocal arrangement provided in the legislation.

To Study Election Laws. Representative Dick of Ohio introduced a resolution today which, after reciting the law regulating suffrage and alluding to the curtailment of the suffrage privilege in the United States, says:

Resolved, That the matter be referred to the committee on election provinces, vice president and representatives, whose duty it shall be, and who shall have full power to investigate and inquire into the validity of the election laws of the several states and the matter of their enforcement and whether the right to vote at any election for the choice of electors for president and vice president of the United States, representatives in congress, and the members of the legislature of any state is denied to the male inhabitants of any of the states being 21 years old and a citizen of the United States, except for participation in rebellion or other crime. Said committee shall have power to subpoem and examine witnesses under oath and send for records and other evidences that may be necessary for a full and complete investigation of the several subjects herein mentioned, and it shall be authorized to sit under the sessions of the house and to have such printing and binding done as it shall deem necessary and it shall make a full report to the house of the result of the investigation at as early date as is possible. Resolved, That the matter be referred to
