PAID NOVEMBER 2, 1903.

NOVEMBER 2, 1903.

As prognosticated by us three years ago our quarterly dividend November 2, 1903, to all our investors, reached the immense figure of 27 per cent, surpassing all our former records for handsome quarterly dividends and thoroughly eclipsing those made by any other company in existence, Remember these quarterly dividends are in addition to our regular weekly dividends of 4 per cent.

Owing to the inauguration of new fields for winter operations we have no hesitancy in assuring our investors that our NEXT QUARTERLY DIVIDEND February 4, 1994, will more than double any Frebruary dividends made by us heretofore. Let us explain to you our methods together with references in your own locality.

PROVEN BY U. S. MINT RECEIPTS that this company produced over \$60,00) gold bullion from one year's development work on one claim. It paid over \$23,000 in dividends last year. The Nevada Keystone Mining Co. owns seven additional claims and it is for the purpose of pushing development work on these that a limited amount of stock is offered for sale. Such development work as has been done on the seven claims has demonstrated that they are richer than the developed claim, the "Keystone," which gives the name to the whole group. Ten per cent per annum in dividends on your lovestment is certain because of the earning power of the developed mine, with a magnificent opportunity of increasing the value of your holdings by the development of the seven additional claims.
