Local receipts were 100 cars, with 5 of contract grade.

Oats advanced sharply on buying by a teading buil, which was accompanied by large purchases for short account. The strength in other grains and a better cash demand helped in the advance. After selling between 34%c and 35%c December closed at 35% 250%, a gain of 121%c. Local receipts were locars.

Provisions were a shade easier at the start, owing to a decline of from 5210c in the price of hogs at the yards. There was some buying of lard for foreign account, but selling orders from packers were in larger volume than huying from all other sources and prevented the market from responding to the advance in prins. The close was about steady with January pork 527%o higher, at \$11.57%211.30; lard and ribs were each 2%c lower, at \$5.70 and \$5.16.
