GORMAN WANTS DOCUMENTS

Introduce Resolution Asking for Information as to Isthmian Matters. HE WOULD KNOW ABOUT INTERVENTION. Requests President to Tell When and Under What Circumstances United States Has Been Asked to Enforce Treaty.

WASHINGTON, Jan. 5.—Senator Gorman today introduced the following resolution: Resolved, That the president be required, if not in his judgment incompatible with the public interest, to inform the senate: First—The date when, and the circumstances under which, the United States intervened for the first time and each succeeding time, with a military force, in the internal affairs of New Granada, or Colombia, under the treaty of 1823. Such intervention was on the initiative of the United States or by the request of New Granada, or Colombia, or upon the official representations of either, and also to transmit to the senate copies of the letters or notes in the department of state and of the orders by the Navy department, relating to such intervention.

Second—Aim to inform the senate whether or not the United States has been asked by New Granada, or Colombia, or any of the representatives of either, to execute by armed force, either the guarantee of the neutrality of the isthmus or of the sovereignty of New Granada, or Colombia, over the same, and if the United States has so been asked, then the date and circumstances thereof and to send to the senate copies of letters or notes in each case conveying the application, and what was done thereunder by the United States.

Third—And also to inform the senate in which, if any, disturbance on the isthmus of Panama, referred to by the president in his last annual message, the United States intervened by the employment of military force, solely on its own initiative, and uninvited by the government owning the isthmus and also to inform the senate of the circumstances in each case which required such intervention, and transmit copies of the orders issued by the Navy department for such purpose.

Fourth—And also to inform the senate of the dates when, and circumstances under which, the United States has intervened in the internal affairs of New Granada or Colombia, by military force in aid of a revolt, or rebellion, or to suppress such revolt, or rebellion, or disturbance of the peace therein, or to suppress such revolt, or rebellion, or disturbance of the peace therein.

Fifth—And also to inform the senate which words, if any, in the treaty of 1846, authorized the United States, in the opinion of the president, to enter by military force into the territorial jurisdiction of New Granada, or Colombia, in order to prevent the interruption or embarrassment of free traffic across the isthmus.

Mr. Gorman asked for immediate consideration of the resolution, but upon Mr. Allison's objection the matter went over.

Consider Pure Food Law. Pure-food legislation was taken up today by the house committee on interstate and foreign commerce. Proposed amendments to the present laws were explained to the committee by Dr. Wiley, chief of the bureau of chemistry of the Department of Agriculture.

An amendment suggested by the National Pure Food association strikes out the words "with intent" in the provision against misbranding of food products, so as to relieve the government from the necessity of proving the intent to deceive in such action.

Dr. Wiley said fifty cargoes of German wines containing salicylic acid had been sent back under the law regulating importation of foreign foods.

During the six months the law had been in operation, without suit or process of law, nearly all shipments of adulterated foreign foods had been stopped, although previous to the operation of the law 10 per cent of all imported foods and drinks were adulterated.

Representative Mann of Illinois asked if salicylic acid was injurious to health. Dr. Wiley replied that according to general opinion it was injurious. However, he said he was now conducting food experiments to ascertain this fact.

"Then," declared Mr. Mann, "you have barred out German wines before you knew they were injurious?"

"We have taken the action because the German laws prohibit salicylic acid," replied Dr. Wiley.

"Yes," retorted Mr. Mann, "but that law was passed for the express purpose of retaliation against Germany."

Mr. Mann declared that if the present bill became a law it would permit the United States to destroy millions of dollars of export business in meats by declaring borax injurious to health. He suggested an amendment to allow substances to be placed in foods for export when substances were not prohibited by the laws of the country to which the foods were to be shipped. No objection to this amendment was made by Dr. Wiley. The committee will resume the consideration of the pure food bill next Friday.

Public Land Bills Wait. The senate committee on public lands today discussed the advisability of taking up the bills affecting land laws before a report has been received from the special committee for that purpose which was appointed by the president. Gifford Pinckot, chief forester, and Prof. F. H. Newell, chief geographer of the geological survey, both of whom are members of the commission, have gone to Portland, Ore., to attend the conventions of the National Live Stock and Wool Growers' association and will continue the investigation while in the west. No decision was reached by the committee though the sentiment seemed to be that if it could be ascertained when the commission's report would be filed the bills now pending before the committee would not be considered except in connection with the report.

Fence to Keep Out Chinese. Representative Dixon of Montana, introduced a resolution today providing for a wire fence along the Canadian boundary between Lake of the Woods and Point Roberts.

The object of the fence is to keep out Chinese immigrants and it is to be as equipped as to give signals when any one climbs over it. The secretary of commerce and labor is directed to report on the feasibility of the projected fence.

HOUSE EXPRESSES SYMPATHY After Passing Chicago Resolution, Postal Investigation is Sent to Committee.

WASHINGTON, Jan. 5.—In the house today the following resolution, offered by Mr. Emrick (Ill.), was agreed on: Be it resolved by the house of representatives of the United States of America that the sincere and tender sympathy of this body be extended to the strikers and citizens of the city of Chicago and elsewhere in their sad bereavement and desolation. Be it further resolved that the following resolution which has lately occurred in the city of Chicago has appalled the entire country and this house on behalf of the people of the United States, is deeply sensible of the sorrow and despair caused by this frightful disaster and sincerely condole with the stricken and those bereaved through the loss of loved ones. Be it further resolved, That a copy of these resolutions, duly endorsed by the speaker and clerk of the house, be transmitted to the mayor of the city of Chicago.

The speaker was about to lay the president's message before the house when Mr. Hay (Va.), whose resolution providing for an investigation in view of statements contained in the Bristol report was pending when the house adjourned yesterday, called for the order. His resolution being privileged, it was considered. The ayes and nays were then ordered on Mr. Hay's motion for the previous question.

The motion for the previous question was lost, 104 to 111. The minority supported

the motion. The republicans who voted for it were: Messrs. Cooper (Wis.), Minor (Wis.), Prince (Ill.), Smith (Ill.), Wanger (Pa.) and Young (Mich.), otherwise the majority opposed the motion.

The motion failing, Mr. Payne moved to refer the resolution to the committee on postoffices and post roads, which was carried, 117 to 97. The republicans voting in the negative were: Messrs. Cooper (Wis.), Prince (Ill.) and Wanger (Pa.), the majority otherwise supporting the motion, but the minority opposing.

The president's message to congress concerning Panama and the canal was then laid before the house and read.

The reading of the message was followed by applause on the republican side. At the request of Mr. Gillette (Mass.) a memorial to congress from the Massachusetts Historical society, praying for the restoration of the frigate Constitution, was read and referred to the committee on naval affairs.

Mr. Williams (Miss.), the minority leader, said he was glad that the precedent had been established permitting the reading in the open house of memorials from a sovereign state.

He added: "I cannot fall to express gratification at the fact that a New England republican legislature and a New England republican representative are willing to preserve a constitution of some sort, even if preserved merely as a relic, as a curiosity to excite the patriotism and contemplated admiration of the American people" (laughter).

Mr. Payne called Mr. Williams' attention to the fact that the memorial was from a society and not from a state, whereupon the latter replied that he hoped the same privilege would be accorded a state as had been given a society.

The house at 2:45 p. m. adjourned until tomorrow.

EVENTS ON RUNNING TRACKS

Defeat of Kenilworth at San Francisco is Surprise of the Tracks.

SAN FRANCISCO, Jan. 5.—The defeat of Kenilworth was the surprise of the racing at Oakland today. He was even money favorite for the six furlongs handicap, but the impost of the race was the third track was evidently too much for him, as he stopped badly. Arcade, getting through next to the rail, won by neck from the poorly ridden Martinmas. Namtore was placed in view of the race, but it was the second choice, led all the way. Hildebrand was in fine form, riding three winners. Results: First race, seven furlongs, selling: Coroner Kelly won, Isabella second, Ethel Abbott third. Time: 1:44.

MAKE CLOSE EXAMINATION

Treasury Experts Will Probe Accounts of Moseley to the Bottom.

NOTHING WRONG HAS YET BEEN FOUND

Members of Interstate Commerce Commission, However, Insist Upon More Thorough Investigation of Books of Secretary.

WASHINGTON, Jan. 5.—The treasury experts who are investigating the accounts of the Interstate Commerce commission, have decided to examine every voucher of the office since Edward A. Moseley became secretary and disbursing officer of the commission. This sweeping extent of the investigation is a measure of prosecution.

These vouchers are on file at the Treasury department and will be rigidly scrutinized and compared to ascertain if there has been any tampering or other irregularities in any of the papers.

The experts have reported to the commissioner that the books of the office balance and that the affairs of the disbursing office seem to be in good condition. On the strength of this report, Cashier H. E. Miltz, under the direction of Mr. Moseley, resumed his official duties today.

The commission, however, is anxious in view of the persistence of the rumors and the source from which they have originated, to take all precautions and therefore urges that everything be probed to the limit, at the same time expressing the belief that the result will not be discreditable to any official or employee of the commission. Mr. Moseley is still on leave of absence.

Cabinet Considers Far East. Long and careful consideration was given to the situation in the far east today by the president and his cabinet. The information received through diplomatic channels is most carefully guarded. At the conclusion of the cabinet meeting the members were unusually reticent. It is felt by officials of the administration that it would be improper publicity to discuss a subject so delicate as that pending between Japan and Russia in which, too, the United States is not one of the principal parties.

The government's relations to the controversy are purely commercial. If war between Japan and Russia should result, while it is not expected, even in a remote way, the United States would be drawn into it, efforts certainly would be made by this government to protect its commerce in the far east. To afford this protection in such a way as not to offend either nation party to the war, both of whom are on friendly terms with the United States, would be a delicate and difficult task. It is not unlikely that this subject will be considered at future meetings of the president and his cabinet. Important appointments in the army are pending, but they were not brought up at today's cabinet meeting.

Court Hears Disfranchisement Case. Argument was heard by the supreme court of the United States in the two cases of Jackson W. Giles involving the refusal of the registrars of Montgomery county, Alabama, to permit the registration for voting of Giles, a colored man. Argument for Giles was made by Wilfred H. Smith, a colored attorney of New York.

For the defense Mr. Gunther contended that the action of the registrars was a judicial action and that under the laws of Alabama they were exempt from actions for damages, one suit being for money damages. The only question properly be-

fore the supreme court, he urged, was whether the action of the Alabama court was in conflict with that of the United States. He also maintained that by reason of being denied the right to register, Giles had not gained a standing in the federal courts. He should have gone to the polls and demanded the right to vote, which being denied, his case might then more properly be within the jurisdiction of the federal court.

Prince Cupid Has Experience. Jonah K. Kalamianale (Prince Cupid), the Hawaiian delegate in congress, appeared in police court today on the charge of disorderly conduct, for which he was arrested last night and his case was continued until Thursday. He had an altercation with a man named Charles Clarke over a personal matter and when the police interfered that he stood on his rights as a member of congress and was taken into custody and when advised at the police station to leave collateral or send for his friends, he declined on the ground that he was not subject to arrest. He spent the night in a cell and was taken to the "Black Maria" to court today where he was given the usual prison fare of coffee and sandwiches. Efforts were again made to have him send for friends

to arrange the matter, but he insisted on a trial and the case was continued.

One On Uncle Joe. In transmitting payment by check to a publishing house for sixty volumes of an American historical work, Speaker Cannon today made this indorsement on the back of the check:

This check is in full payment, both legal and moral, for sixty volumes of books called in the contract with the payee (—). The books are not worth a damn and are high at that. "We are never too old to learn," but the way your gentlemanly agent came it over your "Uncle Joseph" is worth the check.

In Memory of Franklin. Representative Adams of Pennsylvania today introduced a bill providing for the striking of a medal in memory of Benjamin Franklin to commemorate the bicentennial anniversary of his birth, which occurs January 17, 1864. A single medal shall be struck in gold and sent to the republic of France and 150 impressions shall be struck in bronze, 100 of which shall be distributed by the president and fifty for the use of the American Philosophical society.

Panama Minister May Retire. M. Philippe Bunau-Varilla, minister from Panama, and the joint signer with Secretary Hay of the Hay-Bunau-Varilla treaty,

will resign his office after the exchange of ratifications of the treaty between the Washington and Panama governments. It is said his successor will be Mr. Roseman, a prominent lawyer of Panama, whose son is now secretary of legation here. M. Bunau-Varilla probably will go to Paris after his resignation.

Quiet on Isthmus. The Navy department has received the following cablegram from Admiral Glass, under date of January 4:

"Situation unchanged. No news."

Many Postmasters in Default. The secretary of the treasury today made public the number of postmasters who are short in their accounts. The total shortage amounts to \$23,464 and is divided among 168 postmasters.

Postpone Wood's Case. In the executive session of the senate today the nomination of General Wood came up in the regular order, but was passed on the suggestion of the absence of several senators interested.

To Succeed Congressman Burk. PHILADELPHIA, Jan. 5.—The republicans of the Third congressional district today nominated George A. Caster of this city to succeed the late Congressman Henry Burk, republican.
