Daniel K. Robey, Brought to Omaha, Will Be Sent to South Dakota.

DEED IS COMMITTED IN THAT STATE

Sympathy is with Accused, Who is Believed to Have Acted in Self-Defense and Has Good Reputation.

Deputy United States Marshal Henry Homan returned Friday evening from Springview, Keya Paha county, bringing with him Daniel K. Robey, who is charged with the murder of an Indian named James Rasmus or Rasmussen. Robey was lodged in the Douglas county jail to await a fur-ther disposition of his case.

The shooting occurred Sunday last. The story of the tragedy is in effect that Rasmus, who is a halfbreed, got into an altercation with a settler named Wakefield over a land deal, in which three cows were part of the consideration. The deal the Rosebud reservation to get his cows, and, finding only two of them, started to drive them to his homestead just across the line in Nebraska. Rasmus' father saw Wakefield driving the cows and notified his on, who is regarded as having a very bad temper, and he started after Wakefield, being an expert lasso thrower. Robey, who owns a ranch about two miles south isted between Robey and Rasmus, and the ence and threatened to "do" him. Robey started to ride away, but Rasmus followed him, and, seeing that he was liable to be overtaken, Robey fired his pistol twice in the air to frighten Rasmus. The Indian had the better horse and soon overtook Robey and reached down to get his rope to rope Robey, and the latter, knowing Rasmus' skill with the rope and his bad temper, ordered him to stop, but Rasmus paid no attention to the warning, and Robey fired at him, killing him almost

Robey Surrenders.

Seeing what he had done Robey came on down to Springview, Neb., and surrendered himself to the sheriff of Keya Paha county. He was taken before United States Commissioner L. L. Heath at Cody, Neb., and waived examination. Deputy Marshal Homan being in the

vicinity of Cody, on civil business, was notified and brought Robey to Omaha for safe keeping at the direction of Commissioner Heath.

As the killing occurred in South Dakota Robey will be taken to that state for trial. As the case is unballable he will have to lay in jail until the case is disposed of.

The accused bears the reputation of a peaceable and law-abiding citizen and public sympathy lies with him, as it is said the shooting was done in self-defense. The necessary steps were taken by the United States district attorney to transfer Robey to South Dakota for trial.

CANNOT FIND THE PROPERTY Administrator of Estate Unable to Locate Belongings of Late Gottlieb Zimmerman.

What promises to be a very interesting case has been instituted before County Judge Vinsonhaler in connection with the estate of Gottlieb Zimmerman.

When Zimmerman died in 1895 his son-inlaw. Herman Sander of Papillion, was appointed administrator of the estate. He re cently was discharged and a successor was named. It now develops that he reported to the court that he was unable to locate any property which Zimmerman was supposed to have left. Also that he was unable to collect any rent for the very good reason that he could locate no property.

The causes leading up to this situation do not seem to be exactly plain to anyone. It appears, however, that before Zimmerman's death he consummated a business 80c transaction with the Equitable Trust company of this city, whereby he constructed a row of buildings on some lots in this city and that a mortgage was made out in favor of the Equitable Trust company.

Later developments would seem to indicate that the houses which Zimmerman constructed were partly on ground which was not covered by the mortgage. It recently was discovered in going over some records that a strip of land 15x132 feet at Eleventh and Pierce streets was not included in the mortgage, yet the houses which Zimmerman built are partly on this

ground. In making further investigations the discovery was made that this strip of land included fifteen feet which had been taken off the street on each side, but which had never been included in the deed to the property. It is alleged that the Zimmerman heirs sold this property at a fair sum. Various complications have grown out of the transaction until at present none of the interested parties seem to know where "they are at."

GIVES EDQUIST ASSISTANTS County Board Authorizes Three New Surveyors and Opens New Set

of Bids. At a meeting of the county commissioners the request made by County Surveyor Edquist for three additional men to assist in prosecuting the survey of the Platte

valley was granted. The West End Improvement club and the city park board asked the county commissioners to name a date when they could meet with them, and the board named February 6.

Yesterday the county commissioners opened the bids for grading in Eikhorn ralley and found that the lowest bid had been made by M. J. Huse. The contract will call for the excavation of 1,250 cubic yards and Mr. Huse will contract to do the job for \$175, or 14 cents a cubic yard. The excavations are to be made at various points along the Eikhorn river for the pur-

pose of straightening its course. The commissioners also asked Contractor J. P. Guth to submit an estimate of how much it would cost to have two jury rooms fitted up in the top story of the court house. The jury rooms which have been a feature of the court house basement have been removed to make room for Harry D. Reed, the assessor, and it is now proposed to fix up some rooms in the upper part of the court house for jury purposes.

Charles Thorpe, one of the best known American jockeys, arrived here yesterday morning enroute homeward to Geneva Neb., from an absence of nearly a year in France, where he has been riding in some of the leading races of that country. Mr. Thorpe is accompanied by his wife, and mother and will leave this afternoon for

Geneva. "My trip has been a very successful and enjoyable one," he said, "and I have been doing some pretty hard work. The plan of horse racing in France is materially different from that of America. They do not race so much for actual speed tests as for to his credit, with a probability of losing endurance rides, and I believe they have a better class of running horses in France than we have in America.

GETS DATA FOR THE REFORM

Elmer E. Thomas is Said to Be Preparing to Submit Charges to Grand Jury.

Elmer E. Thomas, one of the leaders in the recent organization of a "reform" league in Omaha, was at the city hall asking for a list of the "supernumeraries" employed in the building. He would not talk to newspaper men and to all interregations replied that he had nothing to say.

From other sources it was learned that Mr. Thomas is busying himself with the collection of information which the league proposes to lay before the grand jury at the oming session. It is intimated that much of the investigating preliminary will be in and about the city hall, but the names of the departments that are to be selected for scrutiny have not been mentioned. Mr. Thomas was informed that all public records are at his disposal and that he might make himself as much at home as he pleased in his compilation of facts. He left, saying he would return later at a less busy time, the attention of all heads of departments and clerks now being concentrated on the Board of Equalization meeting and the preparations for the annual

SINGER PREVENTS A PANIC Fire in Kansas City Theater Alarms Audience, but Actor's Presence

of Mind Prevents Stampede.

KANSAS CITY, Jan. 22.-A serious panic was prevented at the Grand theater in this city tonight by the presence of mind of Nat Wills, who occupied the center of the stage when a electric light fuse burned out, setting fire to a curtain in the north wing of the stage. When the small blaze was seen creeping along the edge of the

curtain by the audience, women began to scream, and men arose from their seats preparing to make a hasty exit. Wills, who had been singing a song, immediately shouted: "For God's sake, keep your seats and remain quiet. Six hundred people were

killed in a Chicago theater recently by becoming panic stricken and trampling themselves to death." The words of the actor seemed to impress

the large audience, which remained quiet and one minute later the fire had been extinguished by the theater fireman,

Has Lead of Twenty-Nine Votes Over His Opponent, Broadwell.

BETTING ON CONTEST IS IN PROGRESS

All Ballots Held Out in One Precinct and May Net Heavy Loss to Republican Candidate.

Since Friday, W. W. Bingham had gained up to noon Friday twenty votes in his election contest with Frank A. Broadwell, at which time he had twenty-nine majority six of these on a technicality.

The matter of technicalities continues to be the all-absorbing topic. Upon the decision of the court on many of the disputed ballots depends, in no small degree, the issue of the controversy. For instance, in the Sixth precinct of the Fourth ward over fifty questionable ballots were laid on the table and are being dissected, one by It is the uncertainty attaching to such ballots as these which lends added

So keen is the contest becoming that bets are now being wagered upon the issue. An ardent democrat stated that he had \$25 to wager that Broadwell did not lose

In eight of ten precincts a gain for Bingham is noted. Every vote is watched by a score of interested persons and is handled by at least five persons. The markings on each ballot are noticed and scrutinized in

The following indicate Bingham's gains within the last twenty-four hours and up to noon Friday: Five in the Second precinct of the Fourth ward, four in the Seventh of the Fourth, one in the First of the Fith, two in the Third of the Fifth, eight in the Third of the Fourth.

Passed On by Judge.

In the Third precinct of the Fourth ward five ballots are held out for Judge Vinsonhaler to pass upon. In the Fourth of the Fifth ten ballots are under the ban. Of these the word "void" is written across the faces of the ballots by the judges of election. Six of these ballots are for Bingham and there is every probability that they will be counted, as the markings on the ballots which were made by the electors are not of a character which would class them as distinguishable.

All of the ballots in the Second precinc of the Fifth ward are held out by reason of the fact that one Harden, a judge of election, permitted his name to be signed rather queerly on the ballots and in such a manner as to arouse the suspicion that he did not sign the ballots personally, but that others did it for him, or at least that others signed a portion of them, for his name appears as Harden, Harding, Harder and in various other forms.

If this precinct is thrown out it will mean loss of thirty-nine votes to Bingham, as that was his plurality in this precinct.

DETECTIVE DIES FROM WOUND James Lowell, Who Fires Shot Into His Mouth, Proves to Be a Pinkerton.

James Lowell, who shot himself at the resort of Jennie Martin, 822 Dodge street, at 1 o'clock yesterday morning, died at 10;30 in the morning at St. Joseph's hos pital. It develops Lowell was a Pinkerton de

tective and came to Omaha in that capacity about five months ago and went into the Union Pacific shops, where he had been known as "foreman" of the tool room. Lowell shot himself in the mouth with 22-caliber pistol. It was claimed at the time it was an accident, but there are evidences tending to show that it was not, For instance, G. W. Watson, Lowell's partner, also said to be a Pinkerton detective in the shops, says he has heard Lowell remark that he didn't prize life very highly, and women in the resort, where Lowell seems to have had a pretty good acquaintance, say they have heard him make simflar remarks.

LAWYER QUESTIONS HIMSELF Vic Walker, in Defending Three of His Friends, Acts as Attorney

and Witness.

Four colored gentlemen, George Davis, Doc Tole, Lew Morrison and Sam Graham, who hang around Vic Walker's "cigar store" at 1317 Dodge street, were arrested Friday night and charged with vagrancy. The case came up in police court yesterday and Walker was on hand to defend his colored brethren, backed up with the account books of his place of business and several voluminous digests of the civil law. As the case proceeded things became more and more tangled until there was a hopelessly mixed controversy on deck, in which Walker attempted, as defendants' attorney, to cross-question himself, to which unusual procedure the prosecuting attorney objected. Judge Berka set the case over until Monday, hoping by that time to be able to unravel the tangle.

THE VALUE OF CHARCOAL

Few People Knew How Useful it is in Preserving Health and Beauty. Nearly everybody knows that charcoal is

the safest and most efficient disinfectant and purifier in nature, but few realise its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smok-

ing, drinking or after eating enions and other odorous vegetables. Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe carthartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Absorbent Lozenges; they are composed of the finest powdered Willow charcoal and other harmless antiseptics in tablet form, or, rather, in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of It is, that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Absorbent Lozenges to all patients suffering from gas in the stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and burned to death tonight in this city as the although in some sense a patent preparation, yet I believe I get more and better was imposed. "I never stole in my life be-fore and this crazy notion for old stamps when the accident occurred. The oldest than in any of the ordinary charcoal tab
