CHE FOO, Feb. 17 -- (New York Herald Cablegram-Special Telegram.)-A junk laden with wounded men, including thirtysix Japanese, from the engagement on February 14, at Port Arthur, has arrived here. It reports that other wounded had been picked up by Chinese junks, but the number is unknown.

Little Hornets Escape.

CHICAGO, Feb. 17 .- Confirmation of the report that two Russian warships were torpedoed in an attack of Japanese torpedo boats upon the Russian fleet at Port Arthur last Sunday was received today by Speiraburo Shimiza, imperial Japanese consul in Chicago. The message, briefly describing the engagement, was from the government officials in Tokio, and reads as follows:

The first fleet of torpede boat destroyers left for Port Arthur on February 13 in The first fleet of torpedo boat destroyers left for Port Arthur en February 13 in spite of a heavy storm of wind and snow. At 3 o'clock on the morning of the 14th the fleet attacked the Russian ships and was fired upon, in spite of which the destroyer Asakiri torpedoed a Russian manof-war and escaped safely. At 5 o'clock the same morning another destroyer, Hayatori, went close to the entrance of the port, where two Russian warships were stationed. One of them was torpedoed and a safe return was made.

Makes Reservation Regarding Manchurin Where Railroad Runs.

ST. PETERSBURG. Feb. 17 .- Russia's reply to Secretary Hay's note on China probably will be made in a few days. It will acquiesce in principle, but with certain reservations regarding Chinese administrative control over the region in Manchuria leased to Russia or covered by the Chinese Eastern railroad, in connection with safeguarding existing Russian interests. When the note was first disparched to the powers the authorities here undeniably were disnosed to view it with muspicion and therefore its reception by the other cabinets was awaited with keen interest. As the Russian authorities have obtained the views of the European powers and have seen the friendly reception given to the note even by Russia's ally, the fear that it might contain a hidden pitfall for Russia began to disappear. The Russian authorities have now been made acquainted with the replies of the remaining powers, including that of Japan, and it has now practically been decided to give adherence in principle.

Russia explained that it was as anxious as the other powers to prevent disorders in China and to preserve its integrity, but that owing to Russia's special interests in Manchuria difficulties were represented. Its railroad must be protected and Russia will make a reservation on this point. The government does not desire its position in this respect to be misunderstood hereafter and for this reason its words will be explicit and not equivocal.

Russia has not yet given permission for any military attaches to join the Russian army in the field. Requests have been received from all the powers, including the United States, and it is understood that Viceroy Alexieff, to whom the question was referred, would prefer that foreign attaches should not join in the Russian field operations until March, explaining that owing to the unexpected suddenness of the outbreak of hortilities it is difficult to make arrangements for their comfortable accommodation, especially during the severe weather

FEAR THE SPIES OF JAPAN

Russians Give Reason for Making Many Arrests at Marbin.

MEMBERS OF GENERAL STAFF AT WORK

Officers of the Canr Henr that More Arthur. Than a Hundred Spies Have Been Busy in Manchurin.

TIEN TSIN, Feb. 17.-The Russians explain that the wholesale arrest of Japanese at Harbin and elsewhere was due to the discovery that Japan had in those districts upward of 100 spies, of whom sixty be onged to the Japanese general staff. It is feared that the British steamer Hsi-Ping, bound from Ching Wan Tao for Shanghat with passengers and bullion, has

been captured. It is five days overdue and was last seen in Port Arthur roads. Prepare for Spring Campaign.

BERLIN, Feb. 17.-The admiralty here has received confirmation of the report that the Japanese landing of troops on a large scale are taking place on both of the Corean northern coasts and it is stated that Japan will be ready by spring for a forward land movement, supported by properly equipped bases. Possibly 250,000 men (according to the estimates made at the German admiralty) will be in the field sions in force.

Expert naval opinion in Berlin justified the Japanese in landing before the Russian feet is destroyed, as to wait until that is might mean a delay in the land operations for months, consequent on strengthening of Russia's forces. The expectation expressed by a technical newspaper which reviews the situation, is that Japan probably will, in the beginning have considerable land successes through hard fighting. What may happen after the early period of the land operations, no technical person ventures to predict in writing, though it is doubted if the Siberian railroad will be at all adequate to reinforce and supply the Russian army. Germans Discredit Report.

BERLIN, Feb. 17 .- The German admiralty discredits the reports that the Japanese fired on the German gunboats Hanza, Thetis or any other German war vessel in the disputed far eastern waters. The Hanta is at Tsing Tau and the Thetis at Che Foo. The regular reports of their movements to the admiralty make no mention of such an incident. It is added that even if it happened, it is assumed to have been an excusable mistake.

The Marine Rundschau, the semi-official publication of the admiralty has !ssued the first of a series of pamphiets designed to keep German naval officers informed as to what is happening in the far east and the meaning thereof. After reciting the preparations on both sides and giving professional estimates of the strength of the fleets, the Marine Rundschau says:

fleets, the Marine Rundschau says:

The Russians fired the first shot from the Korletz, doubtless because the Japanese torpedo boats were creeping near. The Russian Port Arthur squadron relied too much on protective nets, and obviously was surprised. The commander made a serious blunder in haying two ships at Chemulpo and one at Che Foo (Shanghai) separated from the main body. If these ships were sent to observe the Japanese they did it badly.

When the Japanese squadron withdrew from Port Arthur February 10, the Russians ought to have followed and kept in touch with it by means of swift scouts, as the Russian commander now is ignorant of where it went.

of where it went.

The conduct of the Russian ships in retiring to cover in the inner harbor indicates that they will not again engage the enemy at sea. In the harbor many of the Russian guns will not be effective.

Distribution of leaflets by a local newspaper under Japanese control, has been discontinued, says a Times dispatch from Peking . Although temperately worded. it was feared the leaflets would unduly excite the populace upon which the initial success of Japan and the boldness of the attack on Port Arthur have made the most profound impression. The province

is unusually quiet. British sympathy for the Japanese is manifested in the remarkable respond to an appeal recently made for the relief of widows and orphans of soldiers and sailors, says a Times dispatch from London. Japanese are accosting, in all parts of London, all persons desiring to contribute to the fuhd. One little girl sent 8 pence, her month's savings, which she wishes to send Japanese orphans. An woman contributed 28 shillings, all in

farthings. Preparations are being made to transport the forty-sixth colonial regiment at once to the French possessions in the far east, says a Times dispatch from Paris It is said that the government asked the Compagne nationals, the exact number of vessels that could be placed at its disposal for the conveyance in the case of urgency of new troops to the French Asiatic colonies The Commercial Cable company has re-

ceived the following notice:

The Dutch East Indian administration announces that, by virtue of article viil of the St. Petersburg convention, telegrams containing matters not intelligible to the Dutch administration, or matter relating to the movements of ships or troops which would be in the interest of a belligerent power, Russia or Japan, will not be accepted until further notice by the Babang, Kota Radja and Olehleh officers. FRANCE PREPARES FOR DEFENSE

Takes Steps to Meet Condition Which May Arise in Orient.

PARIS. Feb. 17.-Marine Minister Pel letan has written to Deputy Deloncie, republican, representing French Cochin China, denying the reported shortage of coal for the French fleets and adding that measures had been adopted to protect French Indo-China against a sudden at tack and to prepare for all eventualities

growing out of the present situation. The Figure today published a dispatch from Angouleme announcing that the commanders of army corps had received orders from the minister of war prescribing certain measures in case of the eventual mobilization of the active army. Officers and noncommissioned officers on leave have been requested to return to their regiments.

The Presbyterian board has sixty-eight missionaries in Corea, residing in five principal stations, Seoul, Fusan, Ping Yang, Talku and Sien Chun. The work under the care of the board is very large, embracing 322 congregations, seven schools, five spirituals and 30,000 communicants and adherents. The board has cabled full directions and advice to the missionaries under its care.

RUSSIAN VIOLATIONS IN CHINA. Japan Reserves Right to Counter-

balance Unfavorable Action. TOKIO, Feb. 17.-It is stated on high authority that the Japanese government in responding through United States Minister Griscom to Secretary Hay's note in regard to the neutralization of China, excluded Manchuria, which Russia is now occupying. Japan, it is stated, reserves the right to counterbalance any action of Russia in violating China's neutrality.

The emperor, the supreme council war, the privy council and a majority of the cabinet will probably depart on February 20 for Klota, where it is planned to temporarily establish imperial head-quarters. The date, however, has not yet been definitely decided upon. Later it is expected the emperor and councillors will go to Hiroshima, where the emperor will personally watch the embarkation of the troops.

Miss Nellio Mitchell of 415 S. 11th St. says: "After a fall I noticed my back aching occasionally, and finally cotinually. it grew so that I could only lie perfectly straight and very often was forced to sleep on the floor in place of my bed. Two boxes of Doan's Kidney Pills obtained at Kuhn & 'Co.'s drug store, corner 15th and Douglas streets, gradually relieved me of the aching

until it finally disappeared."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo. Remember the name, Doan's, and take no substitute.
