The Popular Vote of 1904

Is Unanimously in Favor of Stuart's Dyspepsia Tablets—They are the Nation's Favorite.

No article on the market, whatever be the purpose for which it was created, can be a phenomenal success and be universally popular unless it possesses great and unending merit.

The unparalleled and phenomenal success of Stuart's Dyspepsia Tablets from a business standpoint is not unnatural nor surprising. It is due directly to their unparalleled and phenomenal success in curing multiplied thousands of cases of dyspepsia throughout the English-speaking world.

The reason of the wonderful success of Stuart's Dyspepsia Tablets is so plain and simple that a child can understand. It is this and nothing more; they are natural in their working and effects. They take up the work of the worn and wasted stomach and do it just as the stomach did when it was well and strong and able. They actually digest the food and do it thoroughly, completely and independently, thus giving the weak and weary stomach an opportunity to renew and regain its own strength.

A St. Louis business man says: "I was a confirmed dyspeptic for years. What I ate had to be forced down and most of it soured or lay like lead in my stomach and did me no good. I was in constant misery both in mind and body and came to be cranky, morose and irritable. My natural disposition, which was cheerful and pleasant, left me and I was alienating all my friends. The doctors did me no good. I got so I hated the sight or name of a doctor. My wife finally worried me into buying a box of Stuart's Dyspepsia Tablets which I began taking under protest. As I had no faith in anything or anybody, I was sore on creation."

"I had not taken a third of that box before I noticed a decided and most welcome change. I could enjoy a good meal and feel no bad effects following it. I forgot my stomach and had a chance to think about something else. I went ahead with my business with ease and comfort. Six boxes of Stuart's Dyspepsia Tablets at a total outlay of \$40 cured me completely and I have not suffered a pain from dyspepsia for two years. I have an appetite like a sixteen-year-old boy. I wish everyone who suffers from dyspepsia could know what a change this great remedy made in me."

Stuart's Dyspepsia Tablets are for sale by druggists everywhere at 50 cents a box. All druggists carry them and the best doctors are prescribing them. You need not fear that you will ever be unable to get them; for, because of the good they have done mankind and the suffering they have relieved and the happiness they have caused, the fame and the success and the popularity of Stuart's Dyspepsia Tablets from generation to generation will endure.

Why Swamp-Root Gives Strength. Almost everyone, from personal experience, knows that the effects of any kind of severe physical strain are felt, first of all, in the small of the back—in other words, in those Vital Organs, the Kidneys. This is as true in the case of the very powerful man as it is with one of less strength, and it is especially true whenever the kidneys are weak.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease; therefore, when through neglect or other causes kidney trouble is permitted to continue, fatal results are sure to follow. Swamp-Root Strengthens the Kidneys and through them helps all the other organs.

Swamp-Root is pleasant to take and is used in leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves, because they recognize in Swamp-Root the greatest and most successful remedy that science has ever been able to discover or compound.

No matter how many doctors you have tried, no matter how much money you may have spent on other medicines, you really owe it to yourself and to your family to at least give Swamp-Root a trial. Its strongest friends today are those who had almost given up hope of ever becoming well again.
