they consider that the conditions on the Manchurian frontier are somewhat at variance with the assurances. It is held that General Kouropatkin's plans for a defensive campaign have given unusual importance to China's activity. If the Russians had taken the aggressive near the coast, it is said the war probably would have been short and decisive, but as General Kouropatkin's campaign is based upon awalting the enemy at Harbin and Mukden. It is held that this completely changes the military situation, requiring the Japanese to push inland, thus giving up their strong naval support. As their land forces are comparatively limited for an invasion of Manchuria, it is believed in high quarters here that they will increasingly feel th need of auxiliaries. It is not believed that Japan will openly seek the aid of China; but that China will gradually be drawn in by General Kouropatkin's tactics of re-Manchuria.

Another Meeting Will Be Held After Creditors Have Had an Opportunity to Weigh Sully's Propositions.

NEW YORK, March 21.-After confer-Veile National, in new printed work, nces of creditors of the assigned firm of Daniel J. Sully & Co., lasting several hours this afternoon and evening, it was announced tonight that no definite settlement had been reached, but that things were in a fair way of arrangement.

It was said that Mr. Sully made a proposition to his creditors to settle, tingent upon the acceptance of which he had offered to give them their choice of assignees, but that this proposal failed of immediate approval and that another meeting would be held. Late tonight Mr. Sully, after a consultation with his coun-

sel, issued the following statement;

We met a committee of the creditors of D. J. Sully & Co, this afternoon and submitted to time a proposition for the settlement of the affairs of that firm which, if carried out, will, we believe, secure to the creditors payment of their claims in full and offered, if that settlement should be accepted by the creditors, to co-operate with them in placing the affairs of the firm in the hands of persons admittedly acceptable to all interests. We have heard that this proposition was received favorably and that if certain legal technicalities can be arranged it probably will be accepted. At the moment we are delaying action awaiting a solution of these legal questions by the counsel representing the various interests concerned.

Consider Assignees. sel, issued the following statement;

Consider Assignees. It was understood that at the afternoon meeting of creditors the names of David Miller and Evans R, Dick had been considered as permanent assignees. Mr. Hoadley, Sully's assignee, did not withdraw and was not at his office today.

At the creditors' meeting fully eighty men were present, among them Charles G. Gates, John C. Latham, R. L. Sells, W. D. Springs of J. H. Farker & Co., the latter said to be the largest creditor of Sully's firm. Henry Hentz and George Bailey. Within a few minutes it was announced that a committee of five had been named to confer with Sully to find out what he had to say to the creditors. When the meeting finally adjourned, after the committee had reported, all present declared that they had been pledged to secrecy. President McDougail said there would be another meeting, but would not

It was understood that the conference had received an offer from Sully for settlement, the terms being reported as 40 per cent in cash on claims and 60 per cent in notes covering two years, and that there was a difference of opinion regarding the acceptance of the offer.

There was an absence of panicky feeling in the cotton market today and on the surface the traders appeared to have recovered in some measure confidence in the situation

It was evident also that the market was receiving powerful support from spot handlers and spot users. The quotations from Liverpool were also much higher than expected. CONSIDERING CHINESE TREATY Provisions May Be Made for Coolies at Panama and in the Philippines.

WASHINGTON, March 21 .- A new treaty regulating the admission of Chinese into the United States is in preparation. The existing treaty, which was made by Secretary Gresham and Minister Wu in 1894, will expire next December by limitation. Because the administration of the Chinese exclusion is now in the hands of the Department of Commerce and Labor, it has been necessary for Secretary Hay to call upon Secretary Cortelyou to assist in

the formation of the new treaty. Secretary Cortelyou will deal with those sections of the treaty which practically prescribe the regulations that shall govern the admission of Chinese of the higher class and the exclusion of coolies. Secretary Hay will take care of the diplomatic sections of the treaty. While much reticence is observed at present as to the lines upon which the new convention is being formed, there is reason to believe that it will be more liberal in treatment of Chinese wishing to enter the United States than the existing treaty, when the Chinese are not actually of the coolie class. There also may be made provision in the entry of Chinese laborers into the Panama canal strip; though this is not certain. An attempt also has been made to avail of this opportunity to make more extensive use of Chinese labor in the Philippines.

CRITICISE THE ARCHITECT

Senate Gives Consideration to Bill for Building Site. NUMBER OF MEASURES ALSO PASSED Resolution Directing Inquiry as to

> WASHINGTON, March 21.-Consideration in the senate today of the bill providing for the purchase of a site and the erection of a building for the Departments of State, Justice and Commerce and Labor was made the occasion for adverse criticism of the architect who planned the White House offices. Mpssrs. Teller and Hale led the charge on the architect and Mr. Newlands defended him.

the Legality of the Recent Order

of the Commissioner of

Pensions.

Mr. Hale said that the members of the appropriation committee went to the president and urged him not to have the original plans of the White House changed The president assured them that "if he had to sit up nights he would see that the riginal plans were not disturbed by any architect." Mr. Hale spoke of what he termed "the impudence" of the architect in declaring that the executive office was temporary affair. The idea of the comnittee, he said, was that it was to be a permanent affair and the appropriation bill to provided.

He criticised the payment of enormous fees to the architects employed in consection with the White House improvements and said they had received \$9,000 for the plans. Then, he said, they charged a percentage on the whole contract, as well as a percentage on every payment of the contract and drew out of it \$57,000. No one, he said, ven the senator from Nevada, "who seems be enamored of architects and sees nobody else," could make him believe that the payment of the amount was necessary Discussion of the bill had not concluded when the senate, at 3:22, adjourned out of espect to the memory of the late Representative Thompson of Alabama, who died resterday. The president pro tempore apcointed a committee to represent the senate at the funeral.

Bills were passed ceding to the city of St. Joseph, Mo., for street purposes, a strip of land ten feet wide near the customs house and extending the time for the construction of a bridge across the Missouri river at Kansas City by the Kansas City, Parkville & St. Louis Electric Rail-

Mr. Hoar introduced, by request, a bill to organize a colonization bureau, which, he said, was prepared by officers of the Salvation Army for the purpose of securing settlement on public lands. He said it was prepared upon the advice of the late Senator Hanna and believed would have been introduced by him. The bill was referred to the committee on public lands,

Mr. Carmack introduced a resolution directing the committee on judiciary to inquire and report as to the legality of the recent order of the commissioner of pensions granting pensions to soldiers of the civil war who had reached the age of 65 years. The resolution went over until tomorrow. A bill was passed creating an additional land district in Alaska. . Booth-Tucker Homestead Bill.

To create a colonization bureau and to provide for advances to actual settlers on the public domain, is the purpose of a bill introduced in the senate today on request by Senator Hoar. It is known as the Booth-Tucker bill and is the colonization scheme of the Salvation Army. In the preamble the bill urges the necessity of relieving the congestion in the larger cities, and suggests the use of lands under irrigation by the operation of the reclamation act of June 17, 1992, in colonizing a large number of families. Provision is made for a colonization fund by having the secretary of the treasury issue 3 per cent gold bonds, payable not exceeding fifty years from the date of issue, to the extent of not more than \$50,000,000 and not more than \$5,000,000 in any one year. The colonization bureau is empowered to make loans not exceeding \$1,500 to any person duly qualifled to enter land under the homestead

SHORT SESSION HELD BY HOUSE.

Resolutions Offered Regarding Reflections Cost Upon Mr. Babcock. WASHINGTON, March 21 .- After being in session an hour and twenty minutes today, the house adjourned out of respect to the nemory of the late Representative Charles W. Thompson of Alabama, who yesterday died in this city. Soon after convening Mr. Hepburn offered a resolution reciting certain statements by Representative Baker of New York contained in the Congressional Record reflecting on the integrity and honor of Mr. Babcock of Wisconsin, and provid ing that they be expunged from the record Mr. Hepburn explained that Mr. Baker had not delivered them on the floor of the house, but had inserted them in the Record under a leave to print. The amendment was adopted after the democrats forced a roll call. Mr. Baker endeavored to explain his

action, but Speaker Cannon refused to recognize him. When the result of the vote was announced Mr. Baker asked of the speaker if he was to be given an opportunity to ex-

plain. "The chair wil meet that question when it arises," abruptly announced the speaker, who recognized Mr. Charles Landis of Indiana, to offer some resolutions regarding

printing. Consideration of other business was ob jected to by Mr. Williams, whereupon Mr. Wiley of Alabama announced the death in this city of his colleague, Hon. Charles Winston Thompson, and offered the usual resolutions of sympathy and respect, which were agreed to. The speaker appointed a committee to represent the house of representatives at the funeral.

As a further mark of respect the house, at 1:20 p. m., adjourned until tomorrow.

MILKS' EMULSION.

This wonderful remedy has accomplished so many remarkable cures since was first put on the market by Mr. J. E. Milks of Terre Haute, Ind., that we seel in duty bound to bring it to the attention of the public, with the object in view of aiding sick and suffering

humanity.

This Emulsion is put up in such a palatable form that it is a pleasure to take. Immediate relief results from the taking of the first bottle, and stomach troubles of all kinds readily succumb to this treatment, which draws out the inflammation, kills the germs of disease and cleanses and strengthens the mucous membrane. Colds, coughs, croup and other throat and lung troubles disappear like magic, no matter of how long standing, and feverish conditions are immediately relieved.

Where the lungs are affected this remedv operates in such a manner as to enable them to work freely and to contribute pure, life-giving and life-sustaining oxygen to the blood. Weak lungs are mostly due to a neglected cough. Only a small percentage of those who have consumption inherit it, and Milks' Emulsion, by operating directly and instan-taneously, prevents colds which have settled upon the lungs from developing

into more serious forms of disease.

Constipation, from which arises attendant difficulties of the stomach, bowels and alimentary canal, is absolutely cured for good and all by this preparation. Thousands of cures have been effected and many of those benefitted have freely given testimonials as to the worth of the Emulsion. These testimonials will be sent prepaid to those suffering from disease who will write for them to The Milks' Emplsion Company. Terre Haute, Ind., or inquire of your druggist, who sells the goods.
