Not since the good old days when Jack Dempsey and Peter Jackson battled for fame and fortune in this city has such intense and universal interest been displayed, nor has the pugilistic world witnessed such stirring scenes as those which were enacted at Woodward's pavilion tonight when the world's champion featherweight, "Young Corbett" of Denver, and Jimmy Britt faced each other to settle the

question of fistic supremecy. All this morning, afternoon and during the early hours of the evening a vast throng had stood in line awaiting the sale of general admission tickets. By nightfull the line had been augmented by thousands. Street car traffic in front of the pavilion was seriously hampered by this line, which extended for several blocks in either direc-

Straight left caught Britt on the lace.
They then went to a mixup without result and the gong clanged. Careful fighting marked this round, with Britt having a slight lead. Both men looked very determined and timed their blows carefulls.

Round 2—They closed in and Britt tried with left and right for the face, but Corbett blocked them. Again they mixed it, Hritt putting his left hard to the body. He almost floored the champion with a fearful left to the body. Corbett fought back wildly and received a left swing to the jaw that nearly put him to the floor. Corbett's face took on a worried look. He rushed in, but was met with a straight left to the body that sent him back to the ropes. They closed in and Corbett missed several vicious left and right swings for the jaw. Britt jabbed with straight left to the face and Corbett swung right hand twice to Britt's kidneys. The second blow was a hard one. They mixed it and Corbett planted his right and left on Britt's jaw. The bell rang and the seconds ran in and separated the men. Corbett had all the better of the infighting, and Britt was warned by his seconds to keep his distance. Corbett had a silght lead in this round.

Round 3-They went to a mix, both missing with lefts for the head. Corbett swung a left to Jimm's ear, and Britt was wild with a left swing for the jaw. Britt jabbed Corbett to the face with a right, and in a mix Corbett pushed Britt to his knees. Britt was up gulckly and drove a straight left to the body. They again mixed it, with the result that Corbett put in a hard left to the face. Britt then blocked a straight for the body. They came to close quarters and Corbett swung a short arm right to the face and a left to the nose. Britt did not relish this

## TORTURING DISFIGURING

Skin, Scalp and Blood Humours

From Pimples to Scrofula, from Infancy to Age

Speedily Cured by Cuticura when All Else Falls.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurements, as in acne and ringworm; the awful suffering of infants and anxiety of worn-out parents, as in milk crust, tetter and salt-rheum -all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures, blood purifiers and humour remedies of the civilized

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle. Dry without hard rubbing, and apply Cuticurs Ointment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, take Cuticura Re-solvent, to cool and cleanse the blood. This complete local and constitutional treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning and scaly humours of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all else falls.

He kept after Britt, sending a right swing to the jaw. Britt rushed Corbett to the ropes, but falled to innd a straight right for the jaw. They then mixed it and Britt, on the break-away, swung hard to the bead. The champion retailated with a right to the bead. They mixed it again and Corbett put a hard right to the face and then whipped a terrific left to the nose that sent the blood spouting from that organ. It was a hard blow. The bell then rang. Corbett had much the better of the round.

Britt Gets in Good Work.

Britt Gets is Good Work.

Round 5—They went at it at close range. Corbett doing much execution with short arm light and left swings. When they broke away Britt hooked his left twice to the body. Britt tried with left for the law, but Corbett cleverly brushed it aside. Britt rushed Corbett to the ropes, but the champion sent him back with right to the body. Corbett rushed in, but was met with a straight left to the body and left to the face. Corbett retailated with a ferce right to the body, but Britt, not to be denied, sent the champion against the ropes with a fearful left to the stomach. They then mixed it, but no damage resulted. Britt sent in a straight left to the face and Corbett stalled until the sound of the bell. Britt had a shade the best of this round and looked more confident. His body blows did not appear to suit the champion, who clinched repeatedly in this round.

Round 6—They rushed into a mix, in which Corbett swung right and left to the jaw, but these were offset by two vicious lefts that Britt ston the champion's stomach. A moment later Brit's left sank into Corbett's stomach, but Corbett sent in two lightning lefts to the face that sent Britt back. Carbett nearly wen to his knees from a missed right swing. A straight left by Corbett for the stomach was blocked by Britt, who countered with right on the stomach. Corbett was wild with a left swing. Britt getting in a straight left to the body. Quick as a finsh Corbett whipped his left to Britt's jew. sending his head back. It was a viclous blow and Jimmy fought desperately, landing a left over Corbett's eye that tore that member open. It was a hard finish to the round, in which honors were even.

Corbett First to Enter Ring.

8:40 p. m.—Young Corbett was the first to enter the ring. He was clad in a blue and white sweater and had both hands bandaged. After being cheered, he at once took his seat and proceeded to read numerous telegrams which had preceeded him.

A telegram was received from Sam Harris, challenging the winner on behalf of Terry McGovern at 130 pounds. Corbett samounced that in the event of his winning he will accept McGovern's defi.

Britt entered the ring at 2:54. He was accorded an ovation which lasted several minutes. Jimmy looked a bit worried.

Round 9—Corbett uppercut with right to the face. Corbett seemed fresher and went in after Britt, but did not land. Britt seemed content to rest after his exertions of the previous round. Corbett landed two straight lefts to the jaw and forced Britt on the defensive. Corbett followed it with right and left swings to the jaw, and they mixed it. Britt missed a left hook for the body.

Britt drove a left swing to Corbett's nose, starting the blood. Corbett then uppercut with right to the face, starting the blood afresh from Britt's eye. Both men are covered with blood and their faces appear to be badly cut. The round closed in Corbett's favor, Britt contenting himself with register and acting rockly a process of the defeater.

Corbett rocked Jimmy's head with short-arm swings and in a mixup put a hard right to the jaw. Britt missed a right for the jaw and an attempt by Corbett to counter was blocked. The pace slackened entirely over the previous rounds. Britt sent a straight left to the face and missed a left swing for the jaw. They then exchanged hard rights to the face. Britt sent corbett's head back with a right hook to his sore eye. He rushed Corbett to the ropes, but falled to connect. As the bell rang Britt reopened Corbett's eye with a straight left. Corbett kept rushing at Britt, who appeared tired. Corbett bored in and sent a straight left to the jaw and escaped a left counter. Britt's cleverness stood bim well in stead, as Corbett kept after him reientlessly, but in most cases did not land. Britt forced Corbett to the ropes and failed to take advantage of a wide opening. They got to the center of the ring and the bell found them in a clinch, both men appearing tired at this stage.

As the bell rang Corbett swang with a fearful right for the law, but it went wild. The page has slowed down and both men again went to their corners tired. Corbett had the better of the round.

LABOR DISPUTES FLECK INDUSTRIAL SKY

Railway Earnings in Excess of Any Preceding Year and the Industrial Lines Are Also Promising.

NEW YORK March 25 -R. G. Dun & Co.'s Weekly Review of Trade tomorrow

will say:

Lattle net change in trade conditions is noted for the last week. Storms and floods did much damage to property and threatened agricultural prospects at the start, but subsequently the weather improved and the outlook brightened. Spring trade is expanding, although still backward to some extent and new labor controversies have added to the number of unemployed, despite an amicable arrangement of the sheet and tinplate scale. Building operations would be vigorous if the employers and wage carners could adjust differences. Inquiries for structural material are out of proportion to new permits, which is probably due to the fact that there is much resumption of postponed work.

Railway earnings in three weeks of March are only 's per cent smaller than a year ago and far in excess of any preceding year. Trifling advances in several departments of the iron and steel industry indicate that there is less pressure to sell and more readiness on the part of the purchasers to place orders than have been held back since the opening of the year. Yet the market is extremely irregular and the future contains many elements of uncertainty. The soft coal situation is no longer disturbing and it is generally believed that lower prices for ore will be available when the new season opens. Structural shapes of steel are sought, numerous contracts being offered and more are about ready to be placed, but aside from special orders from locomotives the new business is small on railway account.

Agricultural implement makers are busy, hierchant pipe is in good demand and machinery lines will be stimulated by the testinning of work on the Panama canai and other big undertakings about to be started. Minor metals advanced in response to London, the rise in tin being difficult to check demand for consumption.

Quiet conditions continue in the hide narket, except for some large sales by Chicago packers of native cowhides at firm prices, and all arrivals of foreign dry hides are promptly taken. Less activity is noted in leather, asid will say: Little net change in trade conditions

manufacutrers of footwear compinin of the paucity of new ensiness, but have orders sufficient to insure activity until the middle of next nonth.

It is not yet possible to discern any effect on the cotton goods of the collapse of speculation in the raw material. This is due to extreme uncertainty regarding the permanence of the reaction. Mill operators are not yet in a position to offer any material concessions, while buyers are making every effort to delay purchases until raw cotton goes still lower. Only small sample orders are reported in the woolen goods division. division.

wheat conditions, due to general rains throughout the southwest, and evidences of further activity and strength in the from and steel trades. Weather conditions also have allowed of increased outdoor activity, rotably in building, but signs of increased tension in labor matters constitute a drawback at several large centers.

Country roads are bad and collections are a source of complaint. Railway carnings tend to improve as transportation difficulties are surmounted, and the outlook is that gross receipts for March will show a slight increase over a year ago. The averting of the strike in the bituminous coal industry is a strengthening feature to general business throughout the west, but prices. Spring goods in nearly all lines are in better request at leading northern centers. Concervatism is still a feature in the buying of cotton goods, the market for which shows little trace of the recent slump in the raw product.

Western shoe trade is quite active and a few eastern centers also show improvement but Boston manufacturers are still.

Western shoe trade is quite active and a few eastern centers also show improvement, but Boston manufacturers are still behind a year ago. Southern trade displays a seasonable quieting down, the agricultural sections being busily engaged in planting what is conceded will be the largest acreage in cotton ever sown. The situation in the metal markets generally is very satisfactory. Following the activity in pig fron, noted last week, there has come a luil in buying demand, but no evidence of weakness in prices. Finished products have improved.

## THINK OF THIS

Are You Entirely Contented with Yourself?

There is a Good Reason for Your Present Condition.

You Can Better It if You Want To, and Very Easily.

There is nothing which keeps people down so much as poor health. If the nerves are weak, if the stomach, liver, bowels or kidneys fall to do their work properly or for mountains of northern Luzon, negrados any reason they feel badly, they MUST do something to get well.

Don't wait and learn by bitter experience how dangerous it is to triffe with disease Read the peculiarly sad experience of Miss Ida Hunter, 226 West 121st Street, New York City. She says:-

tion. Everything put my nerves on edge. I was so nervous I couldn't stand any thing. In the morning I was so tired wher ple of the city. There were four well I got up that I had to force myself to go to prepared, well rendered anthems by the work. I suffered greatly from dizziness choir, a woman's quartet, solos by Mrs. and sick headaches. My back ached so that I felt like lying down all the time, and I had a bearing-down feeling that was about twenty minutes each. Between the awful to stand. I was always 'blue' and depressed, and felt weak and tired and languid, and utterly unfit to attend to any work. How I wished I might have a vacation and take a rest! Some one suggested that I take Dr. Greene's Nervura blood and nerve remedy. I did so, and I want every one to know how much good Dr Greene's remedy did me, and how thankful I am for it. If all the women and girls who have to work burd would only take Dr. Greene's Nervon, there wouldn't be so many breakdowns. I believe it is the best medicine there is for a run-down con dition of the nervous system. Men blame women for being cross and irritable over every little thing, and think they should, never get 'blue.' They don't realize that, most wonien and girls have to work hard for their strength."
