LEWIS CUTLER

WOMAN GROWS SUSPICIOUS

Invests Her Money and Then Fears She Made a Bad Bargain-

CALLS UPON THE COUNTY ATTORNEY

Company Has a Plan Which Proposes to Give Everyone a Home Chenper Than Regular Rent Payments.

The attention of County Attorney Killpack has been called to the Equitable Home association, the headquarters of which are said to be in St. Louis, and which recently opened up a branch office in this city. The county attorney was requested to investigate the modus operandi of the company by mittee makes unanimous report on school a woman who had been induced by one of the company's solicitors to invest in it. This woman, whose name the county attorney declined to make public at this time. said that the company's selicitor who called upon her and upon whose representations she had been induced to invest, had given her the names of certain well known business men of the city whom he claimed had invested in the company. These business men, when asked by her, the woman stated to Mr. Killpack, denied having had anything to do with the company. The woman, as decided upon at a meeting of the comaccording to her statements to the county mittee held March 12. According to the attorney, was afraid that she had been induced to invest her money in one of the socalled "get rich quick" concerns, and asked of selecting twenty delegates to the state

him to investigate it. The Equitable Home association has an 4, and the same number of delegates to the office in the Merriam block and a sign an- congressional and judicial conventions of nounces that F. R. Beeman is the local the party, which have not yet been called. manager. Mr. Beeman, it is understood, is The precinct primaries to select delegates also superintendent for Nebraska of the to the convention will be held Saturday Reserve Investment Company of America. evening, April 2. which maintains an office in Omaha.

According to the advertising matter is sued by the company the officers of the Equitable Home association are: W. H. lodge of Elks last night H. A. Searle was Clifton, president and treasurer: S. Chamberlain, vice president, and D. were: Esteemed leading knight, Thomas Wheeler Smith, secretary, all of whom are Green; esteemed loyal knight, E. H. Waltsaid to be residents of the World's fair ers; esteemed lecturing knight, Dr. Gail city. D. Wheeler Smith is said to be a for- Hamilton; secretary, E. A. Troutman; mer resident of Des Moines. The associa- treasurer, Hubert Tinley; tyler, L. H. tion claims to be "founding a grand and Fitch; trustee, O. P. Wickham; delegate to broadly beneficent principle of rent equity grand lodge. Emmet Tinley. for home ownership" and that 4 per cent is charged him on money drawn out for the purchase of his home.

the company's solicitors, it proposes to enable a person to own his or her own home at a monthly cost of less than half what is usually paid for rent. Supposing that the home that the person desires is to cost \$1,000. First a membership fee of \$5 has to be paid the company and then come the monthly payments "in anticipation" of \$3.25. These "in anticipation" payments must be made for twelve months, or they can be tricts, has threatened a shutdown paid in one amount, namely, \$39, and this monthly payments have been made either in | and a portion of Missouri. monthly installments or in one lump sum the contract provides that "It shall be the the holder, on the payment of 50 cents registration fee, to register such centract cate of registry to the holder thereof, and loan office of Squire & Annis, 101 Pearl when such contract is reached in the order of its registry under the rules thereof, to purchase or build, under the direction of such holder, a property of the value stipu-

lated in such contract subject to the approval of the association's board of appraisers." When asked yesterday how long a person might expect to have to wait before his turn would come after his contract had been "registered" to receive the money Beeman said that a reasonable time would be between four and six months. Once in possession of his home the contract holder is required to pay \$6.59 on each \$1,000 monthly until such time as these payments will aggregate the cost of the home. These payments, the company figures, would be

ompleted in twenty years. Manager Beeman, when explaining the had only been established since the first of the month it had already written about \$40,000 of contracts, most of them being on the monthly payment plan and consequently not sufficient time had elapsed for any of the contract holders to be in possession of their homes. Further, Mr. Beeman stated that he was negotiating with several prominent business men of the city

Mr. Beeman denied that the Equitable Home association had any connection whatever with the Chicago concern of which J. M. Swartz was secretary and treasurer.

Matters in District Court. The entire day yesterday in the district ourt was taken up with the trial of the divorce suit of Mrs. Belle Cummings against W. A. Cummings. The plaintiff accused her husband of cruel and inhuman conduct, while he on the other hand charged her with being of a violent temper and disposed to make trouble at all times and on all occasions. After listening to the evidence on both sides Judge Wheeler dismissed Mrs. Cummings' petition and taxed the costs of the suit against her. W. A. Cummings, the defendant, is a well known engineer on the Union Pacific.

Judge Wheeler announced that he would make the first assignment of law cases for the term Monday morning. The grand jury will be impaneled Tuesday.

Howard R. Proctor, father and guardian of Mrs. Addie Lowther, whose personal injury damage suit against the Burlington road was settled for \$2,000 at the recent term of United States court in this city. has applied in the district court to be appointed permanent guardian of his daughter, who is said to have become insane as the result of her injuries. He reporis that of the \$2,000 received from the railroad company a balance of \$1,139 remains in his hands, the remainder having been expended in connection with the dam

SETTLES CONTROVERSY FOR ALL TIME

Former State Auditor Merriam Returns and Appears Before Committee-Insists All His Acts

Are Within the law.

(From a Staff Correspondent.) DES MOINES, March 25 .- (Special.)-The report of the special committee appointed to inspect the site of the Deaf school at Council Bluffs, completed today and unanimously agreed to by all the members of the committee, was of such a character as to finally dispose of the whole matter of removal. The report, as made to the house, was the first definite information the house had on the matter and was the first time the house had had an opportunity to act. The report favored the retention of the present site, the purchase of additional land, the employment of an architect to lay out the grounds and an appro

priation to make repairs on the present

The report in full was:

priation to make repairs on the present buildings. The report in full was:

We find that the state owns about 172 acres of land, all, or nearly all, above high water mark; no overflow from the Alissouri river has ever been known, as the bottom between the ground and the river to the west is nearly five miles. Haif way between the ground and the river is Lake Manawa, surrounded by beautiful cottages on practically the same level as the lowest part of the state ground. The creek running along the roadside east and west to the north of the grounds does, in a time of cloud-burst, get over its embankments, and will back the water up on the state grounds for a short distance at the extreme north-west corner of the grounds, which is fully a quarter of a mile from the building site proper. We were informed that last year during the heavy rains about three acres of land in that particular spot had been flooded. The main site, probably 100 acres, is located on the side of the bluff to the west in a triangle or kite shape, surrounded by a road on all three sides; seventeen acres, or about that, are located on top of the bluffs to the east of the large tract mentioned before, on which the reservoirs are located. The balance of the land owned by the state is to the west of the triangular piece between the main road and the Wabash tracks, and part of it west of the Wabash tracks, both pieces are very level and are used for pastures. Along the east side of the road, running nearly north and south to the east of the triangular piece, the Commercial club of Council Bluffs claims to have an option on the land lying east of said road and north and south of the seventeen acres the state now owns, and if cottages are to be built, as recommended by the Board of Control in their report, your committee would recommend that the state purchase the land alongside of that road and erect the cottages. report, your committee would recommend that the state purchase the land alongsidthat the state purchase the land alongside of that road and erect the cottages thereon. Your committee find ample room on the high ground for the school building necessary, and to the north of the high ground a splendid grove of nearly fitteen acres from ten to fitteen feet above high water mark. We find to the south of the high ground a beautiful piece of ground, all above high water, for gardening purposes. Between that and the park due west of the high ground whereon the buildings are located we find a level piece of about the same elevation as ground now used for pastures, as mentioned before.

miners, in joint conference with the operations to arbitrate questions affecting the wage scale in the First and Fouth districts, has threatened a shutdown of every coal miner in the Thirteenth district, which includes the entire state of lowal and a portion of Missourt.

The miners demand a day wage of \$2.24 for unskilled labor in the districts referred to and the operators refused because of conditions existing in those districts which render that character of labor much cheaper. No objection is made to the scale in other districts.

Thirty thousand miners will be affected in case the miners' representatives refuse to arbitrate and a general shutdown is ordered. The operators have issued their utitimatum and the miners are holding a private neesion in order to canvass the meeting of the joint scale committee of illinois coal miners and operators today the question of rating new mines in Saline and Franklin counties and at Decatur, Tower Hill and Raymond were discussed, entirely new conditions existing at some of these mines.

RED OAK, I.a., March 25.—(Special.)—Yesterday shortly after noon Dr. E. G. Fisher shot himself at his home, 51l Washington avenue. Dr. Fisher was found.

The content of the position of t

To Concentrate Educational Work. The following resolutions were introduce n the house and laid over:

in the house and laid over:

Whereas, Our state educational institutions are rightfully and properly demanding from the legislature of lowa generous support, that they may better fulfill their mission in the education of the youth of our fair state; and
Whereas, It is the evident desire of the members of this general assembly that insofar as it is possible such plans be formulated and encouraged, and such appropriations made, by an equitable distribution of all public funds at our command, to help fulfill at the earliest possible time the laudable ambition of lowa's taking first place in the educational work of this great nation; and
Whereas, Some difference of opinion seems to exist among leading educators as

seems to exist among leading educators as to lines of work and plans for equipment and buildings for future educational advan-

to lines of work and plans for equipment and buildings for future educational advantages; and

Whereas. At least two adjoining states seem to have found in consolidation and concentration such advantages as to equal if not outstrip us from an educational point of view, with less funds expended; therefore be it

Resolval, by the house, the senate concurring. That a committee of four from the house and three from the senate be appointed to take into consideration the advisability of a consolidation and concentration of educational interests as to courses of study in the lowa State university and the Iowa State college, and report, with such recommendations and advice, giving such information as may be for the better understanding and enlightenment of this assembly in the future success of our educational work.

Proceedings of House.

The house considered the Hart bill to prevent the enforcement of void judgments in counties far removed from where obtained. The bill was to put a stop to the collection of irregular judgments on illegal notes of defunct insurance companies. It was defeated.

The following bills were passed:

Refunding sundry sums to teachers at the School for the Deaf at Council Bluffs on account of clothing and personal effects burned. Refunding fees paid the state by the State Veterinary board.
Authorizing payment of \$2 a day for special policemen at elections.
Two bills extending the right to construct sewers to all incorporated towns, the same is to cities
Permission for a member of the Board ermission for a member of the Board Supervisors to be an overseer of the

o levy a 4-mill tax to build levies and em-minkments. To authorize the state to drain lakes and solf the beds where title is in the state.

Primary Elections Bill. In the senate the committee on elections nade a report on the matter of a primary election law, presenting what is known as in the house a few days ago as a substitute for the Crossley bill, which has been before the committee since early in the seasion. The bill was made a special order for consideration for next week Wednesday at o'clock.

The senate passed a number of bills, most of them without opposition. A bill to prevent the docking of horses in the state and fixing a penalty of \$100 fine

for such an offense was adopted by unanimous vote. A bill requiring railways to report owner-

ship of real estate to the executive council for assessment was passed. A bill relating to taxation of mortgages. making the holder pay the taxes, which has

been before the legislature at every session for a dozen years, escaped a motion for indefinite postponement and was referred to the ways and means committee.

A bill amending the code relating to stipulated premiums and assessments for life insurance companies was passed. A bill was passed to fine persons for hav-

ing game birds in their possession. A bill was passed to punish with three years' in the penitentiary any officer of a court who receives a bribe A bill by Saunders providing that clerks

of grand juries shall be appointed by district judges and shall receive a salary of \$4 per day was passed. A bill to provide that the state pay the

costs of investigation and care of persons found insane in counties other than their legal residence was adopted.

Merriam Appears Before Committee.

Former State Auditor Frank F. Merriam appeared before the special legislative committee this afternoon appointed to inquire into the matter of the charges made against him in the examination of foreign insurance companies a few years ago, and for which large fees were charged. Mr. Merriam said he had returned to the state of his own volition and that he is glad of an opportunity to give the committee and the people whatever information he can in regard to his actions which are under consideration. He contends he has not done anything illegal, and his contention is backed by the opinion of Attorney General Mullen, he asserts, concluding that there has been no violation of law under the Iowa statutes. Mr. Merriam says there is only one matter in which the committee can possibly question his actions, and that is in regard to the charges made for mileage, separate charge in each case where an examination was held, although he did not make a separate trip for the purpose. He says he but followed the custom of sheriffs. United States marshals and others in that matter. The former auditor is now located at Muskogee, I. T., engaged in the publication of a daily newspaper which he has recently purchased.

Important Revision of Law. The attorney general prepared and Repesentative Cummings today introduced is the house a bill to effect a material change in the method of forming corporations in Iowa. It provides that before any company shall receive a charter it shall submit its articles of incorporation and plan to the attorney general and secretary of state and they shall approve the same before the company can do business. At present there is no check on the indiscriminate forma tion of corporations in the state.

Cummins is Improved. Governor Cummins was reported improved today. He has been ill and threatened with a complication of lung and bronchial troubles, but the danger seems to be largely past now.
