Much interest is being manifested by local aportsmen in the match to be shot between Charles Thorpe of Geneva and Gus Harriof this city on the Omaha Gun club's grounds Saturday afternoon. It is to be at 100 live birds for \$100 a side, and owing to the good-natured rivalry between these two cracks as well as on account of the size of the bet each may be depended on to do his prettiest. BISHOP FAVORS FOSS BILL

Head of Diocese of Peoria Speaks in Favor of Arbitration.

TRIBUNAL SHOULD CONSIDER QUESTIONS

Where Industry Will Not Pay Living Wages Work Should Be Stopped,

Says Prominent Church.

WASHINGTON, April 6.-Bishop Spalding of Peorla, a member of the Anthracite Coal Strike commission, today urged the plan of arbitration contained in the Foss bill before the house committee on labor. The bill provides for a permanent board of arbitration to which shall be referred disputes between labor and capital.

Volney W. Foster briefly concluded his remarks begun at the last hearing on the bill. Mr. Foster took to task President Gompers of the Federation of Labor for opposing the bill. He quoted Mr. Gompers as favoring arbitration in a speech before the Civic federation in New York, in December, 1901, and then referred to Mr. Gompers' statement before the committee at the last meeting to the effect that strikes are a good thing.

John Mitchell of the coal miners' organization, and James Duncan, first vice prestdent of the American Federation of Labor, were quoted as in favor of arbitration in their public utterances.

The latter statement of Mr. Gompers and also of Daniel Davenport, representing the Antiboycott association in favor of strikes and lockouts. Mr. Foster believed, were inspired in the first instance by the personal interests of the gentlemen making

Pennsylvania Republican Convention Draws Contrast Between Good Times and Bad.

ENDORSES ACTION AGAINST THE TRUSTS

Approves Course of Administration in Panama Affair and in Present War Between Russin

HARRISBURG, Pa., April 6 -Former Attorney General John P. Elkin of Indiana county was nominated unanimously for supreme court justice today by the republican state convention. Governor Samuel W. Pennypacker, James Elverson of Philadelphia, O. D. Bleakiey of Franklin and Francis L. Robbins of Pittsburg were elected delegates at large to the national convention and instructed to vote for the omination of President Roosevelt. Robert Pitcairn of Pittsburg and Levi G. McCauley of Philadelphia were nominated for presidential electors at large.

The selection of Mr. Elkin, whose name was the only one presented to the convention, is one of the most remarkable incidents in the history of Pennsylvania politics. He came to Harrisburg on Monday as a candidate, without opposition, for delegate at large, and was confident of the earnest in his defense. nomination of Governor Pennypacker for the supreme beach. But the governor late yesterday declined the nomination. The party leaders then agreed to nominate Elkin, and after the Philadelphia, Allegheny, Lancaster and Dauphin county lelegates caucused and agreed upon Mr. Elkin there was never any doubt of his nomination. The salary of the supreme court justice is \$10,000 a year and the term is for twenty-one years. Mr. Elkin is 44 years old and for years has been one of the republican leaders of the state. to strike, was the one weapon of labor

The resolutions reaffirm the last national and state platforms and call attention to the party's accomplishments within the last seven years in "contrast between conditions today and those existing under the last democratic administration."

Instructs for Roosevelt.

Continuing, the plaiform says:

We glory in the achievements of the party during the achievements of the late lamented McKinley and his successor in office who has so faithfully adhered to his policies and forcefully carried them into affect. They have orought unparalleled prosperity, maintained the public nonor, fostered industry, stimulated enterprise, extended american commerce, strengthened American influence, ennobled American citizenship and brought prosperity alike to capital and labor.

We commend the wise statesmanship and promptness of action which have enabled us to secure national control of territory required for the Isthmian canal and which will, in the near future, unite and make near neighbors of the guif, the Atlantic seaboard and the Pacific.

We commend the vigorous and effective action of the present administration in the enforcement of laws enacted by a republican congress for the prevention of uniawful combinations. Continuing, the platform says:

The Omaha Western league team defeated Nebraska university today at base ball and svened up for its humiliation by the Cornhuskers yesterday. We deplore the war now waging between Russia and Japan, commend the position of absolute neutrality maintained by the government at Washington and continuing the administration upon the success of its diplomatic efforts, resulting in securing the assent of the powers to the restriction of the zone of warfare, thus protecting our rapidly growing trade relations in the Orient.

In Theodore Roosevelt, soldier and statesman, author and scholar, equal friend of labor and capitol, vigorous and impartial executive, we have a president of whom we are justly proud, and whose wise and beneficent administration we heartily endorse and desire to have continued we therefore, unanimouslysrecommend his nomination for the presidency by the approaching national who thereafter made only one all and scored no runs.

As to Forest Reserves.

Senator Hansbrough's bill relating to the creation of forest reservations on the pub-He domain, as amended by the committee on public lands, was favorably reported today. The committee adopted an amendment providing that all selections of land made in lieu of land hereafter relinquished to the United States within any forest reservation shall be limited to land of the same character and quality both as to so and timber as the land relinquished. Senator Heyburn offered an amendment

requiring that selections be made in the state and territory in which the land relinquished is situated. This amendment was rejected and an exemption was made of the state of Idaho so that no selections shall be made in that state except for land relinquished in the state. It was provided, further, that the amendment shall not effect the agreement entered into by the secretary of the interior in regard to the San Francisco mountain reservation. The section of the bill relating to railroad grants was amended so that it provides that no forest reservation shall hereafter be created covering any lands within the place or indemnity limits of any railroad and grant or any platted village, town or city. This is one of the greatest fields ever opened up, risk no greater than farming. Land in the proven trends deselopes nine producing wells out of every ten drilled. The general average production of 700 wells now operation is fitteen barrels per day. We have three properties in three distinct parts of the field absolutely proven all around, and on the land one 30 acres, one 160 and one 180. Our object is to put in thirty-two wells on the first, sixty on the second and sixty-five on the third.
