catarrh in some form.

While the disease is one of the most common, it is also one of the most dangerous and offensive, leading to consumption and other diseases of the respiratory organs. Prior to the discovery of Hyomet and its introduction in this section by the Sherman & McConnell Drug Co., corner 16th and Dodge streets, Omaha, every method of treatment had been found worthless,

The discovery of Hyomei and its growing popularity has already reduced the percentage of those suffering from catarrh, This wonderful remedy is the simplest and mest pleasant of treatments. Put 20 drops of Hyomel in the pocket inhaler that comes with every outfit and breathe it for a few minutes four times a day. Relief will be seen after the first treatment and a complete cure will soon follow. Breathe the Hyomei in this way and the catarrhal germs, even in the most remote air cells, are destroyed. The irritated mucous membrane is soothed and healed and perfect

Failure

to cure indigestion is largely due to the old theory that when the stomach becomes inactive it needs something to mechanically digest its contents, and catharties, purgatives, etc., are used, which give only temporary relief, because they digest by irritating the lining of the stomach.

Modern science recognizes the fact that it is the nerves that turnishes motive power to digest the contents of the stomach.

The nerves agitate and mix the food and stimulate the secretions. When they become weakened they lack energy and inaugestion, dyspepsia, sour stomach result.

Negect of the internal machinery of th human body is very prevalent among busy people and the resulting discomforts are such as to cause misery to thousands who are unable to locate the trou-ble or form an idea as to the cause.

From constipation result indigestion, dyspepsia, billousness, insomnia and hundreds of other troubles that can be directly traced to constipation as the real cause. Many persons suffer from one year's end to another with internal disturbances and only realize that they are suffering without being able to unstand what they are suffering from. In the great majority of cases constipa-tion is at the root of their misery and if they overcome that they will soon resume normal health.

Recently there has been put on the mar-ket an absolute cure for constipation with its many attendant ills, under the name of Milks' Emulsion. This preparation is put up in such a manner as to be palatable to the most sensitive palate and stomach and while absoutlely reaching the cause of disease and remedying the existing trouble, leaves no bad after effects. This wonderful medicine not only cures constipation, but is most ef-ficacious in stomach disorders of all forms, in catarrh, colds, coughs and all other throat and lung troubles. RIVER AND HARBOR WORK

House Passes the Bill Reported by the Committe.

DISTRICT OF COLUMBIA BILLS WAIT

Mr. Barton Believes That Amount Expended Upon Waterway Improvements Compares Unfavorably with Foreign Countries.

WASHINGTON, April 11 .- The house today passed the bill reported by the committee on rivers and harbors appropriating \$3,000,000 for the restoration or mainhace of channels, or of other river nd harbor improvements. Mr. Burton, chairman of the committee, in explaining the bill urged the adoption of settled priniples with regard to river and harbo work. Menurs. Burgess of Texas and Ransdell of Louisiana favored increases n the appropriations in the river and harbor improvements, the former urging that they should be doubled, and the latter regarding \$186,000,000 as not too much. Mr. Clark of Missouri made a plea for the improvement of the Missouri river. Quite a large number of bills of minor import-

ance were passed. It was ordered that bills relating to the District of Columbia which were to have been taken up today shall be considered on Saturday next. The house then went into committee of the whole for the consideration of the emergency river and harbor improvement bill, general debate being limited to three hours.

Mr. Burton (Ohlo), in charge of the bill made an explanation of it and gave a general explanation of the subject of river and harbor improvements. He said that the amounts expended for this purpose. when the vast extent of our waterways was considered, was very small. The system pursued in the United States, he thought, contrasted most unfavorably with those of foreign countries.

Instructions and Warns Players,

CINCINNATI, April II.—President J. Ed. Grillo of the American association today sent his interpretation of the playing rules and instructions to managers, captains and players, relative to their conduct on the neid. Grillo makes it plain that the umplies are to have his support and warns players against the violation of any of the rules he lays down.

The playing rules are interpreted similarly to the manner of those recently sent out by President Pulliam of the National league. The American association staff of ampires will report been next Monday to receive special instructions.

AMATEUR CIRCUIT NOW POSSIBLE

Horses of Country Can Be Entered Without Taking Record.

NEW YORK, April II.—The initiation of an amateur driving circuit by the principal driving clubs of the country in the coming season was decided upon today at a meeting of the League of American Driving clubs. Such a circuit was made possible when the National Trotting association, at its meeting here in February, voted to parmit the amateur driving clubs to hold one meeting yearly in any city, where a club was located, for not more than three days and to charge no admission therefor, without the horses taking record as they would have done heretofore. Without Taking Record.

Papa Bill Rourke and Joe Dolan have buried the hatchet, and while the handle is pointed toward Pa, it is not likely to be dug up again this season. Plake's apparent inability to attend to the natural business that falls to the lot of a shortstop during a base ball game, and the failure of the Pennsylvania man to show up, taken with the likelihood that Joe Quinn will not be able to get away from St. Louis for a long time, set Rourke to thinking. Dolan is willing to work, and makes good promises, so he will be given a chance to make good on his talk. He was signed last night to play short for Omaha during the coming season, or at least during good behavior. He can play good ball, and says he will de his best for Omaha. Dolan Signs with Omaha.

National Leaguers at Grand Island. GRAND ISLAND, Neb., April 11.—(Spe-ial Telegram.)—The Chicago National engue team divided its men and with three league team divided its men and with three local players in the game played seven innings, with a score of 9 to 6 for the regulars. A cold, stiff wind took the life out of the game and caused a small attendance. Art Glade pitched and Phil covered short for the regulars, while Harriot of the local team played left for the Colts.

It builds up the blood cells, the nerves and life tissues before the added flesh begins to appear.

Its unseen work is more important than the seen.

MOODY WANTS FULL CONTROL

IMPROVE CURRENCY CONDITIONS TO Treasury Has Five Hundred Carload

of Silver Dollars, Which Would Cost \$100,000 to Have Recounted.

WASHINGTON, April 11.-Secretary Moody is not in favor of the creation of a general staff in the navy modeled after the general staff organization in the army. This fact he communicated to the house committee on naval affairs teday in a hearing granted him on a bill of his own drafting "to increase the efficiency of the

time to time direct. The secretary explained that this bill did not really enlarge his present authority in the matter of an advisory board. He now has the right to create such a board of any number of officers and continue them on the board for any length of time.

Such a board, the secretary explains, was absolutely-"in the hollow of the hand of the scoretary of the navy." He could create it at will and discontinue it at will. Its functions would be purely advisory. He said that a civilian had been and always would be at the head of the navy and that it was proper he should have expert advice, but as he was responsible to the country he should be master of the situation. No board, he said, should be created which could usurp the powers of the secretary. The board provided for in his belief, he said, should have no executive power nor jurisdiction over the bureaus of the navy.

The committee took no action on the bill, which has not as yet been introduced in congress.

To Improve Currency. A report from the house committee on

banking and currency recommending the passage of the bill "to improve currency conditions" was filed in the house today by Chairman Powier. The first section of the bill repeals the law which prohibits customs requipts from being deposited in national banks. The result of the present law in this matter, the report says, is unnecessarily to tie up the money of the country. The report says that if states and municipalities should lock up the proceeds of local taxation as the national govern ment locks up its receipts the effect would be disastrous and yet there is as much reason for such a course in the one case as in the other. The second section repeals the monthly

\$3,000,000 limit on banknote retirement. The recoinage of silver dollars into subsidiary silver coins is provided in the third section of the bill. The limit of \$100,000,000 as the total amount of subsidiary sliver coins that can be in existence at any one time is repealed by this section. The report says that on July 1 next the buillon from which subsidiary coins may be made will be exhausted. There is in the treasury 578,612,089 silver dollars, or, says the report, according to Secretary Shaw, 500 carloads of thirty tons each.

It would cost \$100,000 to recount this money and the secretary says that it is worth in bullion less than half of its face value in dollars. It is this money that the bill proposes to recoin into subsidiary allver as rapidly as the secretary shall order. In this recoinage there is estimated a profit to the government of 7 cents on each dol-
