No Agreement on Clerk. Chief Justice Holcomb, Judge Sedgwick and Judge Barnes of the supreme court were in consultation today and will begin this session of the court tomorrow. Judge Barnes stated this afternoon that no agreement had thus far been reached in the matter of appointing a clerk to take the place of Lee Herdman, though he said he and Judge Sedgwick might agree and make the appointment at this sitting. Among the important opinions that prob-

ably will come down at this sitting is that wherein the Bankers Union of the ings at \$15,582,600.81, its operating expenses World, of Omaha, is vitally concerned. One of the judges stated today that this opinion likely would be handed down. The decision in the Liflie murder case, in all probability, will not be handed down.

> TROUBLE OVER BRIDGE MATERIAL Colfax Commissioners Alleged

Have Bought Liberally. SCHUYLER, Neb., April 18.-(Special.)-Ever since the Platte river wagon bridge at this point went out with the ice in the spring of 1908 there has been almost constant endeavor on the part of those interested in having it in to get it rebuilt, and strife against their endeavors by a majority of the Board of County Commissioners, backed by strong sentiment of a great majority of the citizens of the county outside of Schuyler. Effort was made to make mandamus proceedings effective, but the supreme court would not issue same, because there was no showing made of funds with which to prosecute the work nor provision made for it by any levy then made. The depleted condition of the bridge fund caused some investigating, and it was discovered that large quantities of bridge material had been bought, it is alleged, without regard for laws governing the purchase of same, the commissioners having bought material on their individual orders, the bills being audited and allowed as soon as presented, and it has been stated, the minority commissioners being authority, that there are at this time fifteen or sixteen carloads of bridge material belonging to the county at Schuyler, Rogers. Clarkson, Howells and Leigh. The discovery of this condition, which seemed to indicate that the commissioners were purposely working to keep the bridge fund depleted, caused a storm of adverse sentiment and action is now being strongly urged to stop their work. A restraining order was issued from the county court Saturday temporarily restraining the comterial so purchased, drawing orders for pay-

They had been to this place to attend a church council meeting and were on their way home and when about three miles west of this place the vehicle they were riding in was run into from behind by Thomas Duggan of Hubbard, who had his team running as fast as they could go. Duggan's team ran right up into the spring buggy occupied by the women, the tongue of the wagon punching their seat for the valuation of bridges are two at of and hurling the women headlong out of their buggy. Tobacco Measure, Army Chaplain Bill and Nebraska Homestead Law. WASHINGTON, April 18 .- The house today passed the last of the supply bills of the government, the general deficiency appropriation measure, after a stormy session which lasted until 8:15 in the evening. The contest was a party one over the deficiency appropriation for pensions, which the democrats tried ineffectually to amend by incorporating as a law the recent executive age disability pension order. An effort was made by Mr Moon of Tennessee to secure a yea and nay vote on his amendment as to the age disability order, but the speaker refused to recognize him for this purpose.

On a pro forma motion to recommit the bill the democrats, angered by the speaker's refusal to recognize Mr. Moon, secured a roll call, but after the vote had been the bill was passed.
