A asked. B bld. Local Cash Grain Market.

Local Cash Grain Market.

The local cash market was very light, but as one broker said: "We've got the best cash market in the country. Everybody is holding stuff for higher prices. One man this morning had a car or two of yellow corn that he wanted 50% for, and seemed to feel he would get it, too."

The prices in wheat, corn and oats were stationary. The receipts continued light and would seem to show there is little grain in first hands. Receipts were: Wheat: 9 cars in and 4 cars out; one week ago, 5 and 10 cars. Corn: 12 cars in and 5 cars out; one week ago, 18 and 14 cars. Oats: 2 cars in; one week ago, 2 cars in.

In only four years of a half century has the opening of take navigation been so listed as it has been this year. The record is held by the year 186, when the opening was also years high prices have been the rule. Wheat sold for St.46 in July, 1815, for B.184 and ourning September of 1886 for St. This would seem to indicate that a late spring is not favorable to a large crop and low prices. The lake shirping has been completely fled up, and the only charter mach York by a vessel which is going into the Atlantic trade and for that reason released.

The spring weather is ideal for growing crops and farm work. Rain again has fallen in Kansas and Oklahoma, where it was needed. The bearishness of the northwest to perface the work to be far advanced with prospects for an increased acreage. These increases alrest the bullian help from the Ohio valley, so the sentiment has been complaints of slow germination due to cold the condition is generally good. Corn plowing during two days.
