JERRETT PITCHES IN GILT-EDGE STYLE

Rourkes Get but Three Hits, While Lichhardt Hands Out Eight, but Receives No Support from Team.

Omaha thrust a game on Sloux City yes-

won, not because they Bloux good, but because Pa's boys very much to the bad, alhough the visitors gave Jarrett good upport. The feature of the game was pitching of Jarrett. He certainly did ive a pretty exhibition of curves, and the est that the home players could do, or t least the best that they did do, was to Foole, p. such him for three scratch hits. For consecutive innings he sent the maha players to the bench in one, two, bree order, during which but three men aw the second cushion. In the eighth, by y Jay Andrews, Dolan and Thomas were at onto the third and second bases, resactively. Two men were out, but it was 'reese's time at bat and the congealing opes of the fans revived somewhat. So se got up, stood at the rubber until adge Keefe called three strikes on him ad then sat down. Each one of the three

rikes cut the plate in two. Liebhardt didn't pitch so bad a game, at he did it all with his hands and not at all with his head. The Soos touched im for eight scattering hits that, with be divers and sundry errors made by the ome team, were productive of a run in ach the sixth and seventh innings.

Today comes Golorado Springs, when the coings will be different by the home team or the slaughter will be a record breaker Attendance, 1,348. The score:

The prominence of the norses to be disposed of led to marked laterest in the occasion and a number of well known horsemen from various parts of the country were present.

Bingen was the first horse offered and was sold for \$2,000 to A. H. Parker of Bedford, Mass.

Everything has to have a beginning, and one of the most prolific sources of the discances and weaknesses so prevalent among man is the result of abuses in early life or neglected or improperly treated pelvic discases, such as Gonorrhoea, etc. While Gonerrhoea is considered one of the simplest contagious discases, yet through neglect it develops into Stricture and Gleet, insidiously progressing and tenactously fastening itself upon the system until it has invaded the kidneys, bladder and prostatic region, rendering it so complicated as to be incursible in some cases. Perhaps the first symptom was a little discharge, which if properly treated could have been cured in a few days. Rheumatism is another result of improper treatment of this condition, producing not only excrutiating pain, but it frequently warps and twists one or more of the joints in the body, producing horrible deformities, frequently depriving the individual of the ability to earn a living for himself, leaving him a heipless and tortured cripple for life. Another deplorable result of this disease when improperly treated is swollen glands, that are not only painful, but will finally destroy a man sexually, and in many cases physically. When this disease, through neglect or improper treatment, by its extension has caused a cystitic invasion of the bladder, thence by its extension up the ureters to the kidneys, it there produces results that are indeed lamentable. Some men, through ignorance of the consequences which are sure to follow neglect or improper treatment, consider this a trifling aliment and rely upon patent medicines, druggists and unskilled doctors in an effort to secure relief for the cost of a bottle of medicine, and by this procedure allow the disease to make serious inroads mental and sexual duries of life, and the patient pays dearly for his economy, or the selection of incompetent attendance.
