The choir of the cathedral, under J. W. Langman, has prepared a special program for the occasion.

Rev. John Randolph Smith of Trinity cathedral has returned to Omaha after attending the general conference of the Methodist Episcopal church at Los Angeles.

It was a splendid conference, said Mr. Smith, "and we look away our episcopal residence, which is bad, but it meant a good deal to have our city the head of a jurisdiction. The conference did not replace one of the bishops retired, so that we have one less than before, Omaha and we both galed nothing. They have about fifty-two votes and we have eighty-seven, while only ninety-four are necessary. The territory of the Omaha bishop was divided between Denver and Minneapolis. But it was a good thing for Omaha. Mr. Smith left Saturday afternoon before the final session and so arrives early next week.

Although serving his first term as a member of the highest tribunal of the church, he was recognized and spoke with clearness and conviction upon a number of the most important measures before the body. He proved himself a tireless worker and made many friends among the delegates, both ministerial and lay. He was prominently mentioned for the position of book agent at Chicago and would have been elected had he not been elected to the office of presiding elder of the Omaha district. He is in the not distant future he is sure to receive the recognition his services merit."

AFFAIRS AT SOUTH OMAHA

City Council Has Called Meeting to Pass on Two Ordinances.

PASSES BURLINGTON VIADUCT MEASURE

Railroad Gets Portions of Streets Under Its New Structure Which Permits Construction of More Switch Tracks.

A called meeting of the city council was held last evening. All members with the exception of Adkins were present. The ordinance declaring the necessity for the construction of a viaduct across the tracks at Thirty-sixth and L streets was passed. Along with this ordinance went one vacating certain parts of the streets under the proposed viaduct for the use of Burlington trackage. As soon as the council had adjourned the mayor attached his signature to the ordinance and they will both come into force as soon as the necessary publication has been made.

The passage of these two ordinances means that the city will acquire a viaduct 1,000 feet in length and thirty-four feet in width over a grade crossing that has caused more or less trouble for years. By the building of the viaduct the Burlington road will secure a crossing right to a couple of unused streets and an alley. This ground so secured will be used for the extension of sidetracks in the west Burlington yards.

An ordinance for the paving of Q street from Twenty-second to Twenty-sixth was introduced and read for the first time. There was a petition read for the paving of Thirtieth street from Q to Y. This was referred to the street and alley committee.

The next meeting of the council will be held on Monday night, June 6.

Building Permits. In spite of the fact that the city engineer has no time at present going around hustling building permits, three prospective builders called at the city offices yesterday and secured permits. Thomas Peterson is constructing a \$100 dwelling in Corriagan addition. Thomas Dunscombe has purchased property on Drew's hill and is putting up a home to cost about \$90. Fred Schmidt is also building on Drew's hill. His permit calls for a \$600 house. A number of minor permits were also issued. Deeser Martin Taken to Fort Crook. Yesterday afternoon Chief of Police Briggs took George W. Martin, a deserter from Company G, Twenty-second United States infantry, to Fort Crook and turned him over to the officers there. Martin deserted when the Twenty-second was ordered to the Philippines the last time. He stated at the city jail that he had served three years in the islands and did not desire to return. Chief Briggs and Detective Elfeldler will receive the customary reward for capturing a deserter.

Armour Offices Closed. The offices at the Armour packing plant were practically closed at noon yesterday in order to allow the force to attend the funeral of C. L. Saylor. A number of beautiful floral offerings were sent to the residence of the deceased by the office employees and nearly all attended the service. A. F. Carpenter, manager of the office force at the Armour headquarters in Chicago, is here and has taken temporary charge of the office. So far there has been no intimation as to who will be sent here to succeed the late manager.

Board of Review. No appointments have been made yet for members of the Board of Review. It is understood that neither the mayor nor city treasurer will make any appointments until the meeting of the council on June 13. The law says that the Board of Review must sit between the 15 and 25th of June.

Mayor Koutsky has an opinion that the law means what it says. Therefore, the board will convene on June 13 and adjourn sine die on the evening of June 24.

Magie City Gossip. John F. Ritchhart has returned from a trip to Chicago.

Mr. and Mrs. C. A. Melcher will return from Iowa today.

Ralph Hall of Chicago is here visiting friends for a few days.

Miss Augusta Burks leaves today for Dunlap, Ia., to visit friends for a couple of weeks.

Rev. Thomas Stephenson of Pueblo, Colo., will preach at the First Baptist church on Sunday morning.

A meeting of the members of Phil Kearney post No. 1 and the Woman's Relief corps is called for tonight.

Arrangements have been made for the Amphion club to sing at the First Methodist Episcopal church on Sunday evening.

IMPROVEMENT CLUBS MEET

Omaha View on Street Railway Extension and West Omaha on Feet of Weeds.

The street railway committee of the Omaha View Improvement club had very little encouragement to report to that club last evening as a result of its recent conference with the street railway management relative to the extension of the Harney street line to Maple street on Thirty-third street. All hope has been abandoned of getting the extension this year, but the committee did get some assurance that the extension would come some time in the future. The club decided to keep the street railway company constantly in mind of its wishes.

Some assurance was given that a number of sidewalk improvements are on the verge of accomplishment and that a few needed street grades will be made as soon as the weather permits.

The special committee on Hall reported that plans have been formulated for the building and that the subscriptions to the building fund are in an encouraging shape; that the full amount will be subscribed within the course of another week or two. The committee is now prospecting about for a lot upon which to erect the building and expects to submit its final report at the next meeting. The West Omaha Improvement club met at Forty-second and Dodge streets last night to talk over the weed question and the best means of vanquishing the magnificent crop of weeds now putting in an appearance on the vacant property in that district. The meeting was made additionally interesting by a smoker, in honor of the addition of three or four new members. These smokers are becoming frequent features of the club and add much to the enthusiasm and attendance.

Y. M. C. A. Notes. Charles S. Robel, manager of the International Christian institute, will address the men's meeting Sunday afternoon at 4 o'clock.

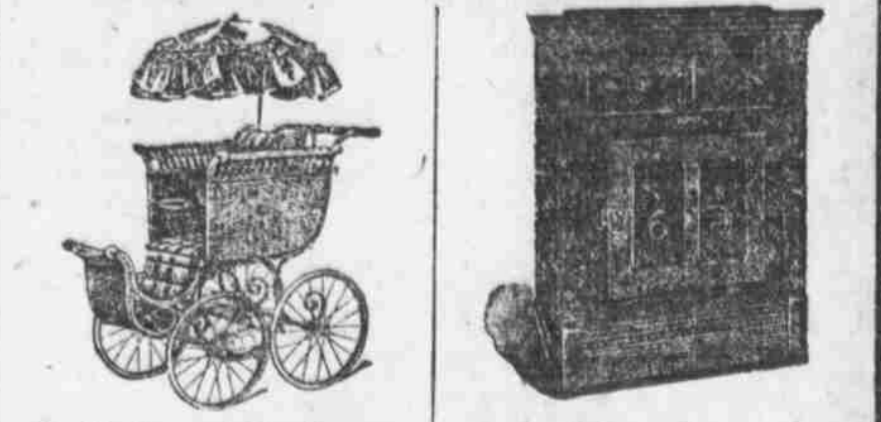

Arthur Jorgensen, former office secretary, assumed his new duties as boys' secretary on June 1 and plans are already being made for special boys' work during the summer. A tent will be conducted by the association at the high school encampment.

Information about the Vintners' World's Fair hotel, the inside inn, the Christian Endeavor hotel, University Park encampment, Grand View fraternal hotel, the Hotel Epworth and applications for private residences and dormitories, or printed matter concerning the fair in general, will be gladly given at the Omaha association.

On account of the success of the summer review school last year for the conditioned eighth grade pupils, the educational committee has decided to again continue this school and the following plans will be carried out. The school will be open on July 1 and continue eight weeks. The hours will be from 8:30 o'clock to noon. The course of instruction will be the same as last year. The school will be held in the high school building. The association has secured as instructor Prof. M. E. Graham, who had charge of the school last year. Of the thirteen pupils who entered last year Mr. Graham succeeded in placing ten in the high school.
