Harriman in More Trouble.

Rey D. Harriman was arrested yesterday by Detective Callaghan at the request of the Des Moines authorities, it being alleged that he is wanted in the capital city to answer to a charge of forgery. The Des Moires authorities, on being notified of the man's arrest, telegraphed that Eli Hardin, chief of detectives of that city, would be here this morning to take Harriman back. Harriman is not unknown to the police here, as on March 7 he was arrested on a charge of vagrancy, it being alleged that he had attempted to change a \$50 confed.

he had attempted to change a \$50 confederate bill at a restaurant where he had run up a board bill. Harriman, however, succeeded in getting rid of the alleged bogus as follows: bill and after being in jail several day was discharged for lack of evidence. At the time of his arrest in March Har riman gave the name of Robert J. Graso and evidence secured by the police shower

that since his arrival in Council Bluffs h had gone under the aliases of Rev. D. Har riman, Robert Ingman, J. L. Wise, Loui Le Doris and W. R. Bonham. At that tim he claimed to be a son of a wealthy and well known resident of Des Moines, bu this was later said to be proven false. I was said at police headquarters yesterday that young Harriman since his arrival is Council Bluffs had married a young woman of this city.

ATTEMPTS TO STRANGLE BARE

Man Skips Out Leaving Mother and Little One Helpless. After believing that he had choked the life out of the innocent babe to which his wife had given birth Tuesday evening, without even the attention of a nurse or a doctor, Peter Jensen, an employe of Gilbert Bros., the ice dealers, living at 1314 West Broadway, doffed his overalls,

lonned his best clothes and then skipped for parts unknown. The pitiable condition of the woman was Long by neighboring women, who reached water. the Jensen house in time to save the babe from being smothered beneath a mattress, where it is said the father placed it after dive at Courtland Beach,

Mrs. Jensen cannot speak English and is but a recent arrival from Denmark. From the neighbors, however, it was learned that Jensen, who preceded his wife and family here, sent for them about six nonths ago, and on their arrival took them to the two-room cetture at 1314 West Broadway which he had furnished. When the baby arrived Tuesday evening Jensen denied being its father and hence the trouble. In his passion he attempted and thought he had strangled the helpless infant, but neighboring women reached the house in time to save the little one's life. When the women arrived Jensen took off his working clothes, donned his best suit and left the house, saying they would see him no more. It was learned yesterday that he neglected to collect a few days' pay coming him from his employers,

Mrs. Jensen, after being taken to the hos pital, announced her willingness to give away the new-born babe, but said that she had a brother in South Dakota who would take care of the three elder children.

MAY REDUCE HARD COAL RATES

Alleged that Interstate Commerce Commission Will Hold Present Freight Rates Too High.

NEW YORK, June 15 .- As a result of the nerce commission it is believed, says the Herald, a demand will be made for a reduction of freight rates on anthracite coal. Should this course be adopted it is not believed that any recommendation will be made by the commission to the federal government for action against the coal roads All the other janitors hold over. on the ground that they had combined to restrain trade and came within the Sherman anti-trust law.

The Interstate Commerce commission, in making a demand for a reduction of existing rates, would act within its power, but the railroads, if they choose, could refuse to make the reduction and carry the case into the courts.

A reduction of rates would be of great benefit to the individual operators in the Pennsylvania anthracite field. It has been their contention for years that they were unable to mine coal at a profit on accounof the high freight. The majority of the individual operators who are still in the field now sell their coal at the mines to the greater companies, receiving a proportion galled to the attention of Rev. Henry De of the selling price of the coal at tide-

President L. F. Potter of Harlan presided and gave an informal report on the work of the association for the year, and this, with the reports of Secretary Dinwiddle of Csdar Rapids and Treasurer D. H. McKee of Mediapolis, showed that the association has made a considerable gain in membership that the finances are in excellent condition and much work was done in the interest of the bankers of the state during the year just passed.

At the opening session here today Captain Hull, member of congress, welcomed the delegates and the response was by Senator J. T. Brooks of Hedrick. Congressman Walter L Smith of Council Bluffs read a paper on "Should the Silver Dollar Be Redeemable in Gold?"

George E. Roberts of Fort Dodge, director of the mint, was present at the meetings, having just returned from St. Louis. where he inspected the mint exhibit of the government at the exposition.

Grocers Pienie in Rain. The annual picnic of the Des Moines grocers today drew a rainstorm as usual, but about 3,000 persons went from here on special trains to Newton. They ran into s college. On Monday forenoon was held the still greater obstacle by the refusal of for-Hill prize contest in extemporaneous speak- mer Senator Gorrall to allow the picnickers to go through his land to the picnic grounds. A big row followed and there was danger of trouble. The owner of the land claims he had not given permission at all and that two years ago they broke down his fences. The officers of the association proceeded to call off the picule and came out in a sharp criticism of Newton for the inhospitality of the people. An extensive program of field sports had been arranged, with large prizes.

People Want Stations. The state railroad commissioners have set dates for investigation of some matters out in the state. At two places station facilities are wanted. At Spragueville, in Jackson county, where they will be June 29, the people want a station established on a Milwaukee branch line, but the company claims the grade is too steep and the business will not warrant it. Some Other Increases. The committee recommended that salary of S. L. Thomas, professor of physical science in the high school, be increased from \$1,000 to \$1,200 per annum. but the board cut this down to \$1,100, while it raised Prof. Grason, teacher of the business department, from \$900 to \$1,000, on the grounds that if Prof. Thomas was entitled to an increase Prof. Grason was. Members Shugart and Westerdahl objected to the increase of salary for the supervisors of music and drawing and moved that they be placed at \$90 a month instead of \$95. The motion was lost and the increase recommended by the finance committee carried.

Member Shugart also moved that the salaries of teachers in the Second, Third, Fourth, Fifth, Sixth and Seventh grades be restored to \$5 a month instead of being placed at the maximum of \$60, as had been done by the adoption of the amendment of rule No. 81. This motion also falled to carry.

Indians Work on Roads and Dams, PIERRE, S. D., June 15.—(Special.)—E. J. Varner, who has charge of the Cheery Creek subagency on the Cheyenne river reservation, reports that he has 420 Indians on the payroll for road and dam work this spring. They are at work on several miles of new road and building dams at all the guiches which they cross. While the Indians keep pretty steadily at work he says it requires a great deal of work to keep their time, as an Indian may work a half day "on foot," as he calls it, and decide to
